Science, and Literary Discourse, 1569-1750 Judy A. Hayden, 2016-03-03 The focus of this volume is the intersection and the cross fertilization between the travel narrative literary discourse and the New Philosophy in the early modern to early eighteenth century historical periods Contributors examine how in an historical era which realized an emphasis on nation and during a time when exploration was laying the foundation for empire science and the literary discourse of the travel narrative become intrinsically linked Together the essays in this collection point out the way in which travel narratives reflect the anxiety from changes brought about through the discoveries of the new knowledge and the way this knowledge in turn provided a new and more complex understanding of the expanding world in which the writers lived The worlds in this text are many for no world is monomial from the antipodes to the New World from the heavens to the seas and from fictional worlds to the world which contains and or constructs one s nation and empire All of these essays demonstrate the manner in which the New Philosophy dramatically changed literary discourse *Virginia Woolf and the Discourse of Science* Holly Henry, 2003-02-27 Table of contents *Ascetic Culture* Karigoudar Ishwaran, 1999 Finally he broadened the theme to the present title of his collection BOOK JACKET *Dictionary of Visual Discourse* Barry Sandywell, 2016-04-22 This substantial and ambitious dictionary explores the languages and cultures of visual studies It provides the basis for understanding the foundations and motivations of current theoretical and academic discourse as well as the different forms of visual culture that have come to organize everyday life The book is firmly placed in the context of the visual turn in contemporary thought It has been designed as an interdisciplinary or transdisciplinary introduction to the vocabularies and grammars of visuality that inform thinking in the arts and humanities today It also offers insight into the philosophical frameworks which underpin the field of visual culture A central theme that runs throughout the entries is the task of moving away from a narrow understanding of visuality inherited from traditional philosophy toward a richer cultural and multi sensorial philosophy of concrete experience The dictionary incorporates intertextual links that encourage readers to explore connections between major themes theories and key figures in the field In addition the author s introduction provides a comprehensive and critical introduction which documents the significance of the visual turn in contemporary theory and culture It is accompanied by an extensive bibliography and further reading list As both a substantive academic contribution to this growing field and a useful reference tool this book offers a theoretical introduction to the many languages of visual discourse It will be essential reading for graduate students and scholars in visual studies the sociology of visual culture cultural and media studies philosophy art history and theory design film and communication studies **New Religious Movements Update** ,1980 **Annual Report of the American Tract Society** American Tract Society (Boston, Mass.),1855 **Discourse on Metaphysics** Gottfried Wilhelm Freiherr von Leibniz,1916 **A Discourse Delivered at Plymouth, Mass.
