Calculated Entropy Maniacal Mel, 2020-07-20 What is Calculated Entropy Perhaps it's the strange little story of a strange little guy's life It might or might not slip in and out of a dream state Perhaps he is being devoured by a great beast and this is a vision of his life flashing before him or a vision of the life he might have had Could it all be the brainwashing of the Manchurian Candidate Perhaps he survived his encounter with the first beast only to wind up trapped in the lair of another Perhaps it's all just the daydream of a child and the character's untimely demise at the end is merely his mother calling to him snapping him out of it Maybe it's none of the above You decide just what it's trying to say It's a novella written in poems It's a concept album without the music It's a bird it's a plane it's Calculated Entropy A Random Access Dream A Novel by Maniacal Mel A book of poetry for people who can't afford a real book of poetry

Minding the Public Purse Janice MacKinnon, 2003 Janice MacKinnon became minister of Finance for the province of Saskatchewan in 1993 under NDP Premier Roy Romanow just as the province became the first casualty of the debt and deficit crises that dominated both provincial and federal politics throughout the decade Minding the Public Purse is

a unique mixture of political memoir and policy analysis An insider's account of how Saskatchewan avoided fiscal catastrophe it reveals the dynamics of the federal provincial finance ministers meetings that saw the rise of Paul Martin and his radical transformation of Canada's finances MacKinnon Canada's first female finance minister provides keen observations on how personalities and shared regional perspectives cut across party affiliations in the evolution of federal provincial deliberations on managing the debt crisis Although initially opposed to the radical cuts and downloading unilaterally imposed by the federal minister of Finance in his 1995 budget she now argues that they were essential and analyses how they have irrevocably transformed the Canadian federation MacKinnon provides a timely analysis of the implications of the fiscal crisis for the future of medicare and Canada's other social programs and shows why politicians must involve the Canadian public in an open and frank debate about the challenges and choices facing the nation Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations for 2005 United States.
