**Contexts** Ana Filipa Prata, Rodrigo Verano, 2024-06-10 This interdisciplinary volume explores the ancient Greek myth of  
Medea and its global analogues found in other mythic and folk tales of deadly exiled women such as those of La Malinche and  
La Llorona examining the connections between these figures and their depictions from antiquity to modernity The book  
considers the figure of the foreign woman her exile fratricide and infanticide in its ancient Greek form and in global  
postcolonial receptions in a range of media including drama film novels and the visual arts The chapters illuminate the  
contradictions of considering the classical Medea as a central reference point for analysis of other female figures from  
peripheral territories while simultaneously acknowledging the insights that such comparisons can yield Emphasizing the  
ways in which Medea's seditious nature enables the establishment of an extensive and heterogeneous intertextual network  
with other mythic characters who represent a similarly disruptive role in their specific local historical and cultural contexts  
the book argues for a comparative analysis that is equally attentive to myths and folk tales from all regions These essays by  
scholars of classics comparative and world literatures and postcolonial studies represent a plurality of perspectives from  
different academic contexts in Africa Latin America North America and Europe and examine how different cultures have  
depicted women foreigners crime and abjection The foundations of Greek myth and subsequently of the classical tradition  
itself are interrogated from a postcolonial perspective In tracing the portrayals of Medea and other mythic women through  
the overlapping features of different female characters and plots and intertwining local cultural and literary materials with  
broader debates this volume challenges Eurocentric narratives of power and cultural domination and works to decentralize  
the discussion of Medea from the exclusive domain of classical studies Medea's Long Shadow in Postcolonial Contexts will be  
of interest to students and scholars working on Greek tragedy and its reception as well as to those studying postcolonial and  
global approaches to literature culture and gender studies **Preferred List of Books for School Libraries, State of
