A new study in *Pediatrics* shows speech and hearing disorders are growing causes of disability for U.S. children.

Between 2001-2011, **speech disorders** increased by **63%**.

**Hearing disorders** increased by nearly **16%**.

## Early intervention is necessary.

Early treatment can help prevent children from falling behind developmentally, academically, and socially.

## Early treatment is accessible.

Speech-language pathologists and audiologists are employed in early intervention programs, in schools, in private practice, and in diverse health care settings.
