*Strategic Culture, Securitisation and the Use of Force* Wilhelm Mirow, 2016-04-14 This book investigates and explains the extent to which different liberal democracies have resorted to the use of force since the 9 11 terrorist attacks The responses of democratic states throughout the world to the September 2001 terrorist attacks have varied greatly This book analyses the various factors that had an impact on decisions on the use of force by governments of liberal democratic states It seeks to explain differences in the security policies and practices of Australia Canada France Germany and the UK regarding the war in Afghanistan domestic counterterrorism measures and the Iraq War To this end the book combines the concepts of strategic culture and securitisation into a theoretical model that disentangles the individual structural and agential causes of the use of force by the state and sequentially analyses the impact of each causal component on the other It argues that the norms of a strategic culture shape securitisation processes of different expressions which then bring about distinct modes of the use of force in individual security policy decisions While governments can also deviate from the constraints of a strategic culture this is likely to encounter a strong reaction from large parts of the population which in turn can lead to a long term change in strategic culture This book will be of much interest to students of strategic culture securitisation European politics security studies and IR in general

Hanagan,2019-09-01

When the North Atlantic Treaty Organization NATO became involved in security operations during the War in Afghanistan it faced a range of complex challenges including a highly motivated Afghan insurgency that changed over time and repeatedly defied assumptions Conflicts within NATO also posed challenges The alliance brought together a quarter of the world s nations each with its own goals and interests in an effort to stabilize an agrarian country that posed no immediate security threat For more than a decade through changes in leadership and strategy the nations experienced bitter disagreements resentments and a conflict that escalated to a level of violence and uncertainty few had anticipated In *NATO in the Crucible* Deborah Lynn Hanagan analyzes these challenges and explains how the alliance maintained cohesion despite them She examines why NATO succeeded in Afghanistan when history suggests most coalitions fracture under such intense pressure In the end she argues member nations summoned the political will and organizational capacity to cooperate and endure And they agreed above all that failure in Afghanistan would be catastrophic both for NATO and for the world **Great Powers, Small Wars** Larisa Deriglazova,2020-03-03 A sophisticated appraisal of the problem of asymmetric conflict in the post World War II period In a sophisticated combination of quantitative research and two in depth case studies Larisa Deriglazova surveys armed conflicts post World War II in which one power is much stronger than the other She then focuses on the experiences of British decolonization after World War II and the United States in the 2003 Iraq war *Great Powers Small Wars* employs several large databases to identify basic characteristics and variables of wars between enemies of disproportionate power Case studies examine the economics domestic politics and international factors that ultimately shaped military events more than military capacity and strategy *Considering the Creation of a Domestic Intelligence Agency in the United States* Brian A. Jackson,2009 With terrorism still prominent on the U S agenda whether the country s prevention efforts match the threat the United States faces continues to be central in policy debate Does the country need a dedicated domestic intelligence agency Case studies of five other democracies Australia Canada France Germany and the UK provide lessons and common themes that may help policymakers decide **Coins & Currency of the Middle East** Tom Michael,George S. Shimko,2010-04-30 This book is a comprehensive study of the Iraq Wars in the context of the revolution in military affairs debate **EMPLOYMENT OF SPECIAL FORCES** V S Yadav,2012-07-01 Special Forces and Special Operations offer an option for providing an asymmetric response across the entire spectrum of conflict An asymmetric response does not automatically imply a physical attack in most cases direct action should be only the extreme response Special Forces are meant to achieve strategic objectives through application of modest resources in a calibrated manner With an eye on the future a seminar was held at CENJOWS which was aimed at examining various alternatives for optimal employment of Indian SF in pursuit of national security goals with a proactive mindset Various aspects were covered by eminent speakers from India and other countries This book is based on the seminar proceedings **An Army at War: Change in the Midst of Conflict (The Proceedings of the Combat Studies Institute [sic] 2005 Military History Symposium)** , *The Militant Face of Democracy* Anna Geis,Harald Müller,Niklas Schörnig,2013-10-10 Shifts the often naive focus of democratic peace theory towards liberal democratic militancy and highlights the role of national identities **An Enemy We Created** Alex Strick van Linschoten,Felix Kuehn,2012 To this day the belief is widespread that the Taliban and al Qaeda are in many respects synonymous that their ideology and objectives are closely intertwined and that they have made common cause against the West for decades Yet this view have hardly ever been scrutinized or tested empirically This is all the more surprising given that the West's present entanglement in Afghanistan is commonly predicated on the need to defeat the Taliban in order to forestall further terrorist attacks worldwide There is thus an urgent need to re-examine the known facts of the Taliban al Qaeda relationship and to tell the story of the Taliban's encounter with internationalist militant Islamism In *An Enemy We Created* Alex Strick van Linschoten and Felix Kuehn focus on the complexity of the relationship between the two groups and the individuals who established them The book which has already been cited prominently in *The New Yorker* is the first to examine in detail the relationship from the Taliban's perspective based on Arabic Dari and Pashtu sources drawing on the authors many years of experience in southern Afghanistan the Taliban's heartland They also interviewed Taliban decision makers field commanders and ordinary fighters while immersing themselves in Kandahar's society The story of those individuals who were to become the key decision makers and the relationships among all those involved from the mid 1990s onward reveal how frequently the Taliban and al Qaeda diverged rather than converged *An Enemy We Created*

concludes that there is room to engage the Taliban on two fundamental issues renouncing al Qaeda and guaranteeing that Afghanistan will not be a sanctuary for international terrorists Yet the insurgency is changing and it could soon be too late to find a political solution The authors contend that certain aspects of the campaign in Afghanistan especially night raids and attempts to fragment and decapitate the Taliban are transforming the resistance creating more opportunities for al Qaeda and helping it to attain its objectives

How Wars End Damien Kingsbury, Richard Iron, 2022-12-27 This book addresses one of the most important issues in international relations how wars are ended The volume draws on the direct experience of both soldiers and academics who in each case have also been advisers on fighting and ending wars Unlike more theoretical works the book draws on first hand experiences in the case studies which include the wars in Iraq Afghanistan Sierra Leone and Indonesia among others The volume is constructed around a series of themes The first theme is why wars start and how they can be understood based on the assumption that knowing how and why wars start is fundamental to understanding how they might end The second is what sustains wars and what makes them difficult to end Again once wars start understanding what keeps them going is critical to how to end them The third focuses on the role of external intervention in ending wars including as a belligerent partner in war as a peacemaking or peacekeeping force and as a mediator between warring parties The fourth addresses the issue of ripeness and the right conditions for ending wars The fifth addresses the modalities for ending wars and creating peace with the sixth theme being focused on transitions to peace and what is required to help make those transitions successful The book will be of interest to students of military strategic and security studies peace studies and International Relations
