## **Speaking Passion:**

*Passion's Fictions from Shakespeare to Richardson* Benedict S. Robinson, 2021-05-27 *Passion's Fictions* traces the intimate links between literature and the sciences of mind and soul from the age of Shakespeare to the rise of the novel. It chronicles the emergence of new sciences of the passions between the sixteenth and eighteenth centuries and it argues that this history was shaped by rhetoric that contained the most extensively particularized discourse on the passions offering principles for moving and affecting the passions of others in concrete social scenes. This rhetoric of the passions centered on narrative as the instrument of a non-theoretical knowledge of the passions in their particularity predicated on an account of passion as an intimate relation between an impassioned mind and an impassioning world. Rhetoric offers a kind of externalist psychology formalized in the relation of passion to action and underwriting an account of narrative as a means of both moving passion and knowing it. This volume describes the psychology of the passions before the discipline of psychology tracing the influence of rhetoric on theories of the passions from Francis Bacon to Adam Smith and using that history to read literary works by Shakespeare, Milton, Haywood, Richardson and others. Narrative offers a means of knowing and moving the passions by tracing them to the events and objects that generate them. The history of narrative practices is thus a key part of the history of the psychology of the passions at a critical moment in its development.

**Passionate Being** Yve Lomax, 2009-11-30 Written through both the first and second person singular. *Passionate Being* takes its author and its reader on a journey that has them thinking of their experience of and belonging to language and the possibility of an instance of the world taking place without prejudice and exclusion. At its beginning it brings to its author the question: What can you say? The responses that ensue turn our attention toward presupposition and about how singularity can be said. The book also brings into play among others the work of Giorgio Agamben. It asks us to view both language and the world taking place without presupposition, revealing both the political implications and those for living that this vision holds. It is a work to be read twice with pleasure and then again.
