Six Guns And Society:

Six Guns and Society Will Wright, 1975 Six Guns and Society Will Wright, 1975 *Sixguns and Society* Will Wright, 2023-04-28 From the Preface The purpose of this book is to explain the Western's popularity While the Western itself may seem simple it isn't quite an explanation of its popularity cannot be for the Western like any myth stands between individual human consciousness and society If a myth is popular it must somehow appeal to or reinforce the individuals who view it by communicating a symbolic meaning to them This meaning must in turn reflect the particular social institutions and attitudes that have created and continue to nourish the myth Thus a myth must tell its viewers about themselves and their society This study which takes up the question of the Western as an American myth will lead us into abstract structural theory as well as economic and political history Mostly however it will take us into the movies the spectacular and not so spectacular sagebrush of the cinema Unlike most works of social science the data on which my analysis is based is available to all of my readers either at the local theater or more likely on the late late show I hope you will take the opportunity whenever it is offered to check my findings and test my interpretations the effort is small and the rewards are many And if your wife husband mother or child asks you why you are wasting your time staring at Westerns on TV in the middle of the night tell them firmly as I often did that you are doing research in social science This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977 From the Preface The purpose of this book is to explain the Western's popularity While the Western itself may seem simple it isn't quite an explanation of its popularity cannot be for the Western like any myth stands between individual human consc

Proceedings of the Reunion Society of Vermont Officers, ... with Addresses Delivered at Its Meetings Reunion Society of Vermont Officers, 1885 War and Society in Habsburg Spain I.A.A. Thompson, 2024-10-28 The historical study of war in the Spain of Philip II forms the starting point for the articles in this volume They approach this not so much from a military angle but as a problem of organization procurement and finance In a sense the articles represent an assessment of the effectiveness of the Spanish government and

so given the apparent precocity of government growth in 16th century Spain they can also be seen as a critical commentary on the operational capabilities of the early modern absolutist state Six of the essays here focus on the Spanish Armada in terms of its political and military objectives but demonstrating how these were conditioned by basic systems limitations not least in the procurement of suitable cannon In the final articles Dr Thompson turns to the impact of war and its financing on the social structure bearing in particular on the definition of nobility and its sale and on local democracy and making full use here as elsewhere of the relatively unexplored local sources Two of the papers here appear for the first time in English whilst a third has been newly prepared for this volume

L'histoire de la guerre sous Philippe II roi d'Espagne est la base des articles contenus dans le présent recueil Ceci est abordé non tant sous l'angle militaire mais comme un problème d'organisation d'acquisition de matériel et de financement En un certain sens ces documents représentent une évaluation de l'efficacité du gouvernement espagnol et peuvent par conséquent donner l'impression de la précocité de la croissance gouvernementale en Espagne au 16^{si} siècle tre considérés comme un commentaire critique quant aux capacités opérationnelles de l'Etat absolu proto moderne Une demi douzaine des essais font l'examen de l'Armada espagnole en termes d'objectifs politiques et militaires tout en démontrant comment ces derniers étaient conditionnés par des contraintes structurales
