Hypergeometric Orthogonal Polynomials and Their q-Analogues Roelof Koekoek,Peter A. Lesky,René F. Swarttouw,2010-03-18 The present book is about the Askey scheme and the q Askey scheme which are graphically displayed right before chapter 9 and chapter 14 respectively The families of orthogonal polynomials in these two schemes generalize the classical orthogonal polynomials Jacobi Laguerre and Hermite polynomials and they have properties similar to them In fact they have properties so similar that I am inclined following Andrews Askey 34 to call all families in the q Askey scheme classical orthogonal polynomials and to call the Jacobi Laguerre and Hermite polynomials very classical orthogonal polynomials These very classical orthogonal polynomials are good friends of mine since most the beginning of my mathematical career When I was a fresh PhD student at the Mathematical Centre now CWI in Amsterdam Dick Askey spent a sabbatical there during the academic year 1969 1970 He lectured to us in a very stimulating way about hypergeometric functions and classical orthogonal polynomials Even better he gave us problems to solve which might be worth a PhD He also pointed out to us that there was more than just Jacobi Laguerre and Hermite polynomials for instance Hahn polynomials and that it was one of the merits of the Higher Transcendental Functions Bateman project that it included some newer stuff like the Hahn polynomials see 198 10 23
