Illustrated with the Figures of the Things Describd... by Hans Sloane... Hans Sloane,1707 Integral Green Slovenia Darja Piciga,Alexander Schieffer,Ronnie Lessem,2016-06-03 Ronnie Lessem and Alexander Schieffer s Integral Green Society and Economy series has three overarching aims The first is to link together two major movements of our time one philosophical the other practical The philosophical movement is towards what many today are calling an integral age while the practical is the green movement duly aligned with that of sustainable development The second is to blend together elements of nature and

community culture and spirituality science and technology politics and economics thus serving to bring about an integral green vision albeit with a focus on business and economics As such the authors transcend the limitations to sustainable development and environmental economics which are overly ecological if not also technological in orientation and exclude social and cultural elements Thirdly this particular volume with Darja Piciga focuses specifically on Slovenia as well as on Europe generally drawing on the particular issues and capacities that this country and continent represents particularly for sustainable development and social knowledge based economy The emphasis on Slovenia arose not only because it lies at the heart of Europe but because a specific movement for an Integral Green Slovenian Society and Economy has been co evolved there by the three editors in conjunction with Slovene organisations communities and movements with a view to integrating existing and emerging knowledge resources initiatives and practices into a model as an alternative to austerity for Slovenia and other European countries
