Time-accurate Computations of Free-flight Aerodynamics of a Spinning Projectile with and Without Flow Control Jabaraj Sahu,2006 This report describes a new multi disciplinary computational study undertaken to compute the flight trajectories and simultaneously predict the unsteady free flight aerodynamics of a spinning projectile configuration with and without aerodynamic flow control Actual flight trajectories are computed with an advanced coupled computational fluid dynamics CFD rigid body dynamics RBD technique An advanced time accurate Navier Stokes computational technique has been used in CFD to compute the unsteady aerodynamics associated with the free flight of the spinning projectile at subsonic speeds Computed positions and orientations of the projectile have been compared with actual data measured from free flight tests and are found to be generally in good agreement The same advanced coupled procedure has been used to compute the aerodynamics of the spinning projectile with flow control with the use of a synthetic microjet Unsteady numerical results obtained from the coupled method show the flow field the aerodynamic forces and moments and the flight trajectories of the projectile

Stollorz,2008-07-03 Ancient calendars found around the world are designed to end one point in time They communicate an urgent warning to everyone alive today Complex bronze and gold clocks with multiple dials are found in museums around the world Why they have such advanced intricacy has stumped scientists for hundreds of years This book reveals why the ancients built so many pyramids observatories as well as those complex gold and bronze clocks with more than one dial It surprised me greatly to discover that their various complex designs in one way or another converge on 21 December 2012 It amazes me that ancient cultures separated by thousands of miles of geography and thousands of years in chronology agree so precisely in the cyclical nature of time history and prophecy which is history written in advance The most famous example is the Mayan Aztec calendar which ends its 25 626 year cycle on that momentous date Some researchers have also found 21 December 2012 in what is called the Bible Code Using very different research methods I discovered it in the Bible s book of Revelation and Daniel s prophecies It is one of the most important dates in the plan of God for all humanity      [Bike for Life](#) Roy M.
