The Great Arab Conquests:

The Great Arab Conquests Hugh Kennedy, 2007 The success of the Muslim conquests was the product of a unique set of circumstances and the preaching of a simple new monotheistic faith There were many features of Islam that would have made it approachable to Christians and Jews It had a Prophet a Holy Book established forms of prayer dietary and family laws Abraham and Jesus were both great prophets in the Muslim tradition From the very beginning Islam established itself as a new faith but it was one that claimed to perfect rather than destroy the older monotheistic ones It had none of the strangeness of say Buddhism These similarities this common tradition must have aided and encouraged conversion In the final analysis the success of the Muslim conquest was a result of the unstable and impoverished nature of the whole post Roman world into which they came the hardiness and self reliance of the Bedouin warriors and the inspiration and open quality of the new religion of Islam Book jacket **The Great Arab Conquests** Hugh Kennedy, 2008-12-09 In this engaging history world renowned historian Hugh Kennedy deftly sews together the stories of the people armies and events that conquered an area from Spain to China in just over 100 years **The Great Arab Conquests** Sir John Bagot Glubb, 1966

The Great Arab Conquests Hugh Kennedy, 2010-12-09 A popular history of the Arab invasions that carved out an empire from Spain to China Today s Arab world was created at breathtaking speed Whereas the Roman Empire took over 200 years to reach its fullest extent the Arab armies overran the whole Middle East North Africa and Spain within a generation They annihilated the thousand year old Persian Empire and reduced the Byzantine Empire to little more than a city state based around Constantinople Within a hundred years of the Prophet s death Muslim armies destroyed the Visigoth kingdom of Spain and crossed the Pyrenees to occupy southern France This is the first popular English language account of this astonishing remaking of the political and religious map of the world Hugh Kennedy s sweeping narrative reveals how the Arab armies conquered almost everything in their path One of the few academic historians with a genuine talent for story telling he offers a compelling mix of larger than life characters battles treachery and the clash of civilizations **The Great Arab Conquests** John Glubb, 2025-02-03 A fascinating account of the fifty years of major conquests that established the vast Arabian empire shortly after Mohammed s death changing the Middle East forever This record of the history of Arabian expansion and its Bedouin people is the perfect read for fans of T E Lawrence Hugh Kennedy Justin Marozzi and Robert G Hoyland For the Bedouin tribes of Central Arabia the years A D 630 to A D 680 were transformative as through their religious fervour and courage they established one of the greatest empires in all history second only to the achievements of Alexander the Great Their scope and success were all the more remarkable for the lack of a trained disciplined army or any central organisation and despite the existence of tribal divisions and the personal ambitions of this warlike people Using his deep personal understanding of the history and characteristics of the Bedouin people gained during time living amongst them original Arabic sources and European translations Glubb provides an insightful and thought provoking read Among the

most astonishing and significant events in human history Times Literary Supplement Sir John Glubb s unique insight into Arab mentality has enabled him to write a fascinating account of his subject The Sunday Telegraph A scholarly work by Sir John Glubb whose obvious fascination with his subject transforms the driest and dustiest desert war into a thing of excitement and suspense Evening News Praise for John Bagot Glubb s Great Arab History Sir John Glubb as always a clear guide illuminating history by the fruits of his own experience The Times Few men are better qualified to bring such a period to life The Sunday Times *The Great Arab Conquests* Sir John Bagot Glubb (dit Glubb Pacha.),1963 *The Great Islamic Conquests AD 632-750* David Nicolle,2012-06-20 Few centuries in world history have had such a profound and long lasting impact as the first hundred years of Islamic history In this book David Nicolle examines the extensive Islamic conquests between AD 632 and 750 These years saw the religion and culture of Islam erupt from the Arabian Peninsula and spread across an area far larger than that of the Roman Empire The effects of this rapid expansion were to shape European affairs for centuries to come This book examines the social and military history of the period describing how and why the Islamic expansion was so successful The Arab Conquests of the Middle East Brendan January,2009-01-01 An illustrated history of the Arab conquests of the Middle East begins with Muhammad s life and revelations and covers events from the early period of the Muslim community as it struggled to survive to its expansion and dominance over the Arabian peninsula *The Conquest and Islamization of Iraq* Hüseyin Gökalp,2023-12-06 This book examines the early Muslim conquests that started with the first caliph Abu Bakr and accelerated during the reign of the second caliph Omar During this time the Sassanids were destroyed the political and commercial order of Rome was turned upside down and the ancient period came to an end Iraq a province belonging to the Persians and the capital city of Ctesiphon was the first of the regions the Caliphate entered This book explores in detail the history of the Islamic conquests in Iraq how and why the Sassanid Empire fell and the Islamization policies of the Rashidun Caliphate A History of the Later Roman Empire, AD 284-700 Stephen Mitchell,Geoffrey Greatrex,2023-05-25 A sweeping historical account of the Later Roman Empire incorporating the latest scholarly research In the newly revised 3rd edition of A History of the Later Roman Empire 284 700 distinguished historians Geoffrey Greatrex and Stephen Mitchell deliver a thoroughly up to date discussion of the Later Roman Empire It includes tables of information numerous illustrations maps and chronological overviews As the only single volume covering Late Antiquity and the early Islamic period the book is designed as a comprehensive historical handbook covering the entire span between the Roman Empire to the Islamic conquests The third edition is a significant expansion of the second edition published in 2015 and includes two new chapters covering the seventh century The rest of the work has been updated and revised providing readers with a sweeping historical survey of the struggles triumphs and disasters of the Roman Empire from the accession of the emperor Diocletian in AD 284 to the closing years of the seventh century It also offers A thorough description of the massive political and military transformations in Rome s western and eastern empires Comprehensive

explorations of the latest research on the Later Roman Empire Practical discussions of the tumultuous period ushered in by the Arab conquests Extensive updates revisions and corrections of the second edition Perfect for undergraduate and postgraduate students of ancient medieval early European and Near Eastern history A History of the Later Roman Empire 284 700 will also benefit lay readers with an interest in the relevant historical period and students taking a survey course involving the late Roman Empire

The Arab Conquests Justin Marozzi, 2021-05-13 The story of the seventh and eighth century Muslim conquests when armies inspired by the new religion of Islam burst out of Arabia to build the Islamic Empire This book delivers drama through sublime writing but mainly through marvellous images As sharp as the Arabian desert in the midday sun Gerard DeGroot The Times Books of the Year An excellent prelude to Marozzi s previous books Spectator Thoroughly good fun The narration moves swiftly but gracefully from episode to episode Sunday Times By the time of his death in 632 the Prophet Mohammed had united the feuding tribes of Arabia at the point of his sword In the decades that followed armies inspired by the new religion of Islam burst out of Arabia to subjugate the Levant southwest and Central Asia North Africa and the Iberian Peninsula The Arab Conquests lasted until 750 by which time several generations of marauding Muslim armies had carved out an Islamic empire soon to be centred on Baghdad which in size and population rivalled that of Rome at its zenith extending from the shores of the Atlantic in the west to the borders of China in the east In the process they had completely crushed one great empire the old empire of Byzantium and hollowed out another that of the Iranian Sasanids These conquests of the seventh and eighth centuries represent one of the greatest feats of arms in history Justin Marozzi charts their lightning progress across the Middle East and vast tracts of Asia and explains how an unknown and radically militant faith swept out of the Arabian desert to change the world for ever

The Termination of Hostilities in the Early Arab Conquests, A.D. 634-656 Donald Routledge Hill, 1971

In God's Path Robert G. Hoyland, 2014-10-01 In just over a hundred years from the death of Muhammad in 632 to the beginning of the Abbasid Caliphate in 750 the followers of the Prophet swept across the whole of the Middle East North Africa and Spain Their armies threatened states as far flung as the Franks in Western Europe and the Tang Empire in China The conquered territory was larger than the Roman Empire at its greatest expansion and it was claimed for the Arabs in roughly half the time How this collection of Arabian tribes was able to engulf so many empires states and armies in such a short period has perplexed historians for centuries Most accounts of the Arab invasions have been based almost solely on the early Muslim sources which were composed centuries later to illustrate the divinely chosen status of the Arabs Robert Hoyland s groundbreaking new history assimilates not only the rich

biographical information of the early Muslim sources but also the many non Arabic sources contemporaneous or near contemporaneous with the conquests In God s Path begins with a broad picture of the Late Antique world prior to the Prophet s arrival a world dominated by two superpowers Byzantium and Sasanian Persia In between these empires emerged a distinct Arabian identity which helped forge the inhabitants of western Arabia into a formidable fighting force The Arabs are the principal actors in this drama yet as Hoyland shows the peoples along the edges of Byzantium and Persia the Khazars Bulgars Avars and Turks all played critical roles in the remaking of the old world order The new faith propagated by Muhammad and his successors made it possible for many of the conquered peoples to join the Arabs in creating the first Islamic Empire Well paced comprehensive and eminently readable In God s Path presents a sweeping narrative of a transformational period in world history *The Great Islamic Conquests AD 632-750* David Nicolle,2009 Few centuries in world history have had such a profound and long lasting impact as the first hundred years of Islamic history In this book David Nicolle examines the extensive Islamic conquests between AD 632 and 750 These years saw the religion and culture of Islam erupt from the Arabian Peninsula and spread across an area far larger than that of the Roman Empire The effects of this rapid expansion were to shape European affairs for centuries to come This book examines the social and military history of the period describing how and why the Islamic expansion was so successful **Studies** Columbia University.
