heroines and the myths and legends of deities and their abodes are not just recurring motifs of the cinematic fantasy world. They are pop culture's representations of sacred subtexts in Japan. Japanese Mythology in Film takes a semiotic approach to uncovering such religious and folkloric tropes and subtexts embedded in popular Japanese movies and anime. Part I introduces film semiotics with plain definitions of terminology. Through familiar cinematic examples it emphasizes the myth-making nature of modern day film and argues that semiotics can be used as a theoretical tool for reading film. Part II presents case studies of eight popular Japanese films as models of semiotic analysis. While discussing each film's use of common mythological motifs such as death and rebirth, its case study also unveils more covert cultural signifiers and folktale motifs including jizo a savior of sentient beings and kori bewitching foxes and raccoon dogs hidden in the Japanese filmic text.
