Balancing Development and Sustainability in Tourism Destinations Akhmad Saufi, Imanuella R. Andilolo, Norain Othman, Alan A. Lew, 2016-09-26. This book contains 35 papers from the Tourism Outlook Conference held in Lombok, Indonesia, in July 2015. The book presents comprehensive discussions on sustainability in the tourism industry. It includes research on various constituents of the tourism sector and analyses of each of them from a sustainability standpoint. Case studies that are global in nature are presented to show how sustainable applications can be used and how concerns can be addressed. The book is a response to rapid change in contemporary tourism trends brought about by global economic and social forces such as development pressures, population growth, major resource extraction, industrial fishing, global climate change and steadily rising sea levels. *Balancing Development and Sustainability in Tourism Destinations* serves as a platform for students and educators, government agency employees, hospitality and tourism industry practitioners, public and private land managers, community development workers and others interested in identifying practical solutions, charting new directions and creating opportunities for sustainable tourism development.

**Sustainable Economic Development** Vasilii Erokhin, Tianming Gao, Andrei Jean Vasile, 2020-12-15. This book is a pivotal publication that addresses the contemporary challenges of globalization and elaborate policy responses to environmental pollution, climate change, economic disruptions, poverty, hunger and other threats to sustainable economic development. Many parts of the world, territories and societies are now changing at an unprecedented pace in ways that fundamentally affect the markets, people, the environment and biodiversity. Such changes are primarily driven by rapid social and economic developments, economic disparities between countries, the internationalization of production and value chains and industrialization. Increasingly, frequently, business interests are interfering with sustainable development goals. The issue is how to converge the economic benefits with the urgent need for establishing resilient production chains, social networks, sustainably operating markets and environmental protection. This publication highlights the need for the balanced economic development and comprehensive coverage of many sustainability business areas. Economic production, financial and social factors of sustainability are discussed by over 90 contributors representing 40 universities and research institutions from seven countries. Their findings are translated into workable approaches and policies for the benefit of the global economy, people and the environment.
