**The Routledge Companion to Big History** Craig Benjamin,Esther Quaedackers,David Baker,2019-08-01 The Routledge Companion to Big History guides readers through the variety of themes and concepts that structure contemporary scholarship in the field of big history The volume is divided into five parts each representing current and evolving areas of interest to the community including big history s relationship to science social science the humanities

and the future as well as teaching big history and little big histories Considering an ever expanding range of theoretical pedagogical and research topics the book addresses such questions as what is the relationship between big history and scientific research how are big historians working with philosophers and religious thinkers to help construct meaning how are leading theoreticians making sense of big history and its relationship to other creation narratives and paradigms what is little big history and how does big history impact on thinking about the future The book highlights the place of big history in historiographical traditions and the ways in which it can be used in education and public discourse across disciplines and at all levels A timely collection with contributions from leading proponents in the field it is the ideal guide for those wanting to engage with the theories and concepts behind big history

**The Third Wave** Alvin Toffler, 2022-01-04 From the author of Future Shock a striking way out of today's despair a bracing optimistic look at our new potentials The Third Wave makes startling sense of the violent changes now battering our world Its sweeping synthesis casts fresh light on our new forms of marriage and family on today's dramatic changes in business and economics It explains the role of cults the new definitions of work play love and success It points toward new forms of twenty first century democracy Praise for The Third Wave Magnificent an astonishing array of information The Washington Post Imperishably fresh Business Week Will mesmerize readers and rightly so Vogue Alvin Toffler has written another blockbuster a powerful book The Guardian Fresh ideas clearly explained Toffler has proven again that he is a master United Press International Toffler has imagination and an ability to think of various future possibilities by transcending prevailing values assumptions and myths Associated Press Once you have walked into his version of the future you may decide never again to whitewash some of the built in frailties of the real present Financial Post Rich stimulating and basically optimistic will unquestionably aid many to a greater understanding of today's puzzling social changes The Globe Mail A detailed breathtakingly bold projection of the social changes required if we are to survive Toffler's vision of a democratic self sustaining utopia is a brave alternative to recent grim warnings Cosmopolitan

Pivot Cities in the Rise and Fall of Civilizations Ahmet Davutoğlu, 2021-09-30 Based on the author's long experience in academic life and the public realm especially in foreign policy this book argues that a single categorical classification of cities is inadequate and that cities have had different and varied impacts and positions throughout the history of civilization The author examines how the formation transformation destruction or reestablishment of many civilizational cities reveals a clearer picture of the cornerstones of the course of human history These cities which play a decisive and pivotal role in the direction of the flow of history as well as providing us with a compass to guide our efforts to understand and interpret this flow are conceptualized by the author as civilizations pivot cities This innovative book explores the role of great cities in political historical change presenting an alternative view of these pivot cities from a culturalist perspective Within this framework the role played by pivot cities in the history of civilization may be considered under seven distinct headings pioneering cities which founded civilizations cities which were founded by civilizations cities which were transplanted during

the formation of civilizations ghost cities which lost their importance through shifts in political power and civilizational transformation lost cities which were destroyed by civilizations cities on lines of geocultural geoeconomic interaction and cities which combine transform or are transformed by different civilizations The author s concept of pivot cities explores the interplay between vital cities and civilizations which bears on the future of globalization at a time of instability as projected continuing de Westernization becomes a theme in studies of global history This book provides highly productive discussions relevant to the literature on city civilization relationships and the historicity of pivot cities Its clear language rich content deep and original perspective interdisciplinary approach and rich bibliography will ensure that it appeals to students and scholars in a variety of disciplines including cultural studies political science comparative urban studies anthropology history and civilizational studies

**Systemic Structure Behind Human Organizations** Yi Lin, Bailey Forrest, 2011-12-14 Systemic Structure behind Human Organizations From Civilizations to Individuals shows how the systemic yoyo model can be successfully employed to study human organizations at three different levels civilizations business enterprises and individuals This monograph tackles managerial problems from an holistic perspective such as how a business entity grows and dies and how a CEO can manipulate the choices of long and short term projects in order to gain more control over the board of directors By creating a uniform language and logic of reasoning the book provides examples and convincing results Additionally the book shows how the same model thinking logic and methodology of the systems research can be equally applied to analyze problems and situations considered in natural sciences social sciences and humanity areas Therefore it offers knowledge of a brand new tool to attack organizational problems By concentrating on difficult unsettled issues in these varying areas this monograph thoroughly explains how some laws of nature can be established for the common study of natural and social sciences

**Evolving Brains, Emerging Gods** E. Fuller Torrey, 2017-09-05 Religions and mythologies from around the world teach that God or gods created humans Atheist humanist and materialist critics meanwhile have attempted to turn theology on its head claiming that religion is a human invention In this book E Fuller Torrey draws on cutting edge neuroscience research to propose a startling answer to the ultimate question Evolving Brains Emerging Gods locates the origin of gods within the human brain arguing that religious belief is a by product of evolution Based on an idea originally proposed by Charles Darwin Torrey marshals evidence that the emergence of gods was an incidental consequence of several evolutionary factors Using data ranging from ancient skulls and artifacts to brain imaging primatology and child development studies this book traces how new cognitive abilities gave rise to new behaviors For instance autobiographical memory the ability to project ourselves backward and forward in time gave Homo sapiens a competitive advantage However it also led to comprehension of mortality spurring belief in an alternative to

death Torrey details the neurobiological sequence that explains why the gods appeared when they did connecting archaeological findings including clothing art farming and urbanization to cognitive developments This book does not dismiss belief but rather presents religious belief as an inevitable outcome of brain evolution Providing clear and accessible explanations of evolutionary neuroscience **Evolving Brains Emerging Gods** will shed new light on the mechanics of our deepest mysteries

**Cracking the Symbol Code** Tim Wallace-Murphy,2012-01-01 Expanding on issues touched on in The Da Vinci Code this thought provoking study explores the real story of Christianity a story told by men and women condemned by the traditional orthodox church and one long hidden in mysterious codes and symbols In medieval times dissenters believed the established church ruthlessly suppressed the truth about Jesus and his ministry Branded as heretics and subject to torture and execution for their beliefs the dissenters including the Knights Templar Freemasons Cathars and groups of scientists devised an ingenious code to communicate with fellow sympathizers and preserve the truth They concealed these complex symbols in art artifacts and architecture of the medieval world Finally this fascinating underground language is deciphered revealing powerful messages meant as much for today s truth seekers as for medieval minds

Cognitive Informatics and Wisdom Development: Interdisciplinary Approaches Targowski, Andrew,2010-12-31 Since wisdom is the ultimate human virtue its application is important for humans and civilization Cognitive Informatics and Wisdom Development Interdisciplinary Approaches argues that wise civilization cannot function without wise people and vice versa that wise people cannot function without positive conditions for the development of wise civilization Using the cognitive informatics approach as a basis for the investigation of wisdom this book offers solutions on how to study and evaluate the state of wisdom in 21st century society and the requirements for wise civilization and its monitoring systems

**Origin of Vedas** K S Krishnan,2019-08-12 This book is primarily about the Rgveda the avowed source text of all Hindu religious texts It is a collection of 1028 mostly unrelated hymns The language in which it is composed is known as Vedic from which Sanskrit is believed to have evolved later About a fifth of the poems are prayers addressed to what could be Nature Gods Others cover a motley of subjects About fifteen of these hymns relates to cosmogony

but differing in essentials Vedic clearly belongs to the Indo European language family Apart from many cognate words that are common in all these languages many of the stories mentioned in the Rgveda have a strong resemblance to mythologies in the other languages of the family not just to the Zoroastrian ones but also to those of Greek Celtic Nordic Slavic Hittite and others Origin of Vedas also discusses a wide range of issues related to the origin and expansion of the Indo European language family The author has managed to collect together a lot of information about the Rgveda some of which most would not have heard about earlier Those interested in these may go through chapter 4 and 9

The Origins and Diversity of Axial Age Civilizations Shmuel N. Eisenstadt, 2012-02-01 This book presents a new and original analysis of the great ancient civilizations focusing on the breakthroughs and their institutionalization in Greece Israel China and India The conditions under which these civilizations developed are systematically explored For comparative purposes the civilization of Assyria where such a breakthrough did not take place is analyzed Attention is given to the transformation of modes of thought and symbolism Special focus is brought to the development of the great religions and the perception of tension between the transcendental and mundane orders and between rulers and other elites

**The Dynamic Society** Graeme Snooks, 2002-09-11 This book discusses the nature and process of change in human society over the past two million years The author draws on economic historical and biological concepts to examine the driving forces of change and looks to likely developments in the future This analysis produces some very thought provoking and controversial conclusions

**Methods of Ethical Analysis** Nimi Wariboko, 2013-04-16 The book is about showing different ways of doing ethics highlighting a kind of methodological pluralism This book attempts to relate the difference in methodology and perspective to difference in identity focal point of analysis or projects of persuasion Difference matters ultimately because pluralism matters This book is a tutorial in ethical analysis and reasoning Seminararians and graduate students will be brought into the finer points of ethical analysis of mastering the ins and outs of ethical methodology by immersing themselves in critical social ethical analyses of prominent scholars in the American academy Students will be guided toward how to develop their own voice in social issues hone their capability in social analysis and critically engage the social sciences history philosophy and literature as they embark on ethical analyses There is no single way of teaching the methodology of social ethics and no single theory of ethics that satisfies all therefore ethics and its methodology are better understood by enabling students to view the field through multiple windows Simultaneously they will learn to view social reality from different perspectives The seven chapters of this book explore the different ways American ethicists have interrogated their nation's moral systems or crafted methods for understanding them
