Councillors opposed plan to raze 123-year-old Philpott church

Developer says two 30-storey towers will provide 'badly needed housing'

TELEVISION
REPORT

City councillors are opposed to a developer's plan to demolish a 123-year-old stone church in Hamilton and build two 30-storey towers. Instead, they've told city staff to leave the church as is, or if the city plans to demolish it, to build two 30-storey towers on the site. The plan would involve razing the church and building two 30-storey towers with roughly 700 residential units and commercial space on the property across from FirstOntario Centre.

A plan that doesn't involve razing the church would not be the fastest component in the St. Stephen's Avenue project, a consultant representing the developer, told councillors. "You're providing badly needed housing in a very bad neighbourhood," said Philpott, A2.

Officials staying quiet on security incident

Unclear when problem will be resolved; expert says task is complex

TELEVISION
REPORT

Hamilton city officials remain tight-lipped about a cybersecurity breach, although the breach does affect a number of municipal systems — including the city's public library website — and the public library website — were knocked off-line.

The city didn't announce any service disruptions Sunday and the city is working to resolve the problem, but it's unclear when the problem will be resolved, an expert says.

"Our priority is to safeguard the integrity of our systems and protect the security of our citizens," said the city's chief information officer.

The city didn't say if the problem would be fixed, but it's unclear when the problem will be resolved, an expert says.

But officials didn't respond to The Spectator's requests for comment or said they couldn't share any details.

City councillors' office phone lines remained out of service as of Monday morning.

"We had an update from the city about the situation," said Councillor Gregor, who is in charge of the city's IT services.

"They're managing it," the councillor said, but he didn't provide any details.

The city's IT services haven't been "directly affected" by the cybersecurity problem, according to the city's chief information officer.

"At this time, we have no direct impact on the city's services," said the city's chief information officer.

Public services, including the city's website, remained out of service as of Monday morning.

life by states manual, 1907 **The Theatre Career of Thomas Arne** Todd Gilman, 2013 This book concerns the life and theatrical career of the great native born English composer and musician of the eighteenth century Thomas Augustine Arne

1710-1778 Its purpose is three-fold First it provides a comprehensive biography and account of the performance and publication of Arne's works during his lifetime Although Arne's childhood years get some attention the book focuses on the period from 1732 to 1778 a time of great innovation for English opera and related genres Second it considers Arne's social

context his relationships with the many dramatists actors singers and fellow composers and instrumentalists including many members of his own family with whom he collaborated on the London and Dublin stages as well as at the London pleasure gardens Third it offers analysis of eighty musical illustrations drawn from vocal works for the theatre spanning Arne s career and readers can simultaneously study and listen to the musical examples on a companion web page that hosts media files produced using music notation software The audio component constitutes a crucial supplement to a study of Arne because so much of his extant theatre music cannot otherwise readily be heard Arne was the leading figure in English theatrical music of his day Dr Charles Burney the great eighteenth century historian of music had a high opinion of the composer especially of Arne s setting of Milton s Comus 1738 In this masque he introduced a light airy original and pleasing melody wholly different from that of Purcell or Handel whom all English composers had hitherto either pillaged or imitated Indeed the melody of Arne at this time forms an era in English Music it was so easy natural and agreeable to the whole kingdom that it became the standard of all perfection at our theatres and public gardens Yet Burney s greatest compliment concerns Arne as a composer of secular vocal music He must be allowed to have surpassed Purcell in ease grace and variety During his forty six year career Arne composed music for over 100 stage works to say nothing of his myriad single songs cantatas and instrumental compositions Yet despite a relative wealth of source material scholars of theatre drama and music in our own time have almost completely ignored him As a consequence musicologists theatre historians and laypeople alike tend to evince a detrimentally limited sense of the magnitude of Arne s contribution to English music and especially to the history of English opera To listen to musical examples that accompany The Theatre Career of Thomas Arne please visit <http://www2.lib.udel.edu/udpress/thomasarne.htm> **The Wine Spectator** ,2000-08
