Special Libraries A Cataloging Guide

Karin Nielsen-Saines

Special Libraries A Cataloging Guide:

Special Libraries Sheila S. Intner, Jean Weihs, 1998-06-15 Novice catalogers in special libraries who are often expected to fulfill commitments to online bibliographic networks and cataloging consortia will find this a thorough but uncomplicated guide to standard cataloging Covering all aspects of bibliographic description access points indexing classification and related activities e g authority control catalog management filing the book focuses on the needs and cataloging problems encountered in special libraries such as the cataloging of electronic media technical reports and unpublished materials More than 100 examples illustrate the principles and practices involved Chapters on law science and technology medical business music and art libraries cover those materials and specific tools in depth including subject and profession specific nonbook media thesauri classifications and so on Chapters on policies and catalog decision making point out advantages and disadvantages of various alternatives *Special Libraries* Janet L. Ahrensfield, Elin B. Christianson, David E. King, Special Libraries Association, 1981

Special libraries, 1996 **Organizing Library Collections** Gretchen L. Hoffman, 2019-08-05 Libraries organize their collections to help library users find what they need Organizing library collections may seem like a straightforward and streamlined process but it can be quite complex and there is a large body of theory and practice that shape and support this work Learning about the organization of library collections can be challenging Libraries have a long history of organizing their collections there are many principles models standards and tools used to organize collections and theory and practice are changing constantly Written for beginning library science students *Organizing Library Collections Theory and Practice* introduces the theory and practice of organizing library collections in a clear straightforward and understandable way It explains why and how libraries organize their collections and how theory and practice work together to help library users It introduces basic cataloging and metadata theory describes and evaluates the major cataloging and metadata standards and tools used to organize library collections and explains in general how all libraries organize their collections in practice Yet this book not only introduces theory and practice in general it introduces students to a wide range of topics involved in organizing library collections This book explores how academic public school and special libraries typically organize their collections and why It also discusses standardization and explains how cataloging and metadata standards and policies are developed Ethical issues also are explored and ethical decision making is addressed In addition several discussion questions and class activities reinforce concepts introduced in each chapter Students should walk away from this book understanding why and how libraries organize their collections **The**

Twenty-First Century Art Librarian Terrie Wilson, 2018-10-24 Meet the challenge of operating a successful art library The *Twenty First Century Art Librarian* examines the unique challenges and vital administrative issues that are at the forefront of current art librarianship Librarians working in a variety of settings art academics architecture visual resources and museums address professional change and technological challenges including inadequate staffing and the need to wear multiple hats to

cope with day to day responsibilities The book focuses on common practices in the field as well as the individuals who work in art libraries and the collections they maintain Instead of the standard primer on art librarianship this book is an insightful look at how art librarians are unique in terms of the clientele they serve their subject knowledge and the variety of environments in which they work The Twenty First Century Art Librarian examines pressing everyday issues including operational management staff recruitment and training managing collections public service and patrons and developing a personal care plan The Twenty First Century Art Librarian also addresses setting specific topics such as developing staffing standards at all levels working solo in small art museum libraries integrating digitization into visual resource libraries handling special collections in architecture libraries how culture and mission distinguish academic art libraries from their museum counterparts and much more The Twenty First Century Art Librarian provides library professionals and academics with a unique look at current trends in art architecture and visual resources librarianship

Education for Cataloging and the Organization of Information Janet Swan Hill, 2014-04-23 What does the future hold for cataloging education Written by some of the best known authors and most innovative thinkers in the field including Michael Gorman Sheila S Intner and Jerry D Saye this comprehensive collection examines education for students and working librarians in cataloging and bibliographic control emphasizing history context the state of the art at present and suggested future directions A liberal dose of visual aids charts tables etc makes accessing the information quick and easy From the editor The education of catalogers has swung pendulum like from on the job training to graduate education and back again The place of cataloging in the library school curriculum has swung from one of near pre eminence to one of near extinction and has begun to swing back again The durability of education for cataloging has swung from In getting your degree you will learn everything you need to know in your career to You will have to engage in continuing education throughout your career beginning virtually as soon as you have your degree Making informed decisions about how and how much cataloging education is to be provided is full of pitfalls some of which the profession has fallen into already What is needed now is a reconsideration of how education for cataloging and bibliographic control is provided Education for Cataloging and the Organization of Information Pitfalls and the Pendulum addresses four main areas the ways professionals perceive the place nature and necessity of cataloging education the professional demographic and academic context within which cataloging education is provided education regarding special types of materials and special aspects of cataloging and alternatives to traditional modes of education for cataloging including distance education online mentoring Web based instruction continuing education training for and via cooperative projects the role of the community of catalogers in the continuing education of those who provide intellectual access to the world of information and much more

Cataloging and Classification for Library Technicians, Second Edition Ruth C Carter, Mary L Kao, 2020-07-24 Structure your workload with this comprehensive guide to the role and responsibilities of library technicians More than basic instructions on how to do library classification this classic work is a

how to handbook covering all aspects of a library technician's job Cataloging and Classification for Library Technicians Second Edition gives step by step instructions for all aspects of cataloging and classification of library materials book and non book emphasizing copy cataloging but also discussing original cataloging Because much has changed in the library field since the first edition of this valuable resource was published in 1995 each chapter has been revised and updated and an entire new chapter has been added to discuss computer cataloging in the MARC format and cataloging of Internet materials Cataloging and Classification for Library Technicians Second Edition interprets and explains cataloging rules and how they should be applied Kao describes library organization and personnel patterns to illustrate the relationship between library technicians and other library staff Library technicians will find many helpful features in Cataloging and Classification for Library Technicians Second Edition including definitions of relevant terminology review questions to focus learning a list of suggested readings routines and responsibilities of library technicians issues and trends in library cataloging and classification detailed tables and figures to enable easier learning many convenient Web addresses for up to date information Cataloging and Classification for Library Technicians Second Edition is an ideal text to use in programs for library technical assistants and a handy reference for practicing library technicians

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1978

Museum Librarianship, 2d ed. Esther Green Bierbaum, 2015-11-03 In this second edition to Museum Librarianship the author offers guidance in planning and providing information services in a museum beginning or revitalizing the library collection development and the bibliographic process technical services administration space and equipment requirements fundamental services extended information services and the information partnership between museums and their libraries The Internet and other electronic resources are fully covered The focus of this new edition has shifted slightly from mainly dealing with the start up aspects to an emphasis on the goals of library and information services in a museum and the processes through which such services can be achieved The author's underlying goal is to help enhance and enrich the encounter of the museum goer with enduring objects in a time when we all seem to be assailed on every side by random noise and flickering image
