The Spirit Moves Carla De Sola, 1977 *The Spirit Moves* Carla De Sola, 1986-01-01 *The Routledge International Handbook of Spirituality in Society and the Professions* Laszlo Zsolnai, Bernadette Flanagan, 2019-03-15

Increasingly it is being recognized that spirituality defined here as a multiform search for a transcendent meaning of life that connects them to all living beings and brings them in touch with God or Ultimate Reality is an aspect of almost every sphere and aspect of social life. It appears in humanity's dealings with nature, home and community, healing, economics and business, knowledge and education. *The Routledge International Handbook of Spirituality in Society and the Professions* is a stimulating collection that summarizes the most important issues, frameworks, discussions and problems relating to spiritually inspired activities in different fields of social life. The contributors explore how spirituality is a part of existence and present approaches and models for professionals working in diverse areas. Presented in seven parts, the book provides a full overview of current research and practice. Part II Facets of spirituality explores topics including philosophy, psychology, theology and culture. Part III Nature looks at ecology, agriculture, cities and tourism. Part IV Home and community presents chapters on various life stages, disability, gender and culture. Part V Healing examines medicine, mental and physical health and ill health. In Part VI Economy, politics and law, contributors discuss business leadership and the workplace, peace and policing. Part VII Knowledge and education includes chapters on science, design, fashion, literature and the arts. In the final part, Way forward, the editors look to the future with a chapter on inter spirituality and the renewal of social practices. Driven by contemporary research and new developments, this Handbook is an innovative and interdisciplinary collection that provides an essential overview of contemporary spirituality and society from an international selection of contributors. *The Routledge International Handbook of Spirituality in Society and the Professions* offers accessible, diverse and engaging international research and its scope will appeal to academics and students of a wide range of subjects including aging and addiction, psychology, theology, religious studies, sociology, business studies and philosophy. It will also be an important work for professionals in medical and social services, the clergy, education, business, the arts, religious communities and politics, and members of organizations looking at the links between spirituality, religion and society.

International Handbook of Research in Arts Education Liora Bresler, 2007-09-04. Providing a distillation of knowledge in the various disciplines of arts education, dance, drama, music, literature and poetry, and visual arts, the Handbook synthesizes existing research, literature, helps define the past and contributes to shaping the substantive and methodological future of the respective and integrated disciplines of arts education. While research can at times seem distant from practice, the Handbook aims to maintain connection with the lived practice of art and of education, capturing the vibrancy and best thinking in the field of theory and practice. The Handbook is organized into 13 sections, each centering on a major area or issue in arts education research. These areas include History of arts education, curriculum, evaluation, cultural centers, appreciation, composition, informal learning, child culture, creativity, the

body spirituality and technology The individual chapters address cross cultural research related to the central theme of the section from the perspectives of the particular arts discipline Interludes provide reflective thoughts on the theme
