The Great Adoptee Search:

An Adoptee's Search for Identity Judy Bryant, 2015-07-28 When I was thirteen the news had been broken to me that I had been adopted The mother I had known until the age of seven had been my adoptive mother and I perhaps had another real mother in name only somewhere in the world Beginning in the 1930s An Adoptee's Search for Identity details Judy Bryant's life as an adopted child and the subsequent emotional difficulties she faced as an adult As a child Judy was reluctant to smile even when she was cared for at an adoption society's home she was not a happy baby while there and her introduction to prospective adoptive parents did not produce a smile from her Struggling to overcome the initial abandonment she felt as a young child Judy's life quickly spiralled into emotional turmoil after her adoptive mother's death As an adult Judy struggled to come to terms with who she was Following a period of self-induced anorexia and resultant agoraphobia she suffered a severe emotional breakdown aged just 21 In later life Judy was fortunate enough to be able to trace and meet up with her birth family although she never lost the closeness and emotional connection she feels with her adoptive family having never truly lost the abandoned feeling An Adoptee's Search for Identity provides a fascinating insight into the life of an adoptee and illustrates the deep emotional turmoil Judy has suffered throughout her life This touchingly honest account will appeal to women mothers and those interested in adoption

Invisible Asians Kim Park Nelson, 2016-03-18

The first Korean adoptees were powerful symbols of American superiority in the Cold War as Korean adoption continued adoptees visibility as Asians faded as they became a geopolitical success story all American children in loving white families In Invisible Asians Kim Park Nelson analyzes the processes by which Korean American adoptees have been rendered racially invisible and how that invisibility facilitates their treatment as exceptional subjects within the context of American race relations and in government policies Invisible Asians draws on the

life stories of more than sixty adult Korean adoptees in three locations Minnesota home to the largest concentration of Korean adoptees in the United States the Pacific Northwest where many of the first Korean adoptees were raised and Seoul home to hundreds of adult adoptees who have returned to South Korea to live and work Their experiences underpin a critical examination of research and policy making about transnational adoption from the 1950s to the present day Park Nelson connects the invisibility of Korean adoptees to the ambiguous racial positioning of Asian Americans in American culture and explores the implications of invisibility for Korean adoptees as they navigate race culture and nationality Raised in white families they are ideal racial subjects in support of the trope of colorblindness as a cure for racism in America and continue to enjoy the most privileged legal status in terms of immigration and naturalization of any immigrant group built on regulations created specifically to facilitate the transfer of foreign children to American families Invisible Asians offers an engaging account that makes an important contribution to our understanding of race in America and illuminates issues of power and identity in a globalized world
