Green, Timothy Green, 1985

The Holy Order of Water William Marks, 2001-10 16 lectures Dornach Dec 23 1921 Jan 5 1922 CW 303 Today s schools fill children s heads with information instead of helping them develop their natural human faculties and capacities They place too much stress on memory leading to inner exhaustion instead of real learning for a healthy fulfilling life The important lectures in this volume were given in Dornach Switzerland to leading educators including many from England As a result he was invited to Oxford to expand on some of the themes presented in these talks Steiner begins by placing Anthroposophy as the foundation for understanding the principles behind Waldorf education In what follows he describes an education based on the human as a continually developing being of body soul and spirit From this perspective Waldorf education depends on the teacher s ability to observe and respond to each stage of a child s development Steiner shows how Waldorf education emphasizes the efficient use of children s inner energies and how children can be nurtured through their natural stages of development by giving them just what they need at the right time an approach that Steiner calls soul economy These detailed and accessible lectures give parents and teachers the keys to a much needed renewal of education for our children and their future German source Erziehung und Unterricht aus Menschenwesens Eine Einf hrung in die anthroposophische P dagogik und Didaktik Weihnachtskurs f r Lehrer GA 303 **Plastic Water** Gay Hawkins, Emily Potter, Kane Race, 2015-09-11 How and why branded bottles of water have insinuated themselves into our daily lives and what the implications are for safe urban water supplies How did branded bottles of water insinuate themselves into our daily lives Why did water become an economic good no longer a common resource but a commercial product in industry parlance a fast moving consumer good or FMCG Plastic Water examines the processes behind this transformation It goes beyond the usual political and environmental critiques of bottled water to investigate its multiplicity examining a bottle of water s simultaneous existence as among other things a product personal health resource object of boycotts and part of accumulating waste matter Throughout the book focuses on the ontological dimensions of drinking bottled water the ways in which this habit enacts new relations and meanings that may interfere with other drinking water practices The book considers the assemblage and emergence of a mass market for water from the invention of the polyethylene terephthalate PET bottle in 1973 to the development of

hydration science that accompanied the rise of jogging in the United States It looks at what bottles do in the world tracing drinking and disposal practices in three Asian cities with unreliable access to safe water Bangkok Chennai and Hanoi And it considers the possibility of ethical drinking examining campaigns to say no to the bottle and promote the consumption of tap water in Canada the United States and Australia *Parched City* Emma M. Jones, 2013-06-28 Safe drinking water is essential to daily life Meeting that demand with bottled water is a luxury too far argues Emma Jones She is not a lone critic of the packaged water industry However this author looks to history for solutions to a major sustainability problem in the design management and use of the city With original stories from London s archives *Parched City* tracks drinking water obsessions through a popular architectural history tale **Waters and Water Rights** ,1991 [Springs and Bottled Waters of the World](#) Philip E.
