**The Cambridge History of Russia: Volume 3, The Twentieth Century** Maureen Perrie, Ronald Grigor Suny, 2006-11-02 A major history of twentieth century Russia by leading scholars in the field [The Russian Revolution and Civil War 1917-1921](#) Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state [A Companion to World War I](#) John Horne, 2012-01-30 A Companion to the First World War brings together an international team of distinguished historians who provide a series of original and thought provoking essays on one of the most devastating events in modern history Comprises 38 essays by leading scholars who analyze the current state of historical scholarship on the First World War Provides extensive coverage spanning the pre war period the military conflict social economic political and cultural developments and the war s legacy Offers original perspectives on themes as diverse as strategy and tactics war crimes science and technology and the arts Selected as a 2011 Outstanding Academic Title by CHOICE *Screening Soviet Nationalities* Oksana Sarkisova, 2016-11-30 Filmmakers in the early decades of the Soviet Union sought to create a cinematic map of the new state by portraying its land and peoples on screen Such films created blueprints of the Soviet domain s scenic cultural and ethnographic perimeters and brought together in many ways disparate nations under one umbrella Categorised as kulturfilms they served as experimental grounds for developing the cinematic formulae of a multiethnic multinational Soviet identity *Screening Soviet Nationalities* examines the non fictional representations of Soviet borderlands from the Far North to the Northern Caucasus and Central Asia between 1925 1940 Beginning with Dziga Vertov and his vision of the Soviet space as a unified multinational mosaic Oksana Sarkisova rediscovers films by Vladimir Erofeev Vladimir Shneiderov Alexander Litvinov Mikhail Slutskii Amo Bek Nazarov Mikhail Kalatozov Roman Karmen and other filmmakers who helped construct an image of Soviet ethnic diversity and left behind a lasting visual legacy The book contributes to our understanding of changing ethnographic conventions of representation looks at studies of diversity despite the homogenising ambitions of the Soviet project and reexamines methods of blending reality and fiction as part of both ideological and educational agendas Using a wealth of unexplored archival evidence from the Russian State Documentary Film and Photo Archive RGAKFD as well as the Gosfilmofond state film archive Sarkisova examines constructions of exoticism backwardness

and Soviet driven modernity through these remarkable and underexplored historical travelogues *The Prospects for Liberal Nationalism in Post-Leninist States* Cheng Chen,2010-11-01 **Empire** D. C. B. Lieven,2002-01-01 Focusing on the Tsarist and Soviet empires of Russia Lieven reveals the nature and meaning of all empires throughout history He examines factors that mold the shape of the empires including geography and culture and compares the Russian empires with other imperial states from ancient China and Rome to the present day United States Illustrations **The Great Challenge** Hélène Carrère d'Encausse,1992 In this enlightening and provocative book a distinguished writer on international affairs traces the failure of Soviet nationalities policy to the formative years of the Bolshevik regime when that policy was formulated and implemented The author explores the unfolding of the national question from pre revolutionary period through 1930 bringing to light the broad array of national issues and nationality groups that made history in the old Soviet satellites around the Baltic **The Role of Migration in the History of the Eurasian Steppe** NA NA,2016-04-30 Throughout their entire history the sedentary civilizations of China and Europe had to deal with nomads and barbarians This unique volume explores their drastically different responses China chose containment while Europe chose expansion Migration played a crucial role in this interaction Issuing from two population centers the sedentary one in the West and the nomadic one in the East two powerful population streams confronted each other in the Eurasian Steppe This confrontation was a crucial factor in determining patterns of Eurasian history it destroyed existing states created new ones and drastically changed the balance of power Even today while Russian populations in Asia contract the population pressures in China and Central Asia continue to build and are likely to spill over across the border This book shows how we are witnessing the beginning of a new cycle of the age old contest **Education and Civic Culture in Post-Communist Countries** S. Webber,I. Liikanen,2016-01-20 The vivid discussion on civil society in Eastern Europe that flourished during the late 1980s and early 1990s has faded somewhat and been partly replaced by new attempts to conceptualise the nature of social change taking place in these countries This book strives to continue and go beyond the civil society discourse by analysing the interrelationship between education and civic culture in post communist countries The volume offers detailed case studies written by specialists from the region and from Western Europe and North America examining everyday patterns of civic culture the linkage between education and national identity ethnicity gender and religion the experience and attitudes of youth and attempts to render education systems better suited to the demands of post communist society Jewish Russians Sascha L. Goluboff,2012-03-06 The prevalence of anti-Semitism in Russia is well known but the issue of race within the Jewish community has rarely been discussed explicitly Combining ethnography with archival research Jewish Russians Upheavals in a Moscow Synagogue documents the changing face of the historically dominant Russian Jewish community in the mid 1990s Sascha Goluboff focuses on a Moscow synagogue now comprising individuals from radically different cultures and backgrounds as a nexus from which to explore issues of identity creation and negotiation Following the rapid rise of this transnational congregation

headed by a Western rabbi and consisting of Jews from Georgia and the mountains of Azerbaijan and Dagestan along with Bukharan Jews from Central Asia she evaluates the process that created this diverse gathering and offers an intimate sense of individual interactions in the context of the synagogue's congregation Challenging earlier research claims that Russian and Jewish identities are mutually exclusive Goluboff illustrates how post Soviet Jews use Russian and Jewish ethnic labels and racial categories to describe themselves Jews at the synagogue were constantly engaged in often contradictory but always culturally meaningful processes of identity formation Ambivalent about emerging class distinctions Georgian Russian Mountain and Bukharan Jews evaluated one another based on each group's supposed success or failure in the new market economy Goluboff argues that post Soviet Jewry is based on perceived racial class and ethnic differences as they emerge within discourses of belonging to the Jewish people and the new Russian nation

Mazower, 2009-05-20 An unflinching and intelligent alternative history of the twentieth century that provides a provocative vision of Europe's past present and future A splendid book The New York Times Book Review Dark Continent provides an alternative history of the twentieth century one in which the triumph of democracy was anything but a forgone conclusion and fascism and communism provided rival political solutions that battled and sometimes triumphed in an effort to determine the course the continent would take Mark Mazower strips away myths that have comforted us since World War II revealing Europe as an entity constantly engaged in a bloody project of self invention Here is a history not of inevitable victories and forward marches but of narrow squeaks and unexpected twists where townships boast a bronze of Mussolini on horseback one moment only to melt it down and recast it as a pair of noble partisans the next
