The Good Leviathan:

The Good And Evil Serpent James H. Charlesworth, 2010-01-01 The serpent of ancient times was more often associated with positive attributes like healing and eternal life than it was with negative meanings This groundbreaking book explores in plentiful detail the symbol of the serpent from 40 000 BCE to the present and from diverse regions in the world In doing so it emphasizes the creativity of the biblical authors use of symbols and argues that we must today reexamine our own archetypal conceptions with comparable creativity From publisher description **THE GOOD LEVIATHAN. TRANS. BY MARGARET GIOVANELLI.** Pierre Boulle, 1978 **The Good, the Bad, and the Accidentally Evil!** Mark Young, 2020-12-22 Can Newton save Franken Sci High Find out in the sixth book in this wacky series created with The Jim Henson Company When Franken Sci High s strangest teacher tells Newton Warp that they are traveling to the future Newton thinks it is a joke but he should know by now that in a school for mad scientists anything is possible Before he knows it Newton teleports forward by twenty five years and everything at the school has changed His monster loving friend Shelly Ravenholt has grown up to be against making monsters and has a plan to keep the school from making new monsters when there are so many that need help already Her intentions are good but she is becoming accidentally evil and it s up to Newton to stop her TM 2020 The Jim Henson Company The Leviathan's Choice James Michael Martinez, William D. Richardson, William Donald Richardson, D. Brandon Hornsby, 2002 One of the broadest and most balanced accounts of the capital punishment debate The Leviathan s Choice explores the death penalty from four distinct perspectives philosophical theological social science and legal and includes scholarly essays on both sides of the debate An ideal reader for students and policy makers this book is essential for everyone following the arguments surrounding the death penalty **The Guise of the Good** Francesco Orsi, 2023-04-14 This is the first book to trace the doctrine of the guise of the good throughout the history of Western philosophy It offers a chronological narrative exploring how the doctrine was formulated the arguments for and against it and the broader role it played in the thought of different philosophers In recent years there has been a rich debate about whether value judgment or value perception must form an essential part of mental states such as emotions and desires and whether intentional actions must always be done for reasons that seem good to the agent This has sparked new theoretical interest in the classical doctrine of the guise of the good whenever we desire to do something we see it under the guise of the good that is we conceive of what we desire as good desirable or justified by reasons in some way or another This book offers a systematic historical treatment of the guise of the good The chapters span from Ancient and Medieval philosophy Socrates Plato Aristotle Augustine and Aquinas through the early modern period Hobbes Spinoza Locke Hume and Kant and up to Elizabeth Anscombe s rediscovery in the 20th century after a period of relative neglect Together they demonstrate how history can offer potential new models of the guise of the good or new arguments against it as well as to give a sense of how the guise of the good can bear on other philosophical issues The Guise of the Good A Philosophical History is an excellent resource for

scholars and students working on the history of ethics philosophy of action and practical reason *In the Presence of the Past* R.T. Bienvenu, M. Feingold, 2013-03-11 The broad canvas covered by the articles in the present volume celebrates the diversity and richness of the writings of Frank Manuel during a scholarly career that spans over five decades The subjects of the articles ranging from science to utopia from theology to political thought mirror many of the themes Manuel has written about with erudition flair and uncommon perception It is only fitting that in paying tribute to such a defiant intellect each author brings to his treatment a distinct perspective and texture the result of his own original forays into the history of ideas Yet underlying all the essays is the conviction that the study of the intersection of individuals and ideas still yields a rich harvest Presented to Frank on the occasion of his eightieth birthday *In the Presence of the Past* honors a teacher a friend and above all a scholar R T Bienvenu and M Feingold eds *In the presence of the past* vii MARTIN PERETZ Frank Manuel An Appreciation It was finally because of Frank Edward Manuel that I decided however belatedly to forgo a proper academic career Since I had not left so much as a leafscar on the tree of the scholarly culture this is not a fact which anyone else would have reason to notice It is also not I am happy to add something for which Manuel will be especially remembered **The Good Citizen** Russell J. Dalton, 2015-09-09 *The Good Citizen* uses a new 2014 national opinion survey to describe how Americans views of what it means to be a good citizen is changing Russell J Dalton shows that contrary to conventional wisdom younger generations are more politically engaged more politically tolerant and more supportive of social justice the young are creating new norms of citizenship that are leading to a renaissance of democratic participation The new edition of this groundbreaking work will reshape the way we think about the American public American youth and the prospects for contemporary democracy It describes Americans changing citizenship norms the emergence of the Millennial Generation how the Internet is changing participation patterns and a new statistical primer to help students understand the survey findings *The Oxford Dictionary of Philosophy* Simon Blackburn, 2016 This dictionary is recognized as the best dictionary of its kind Comprehensive and authoritative it includes over 3 300 alphabetical entries and is the ideal introduction to philosophy for anyone with an interest in the subject *Justice, Morality and Education* Les Brown, 1985-10-28 **Against Values** Philip J. Harold, 2022-11-01 Today's wholesale lack of trust in our institutions is a problem with deep roots in liberalism and it cannot be solved by tweaking a liberal paradigm in which different conceptions of the good create conflict that is resolved by a sovereign state without reference to a nonexclusive common good Ultimately the essence of liberalism is contained in the language of values which serve as wedges to divide people Philip J Harold takes this problem head on with a thoroughgoing survey reaching back to the early modern era to uncover the nature of liberalism's basic assumptions and diagnose its breakdown As opposed to traditional liberal denial of a good superior to individual interest Harold proposes a postliberal political philosophy able to understand the common good as friendship and social trust built up by loyalty While critiquing values language Harold also addresses the concept of sovereignty and the invention of morality as its supplement

the inappropriate distinction between the empirical and the transcendental the true nature of the secular and the sacred the necessarily symbolic expression of the common good and the false conceptualization of religion and politics The Truthful and the Good J.J. Drummond, J.G. Hart, 2013-12-11 This volume was occasioned by the desire of its contributors to honor Robert Sokolowski on his sixtieth birthday The desire first took form on the streets of an American metropolis when several of us while attending a philosophy conference were bemoaning the lack of passion for doing philosophy as we all conceived it In this expression of our discontent we all had a common exemplar in mind someone for whom the passion for the truthful and the good is embodied in every sentence of his rich writings Felicitously this very thinker was someone whom we can regard as manifesting in his person and life these same properties which his writings exhibit and pursue as luminous ideals As a result John Brough John Drummond and I came up with the idea that we hold our own conference and do philosophy as we envisage it and at the same time honor its foremost exemplary practitioner whose sixtieth birthday was the following year Immediately the idea took wings among the handful of us and the dreariness of that philosophy congress receded The first task of thinking of possible speakers was easy The issue of the venue for our symposium what I like to call the Sokofest had to be decided as well as the details of its realization **The Good of the Novel** Liam McIlvanney, Ray Ryan, 2011-10-13 Brings together leading critics and novelists with some of the finest contemporary novels to answer probing questions about the role of the modern novel *Liberalism and the Good* R. Bruce Douglass, Gerald M. Mara, Henry S. Richardson, 2019-11-19 First published in 1990 *Liberalism and the Good* is a collection of critical essays by an interdisciplinary group of American and English scholars that seeks to address the long standing problem of the good in light of the most recent developments in liberal theory With contributions from both liberal apologists and critics who pursue arguments informed by sources as disparate as Nietzsche and Aristotle it breaks fresh ground in a number of different directions and offers proposals for the future of the discussion *Democracy and Possessive Individualism* Joseph H. Carens, 1993-09-14 C. B. Macpherson was one of the leading political theorists in North America and perhaps the most influential voice on the left for a view of liberal democracy that was simultaneously sympathetic to its aspirations and critical of its achievements His work provides the contributors to this volume with a common starting point from which to reflect upon the possibilities for critical perspectives on liberal democracy in light of the demise of its Marxist rival The volume as a whole addresses the following questions What if anything remains valid in previous left critiques of liberal democracy including Marxist critiques And what new critical and constructive alternatives can the left offer to challenge the status quo The contributors to this volume from both the Anglo American and Continental traditions include Joseph Carens William Connolly Virginia Held John Keane Ernesto Laclau William Leiss Jane Mansbridge Louise Marcil Lacoste Mihailo Markovic Chantal Mouffe Nancy Rosenblum and James Tully The Leviathan's Whisper Veronica Hess, 2025-01-07 In the crushing darkness of the Mariana Trench a city whispers Iridessa a marvel of bioluminescent coral and geothermal energy has thrived for millennia hidden from the surface world But

the ocean keeps secrets poorly Five years after the inexplicable loss of his research vessel Dr Kael Niretti returns to the trench drawn by anomalous energy readings He seeks answers and he needs Elara Vance a cryptographer whose fascination with ancient oceanic myths borders on obsession to find them Their descent into the abyss aboard the Chimera reveals a breathtaking spectacle Iridessa a city of light in a realm of eternal night But their arrival awakens the Leviathan a colossal being of bio engineered flesh and bone guardian of the trench and a force of nature Its awakening throws the delicate balance of the ocean into chaos Within Iridessa Councilor Valerius wrestles with the Leviathan s wrath Ancient prophecies speak of divine retribution but Kael and Elara offer a different explanation Iridessa s energy source the very heart of the planet is disrupting the delicate balance of life The Leviathan s code is not a threat but a desperate plea Trapped between ancient traditions and scientific revelations Kael and Elara race against time to convince the council that the Leviathan is not their enemy but a key to their survival They uncover a hidden archive revealing a forgotten civilization s catastrophic misuse of geothermal power a chilling echo of Iridessa s present They must re establish a symbiotic connection with the Leviathan a connection severed by centuries of ignorance before the ocean s delicate ecosystem collapses As the council prepares for a ritualistic sacrifice Valerius faces an impossible choice uphold tradition or embrace the science of the outsiders His decision will determine not only Iridessa s fate but the future of the ocean itself Dive into the depths of The Leviathan s Whisper and uncover a world of ancient secrets scientific marvels and the desperate fight for a symbiotic future Will humanity listen to the whispers of the deep or repeat the mistakes of a forgotten past

Strategic Justice Peter Vanderschraaf, 2019 The author defends the ancient claim that justice is at bottom a body of social conventions Recent analytical and empirical concepts and results from the social sciences together with insights and arguments of past masters of moral and political philosophy are integrated into a new game theoretic conventionalist analysis of justice

The Good, the Bad, and the Just Riël Vermunt, 2016-03-16 Drawing on multidisciplinary findings and ideas this book discusses fair allocation of social resources such as goods services and information in a novel and integrated way The role of the essential features of allocation behavior motivation cognition and emotion as well as morality and reactions to perceived unfairness

are examined in the newly developed Justice Model The author offers explanations as to why how and to what extent people in an effort to attain justice allocate social resources between self and others and among others It is held that the allocation event featuring actor recipient and observer as well as the resources to be allocated by an actor can function as a guideline for the essentials of fair behavior The work explores the conditions under which an actor may deviate from a just division of social resources thus instigating a reaction from recipients and observers The study covers various levels of analysis ranging from the intra personal to the societal The book will be of interest to academics and researchers working in the areas of crime law justice public policy and governance

The Greatest of All Plagues David Lay Williams, 2024-09-03 How the great political thinkers have persistently warned against the dangers of economic inequality Economic inequality is one of the most daunting challenges of our time with public debate often turning to questions of whether it is an inevitable outcome of economic systems and what if anything can be done about it But why exactly should inequality worry us The Greatest of All Plagues demonstrates that this underlying question has been a central preoccupation of some of the most eminent political thinkers of the Western intellectual tradition David Lay Williams shares bold new perspectives on the writings and ideas of Plato Jesus Thomas Hobbes Jean Jacques Rousseau Adam Smith John Stuart Mill and Karl Marx He shows how they describe economic inequality as a source of political instability and a corrupter of character and soul and how they view unchecked inequality as a threat to their most cherished values such as justice faith civic harmony peace democracy and freedom Williams draws invaluable insights into the societal problems generated by what Plato called the greatest of all plagues and examines the solutions employed through the centuries An eye opening work of intellectual history The Greatest of All Plagues recovers a forgotten past for some of the most timeless books in the Western canon revealing how economic inequality has been a paramount problem throughout the history of political thought
