Performance and the Disney Theme Park Experience Jennifer A. Kokai, Tom Robson, 2025-07-02 Most scholars and critics deny agency to the tourist in their engagement with the Disney theme park experience The vast body of research and journalism on the Disney Imagineers the designers and storytellers who construct the park experience leads to the misconception that these exceptional artists puppeteer every aspect of the guest's experience This anthology now in its second edition re-centers the park experience around its protagonist the tourist and addresses the Disney Parks using performance theory an approach few to no scholars had used prior to the first edition The authors of the individual essays as well as the Introduction by Kokai and Robson and an Afterword by world renowned tourism and performance expert Susan Bennett recognize the inherently complicated nature of Disney Many of the contributors consider themselves Disney fans but also recognize the potentially problematic aspects of Disney parks This collection permits both perspectives to exist side by side informing rather than contradicting each other

From Discord to Harmony LaVena Wilkin, Tony Belak, 2020-02-01 Conflicts happen and the workplace can be a cacophony for competing interests Consider that organizational culture is an ensemble of shared values beliefs assumptions perceptions and norms Organizations are not solos They are an accompaniment of individuals departments and divisions and each is competing for scarce resources Measure in a little power imbalance and organizational political posturing Then scale in the fact that today's managers are faced with diversity and cultural issues ranging from race and gender to individual ethnicity principles and philosophies about which employees are more vocal All this discord can strike a sharp note of

dissonance However effective resolutions can change this discord to harmony Consider that music is not a single note Rather it is the silence between the notes that makes beautiful music and conflict is that silence Unfortunately conflict has a bad reputation and it is often labeled as disagreement fighting or arguing that leads to stress retaliation and resentment Some managers spend a disproportionate amount of their workdays dealing with conflicts They have not learned what causes conflicts or how to productively manage them As a result they often avoid or force outcomes causing discord fractured relationships loss of productivity and even lawsuits Learning to fine tune inevitable conflicts will help managers orchestrate a more harmonious workplace From Discord to Harmony Making the Workplace Hum is largely evidence based and many of the chapters contain cutting edge research by experts in their respective fields Pathways to a Decision Jim
