Three Major Plays Lope de Vega, 1999-01-21 Lope de Vega 1562 1635 widely regarded as the architect of the drama of the Spanish Golden Age was known by his contemporaries as the monster of Nature on account of his creativity as a playwright Claiming to have written more than a thousand plays he created plots and characters notable for their energy inventiveness and dramatic power and which in contrast to French classical drama combine the serious and the comic in their desire to imitate life Fuente Ovejuna based on Spanish history and revealing how tyranny leads to rebellion is perhaps his best known play The Knight from Olmedo is a moving dramatization of impetuous and youthful passion which ends in death Punishment without Revenge Lope's most powerful tragedy centres on the illicit relationship of a young wife with her stepson and the revenge of a dishonoured husband These three plays grouped here in translations which are faithful to the original Spanish vivid and intended for performance embody the very best of Lope's dramatic art ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more *The Great Playwrights* Eric Bentley, 1970 **Oscar Wilde** E.H. Imagination and Fantasy in the Middle Ages and Early Modern Time Albrecht Classen, 2020-08-24 The notions of other peoples cultures and natural conditions have always been determined by the epistemology of imagination and fantasy providing much freedom and creativity and yet have also created much fear anxiety and horror In this regard the pre modern world demonstrates striking parallels with our own insofar as the projections of alterity might be different by degrees but they are fundamentally the same by content Dreams illusions projections concepts hopes utopias dystopias desires and emotional attachments are as specific and impactful as the physical environment This volume thus sheds important light on the various lenses used by people in the Middle Ages and the early modern age as to how they came to terms with their perceptions images and notions Previous scholarship focused heavily on the history of mentality and history of emotions whereas here the history of pre modern imagination and fantasy assumes center position Imaginary things are taken seriously because medieval and early modern writers and artists clearly reveal their great significance in their works and their daily lives This approach facilitates a new deep structure analysis of pre modern culture **Conscience on Stage** Hilaire Kallendorf, 2007-01-01 It is no accident that some variation of the question What should I do appears in over three quarters of the comedic plays of the Spanish Golden Age Casuistical dialogue was a concern even an obsession of Spanish
