scholarship This textbook is essential reading for students of American history **The Kings of Casino Park** Thomas Aiello, 2011-08-07 In the 1930s Monroe Louisiana was a town of twenty six thousand in the northeastern corner of the state an area described by the New Orleans Item as the lynch law center of Louisiana race relations were bad and the Depression was pitiless for most especially for the working class a great many of whom had no work at all or seasonal work at best Yet for a few years in the early 1930s this unlikely spot was home to the Monarchs a national caliber Negro League baseball team Crowds of black and white fans eagerly filled their segregated grandstand seats to see the players who would become the only World Series team Louisiana would ever generate and the first from the American South By 1932 the team had as good a claim to the national baseball championship of black America as any other Partisans claim with merit that league officials awarded the National Championship to the Chicago American Giants in flagrant violation of the league s own rules times were hard and more people would pay to see a Chicago team than an outfit from the Louisiana back country Black newspapers in the South rallied to support Monroe s cause railing against the league and the bias of black newspapers in the North but the decision unfair though it may have been was also the only financially feasible option for the league s besieged leadership who were struggling to maintain a black baseball league in the midst of the Great Depression Aiello addresses long held misunderstandings and misinterpretations of the Monarchs 1932 season He tells the almost unknown story of the team its time its fortunes its hometown and positions black baseball in the context of American racial discrimination He illuminates the culture changing power of a baseball team and the importance of sport in cultural and social history
