Nidhi Sharma,Dr. Prabhavathy,2022-01-01 *Learn Russian through Contemporary Short Film* Natallia Kabiak,2024-09-16 *Learn Russian through Contemporary Short Film* is a book with 12 modules based on modern Russian and Kazakh short films released between 2014 2022 The films immerse students in various aspects of culture and daily life This greatly assists the development of advanced level Russian proficiency in listening speaking reading and writing The inquiry based approach provides active stimuli for productive discussion The book is aimed at the High Intermediate to Advanced levels B1 C1 in the CEFR Each book chapter includes a series of activities offering engaging frameworks in which students can advance all four language skills By utilizing short films as teaching materials instructors can deliver engaging learning modules within limited timeframes The book s modular approach to structure offers flexibility for the instructors who can choose films and exercises that best suit their particular pedagogical goals The book includes keys to exercises making it suitable for self study The book is aimed at university students learning Russian as a foreign language at the High Intermediate level or above Russian students at vocational centers high school students sitting Russian as a second language exam or self directed Russian learners who wish to enrich both their command of the language itself and their insight into Russian daily life and contemporary cinema *Debating Contemporary Approaches to the History of Science* Lukas M. Verburgt,2024-01-11

Debating Contemporary Approaches to the History of Science explores the main themes problems and challenges currently at the top of the discipline s methodological agenda In its chapters established and emerging scholars introduce and discuss new approaches to the history of science and revisit older perspectives which remain crucial Each chapter is followed by a critical commentary from another scholar in the field and the author s response The volume looks at such topics as the

importance of the global digital environmental and posthumanist turns for the history of science and the possibilities for the field of moving beyond a focus on ideas and texts towards active engagement with materials and practices It also addresses important issues about the relationship between history of science on the one hand and philosophy of science history of knowledge and ignorance studies on the other With its innovative format this volume provides an up to date authoritative overview of the field and also explores how and why the history of science is practiced It is essential reading for students and scholars eager to keep a finger on the pulse of what is happening in the history of science today and to contribute to where it might go next

Mediating Learning in Higher Education in Africa ,2021-05-25 Historically African higher education teaching and learning have relied on Western models paradigms assumptions concepts and procedures among other research related aspects Western hegemony and ideology has influenced and continues to influence the epistemologies and both the methods and outcome of higher education research The connection between teaching and learning is that teaching generates new forms of learning and learning challenges methods of teaching Western claims to universality objectivity and neutrality have dominated research paradigms in African higher education institutions to the detriment of alternative approaches and conceptions of knowledge Methods aligned to African teaching and learning are often unrecognised and thus underutilised despite calls for the mantra for decolonial research methods What are the African indigenous ways of teaching and learning How are they related to the present African university These puzzling questions provoke the minds of scholars on Africa to confront the discourse on decolonisation of higher education as they engage head on and interrogate contemporary teaching and learning methods **Mediating Learning in Higher Education in Africa From Critical Thinking to Social Justice Pedagogies** provides critical reflections to some of the above questions that affect African Higher Education as it seeks to transform itself and provide directions for the future

High-Stakes Testing David Coniam,Peter Falvey,2018-10-24 This book provides a detailed account of the origin development administration revision and subsequent research findings on the benchmarking initiative from 1996 2016 It presents an overall assessment of the initiative s impact on major stakeholders predictions regarding the way forward and implications for other countries especially in South East Asia In addition the book discusses what the larger global community can learn from Hong Kong s two decade experience of conceptualizing and implementing minimum standard language requirements for teachers

Multicultural Language Education Azamat Akbarov,2014-09-26 **Multicultural Language Education From Research into Practice** is a collection of essays which will appeal to teachers of modern languages no matter the level of instruction The contributions highlight the latest developments of Foreign Language Teaching in the Balkan countries The field of Multicultural Language Education ensures that learners are engaged in the teaching and learning experiences These experiences will allow learners to successfully participate in a rapidly changing world where cross cultural understanding and intercultural communication skills are essential This book surveys current approaches and methods in foreign language teaching such as grammar

translation language acquisition classroom management communication competence critical thinking skills and communicative language teaching It also contains research studies as well as educational experiences and proposals presented from different perspectives and backgrounds all of which are theoretically grounded with a clear and sound rationale Readers will find a variety of educational projects and research studies situated in specific educational contexts and in particular geographical locations

Conversations and Key Debates on Inclusive and Special Education Joanne Banks, 2025-03-18 Based on the second series of the popular Inclusion Dialogue podcasts Joanne Banks explores the tensions debates and understandings of inclusive education in context of current policy changes Featuring in depth interviews with 12 world renown academics this book provides a comprehensive overview of the current tensions and conceptual understandings in the field Delving further into diverse viewpoints around special education and how mainstream education includes and excludes students Banks broadens the discussions started in the first podcast series by highlighting nuanced alternative perspectives national contexts and historical developments Given the diversity of the authors themselves in terms of their geography career stage and views on inclusive education the chapters highlight key issues around how we theorise inclusive education the diversity of views on how inclusion can be measured and the intersections between disability and other student characteristics such as socio economic background gender ethnicity race and sexuality Using the informal interviews as its springboard the book offers practical insights into universally designed pedagogies and the role of the school community in fostering inclusive education This book is ideal for academics researchers and educators working in inclusive and special education who wish to create more inclusive environments for their students It is also a key resource for policymakers seeking to understand inclusive education and address its manifestation in learning environments on ground
