Lawrence's Border Crossing** Eunyoung Oh,2006-11-27 D H Lawrence s Border Crossing builds upon developments within postcolonial theory to argue for a reconsideration of the concept of spirit of place in D H Lawrence s travel books and leadership novels works that record Lawrence s various encounters with racial and geographical others Exploring his relationship to colonialism Dr Oh shows how Lawrence s belief in different spirits belonging to these disparate places enables him to transcend the hierarchies between metropolis and colony between civilized and primitive worlds

Spirits of the Place John Clifford Holt,2009-07-29 Spirits of the Place is a rare and timely contribution to our understanding of religious culture in Laos and Southeast Asia Most often studied as a part of Thai Vietnamese or Khmer history Laos remains a terra incognita to most Westerners and to many of the people living throughout Asia as well John Holt s new book brings this fascinating nation into focus With its overview of Lao Buddhism and analysis of how shifting political power from royalty to democracy to communism has impacted Lao religious culture the book offers an integrated account of the entwined political and religious history of Laos from the fourteenth century to the contemporary era Holt advances the provocative argument that common Lao knowledge of important aspects of Theravada Buddhist thought and practice has been heavily conditioned by an indigenous religious culture dominated by the veneration of phi spirits whose powers are thought to prevail over and within specific social and geographical domains The enduring influence of traditional spirit cults in Lao culture and society has brought about major changes in how the figure of the Buddha and the powers associated with Buddhist temples and reliquaries indeed how all ritual spaces and times have been understood by the Lao Despite vigorous attempts by Buddhist royalty French rationalists and most recently by communist ideologues to eliminate the worship of phi spirit cults have not been displaced they continue to persist and show no signs of abating Not only have the spirits resisted eradication but they have withstood synthesis subordination and transformation by Buddhist political and ecclesiastical powers Rather than reduce Buddhist religious culture to a set of simple commonalities Holt takes a comparative approach using his nearly thirty years experience with Sri Lanka to elucidate what is unique about Lao Buddhism This stimulating book invites students in the fields of the history of religion and Buddhist and Southeast Asian studies to take a fresh look at prevailing assumptions and perhaps reconsider the place of Buddhism in Laos and Southeast Asia **Water on the Moon**

Helen Buckingham,2010 **A Sense of Place and Belonging** Klemens Karlsson,2025-03-15 A Sense of Place and Belonging examines a marginalized society Chiang Tung Keng Tung in the Eastern Shan State of Myanmar between the dominant cultures of the Burmese Chinese and Siamese Thai Chiang Tung sits at the historic borderland known as the Golden Triangle an area marked by drug trade human trafficking and civil war Hiding a glorious literary and visual cultural tradition from the fourteenth century Chiang Tung is remarkable for how well it has maintained its Buddhist culture in the turbulent history of war and forced resettlement that formed northern Southeast Asia Klemens Karlsson examines the

connection between the Buddhist traditions the ancient cult of territory spirits a cult of the earth place and village that forms a kind of religious map and the monsoon culture of wet rice irrigation Tying together myths and memories told by local people and written in local chronicles with the unique performance of the Songkran festival which dramatizes a symbolic agreement between Tai Khuen people and the indigenous Lua Lawa people A Sense of Place and Belonging presents a historical political religious and cultural context connecting the present with the past the local with the global and tradition with change and transformation

An Imperative to Cure James B. Waldram, 2020-11 James B Waldram s groundbreaking study An Imperative to Cure Principles and Practice of Q eqchi Maya Medicine in Belize explores how our understanding of Indigenous therapeutics changes if we view them as forms of medicine instead of healing Bringing an innovative methodological approach based on fifteen years of ethnographic research Waldram argues that Q eqchi medical practitioners access an extensive body of empirical knowledge and personal clinical experience to diagnose treat and cure patients according to a coherent ontology and set of therapeutic principles Not content to leave the elements of Q eqchi cosmovision to the realm of the imaginary and beyond human reach Q eqchi practitioners conceptualize the world as essentially material and meta material consisting of complex but knowable forces that impact health and well being in real and meaningful ways forces with which Q eqchi practitioners must engage to cure their patients

and students interested in moral theology      *Handbook of Contemporary Religions in Brazil* Bettina Schmidt, Steven Engler, 2016-09-19 The Brill Handbook of Contemporary Religions in Brazil provides an unprecedented overview of Brazil's religious landscape. It offers a full, balanced and contextualized portrait of contemporary religions in Brazil, bringing together leading scholars from both Brazil and abroad, drawing on both fieldwork and detailed reviews of the literatures. For the first time, a single volume offers overviews by leading scholars of the full range of Brazilian religions alongside more theoretically oriented discussions of relevant religious and culture themes. This Handbook's three sections present specific religions and groups of traditions, Brazilian religions in the diaspora and issues in Brazilian religions, e.g. women, possession, politics, race and material culture.      **Vernacular Chinese-Character Manuscripts from East and Southeast Asia** David

Holm, 2024-07-22 This collection brings together studies on vernacular manuscripts in regional Chinese dialects such as Cantonese and Hokkien, South Fujian dialect, those of non-Han peoples in China and Southeast Asia such as the Zhuang and Yao, and a vernacular character manuscript in Vietnamese. Across this wide range, the focus is on manuscripts written in regional and vernacular adaptations of the Chinese script. Three chapters on Yao manuscripts each focus on a different aspect of their use in local society or on collections of Yao manuscripts in overseas collections; there are three chapters on Zhuang and related Tai languages; two studies on Hokkien, one on the Cantonese script in contemporary Hong Kong and one on a Buddhist manuscript with Vietnamese Chinese commentary from a temple in Bangkok. Detailed descriptions of traditional paper manufacture in the villages are given for both the Yao and the Zhuang, as well as paper analysis used to date a Vietnamese manuscript. Coverage includes information about the physicality of the manuscripts investigated and the vernacular Chinese scripts in which they are written, but also a wealth of information about their use and significance in local society. This collection will be of interest to scholars and students interested in the philological analysis of East and Southeast Asian character scripts and manuscript traditions, but also the broader social contexts of manuscript use in traditional and modern society.      Journal of the House of Representatives of the United States United States. The book explores Indigenous medicine across North America with a special emphasis on how Indigenous knowledge has endured and persisted among peoples with a legacy to Mexico. Gonzales combines her lived experience in Red

Medicine as an herbalist and traditional birth attendant with in depth research into oral traditions storytelling and the meanings of symbols to uncover how Indigenous knowledge endures over time And she shows how this knowledge is now being reclaimed by Chicanos Mexican Americans and Mexican Indigenous peoples For Gonzales a central guiding force in Red Medicine is the principle of regeneration as it is manifested in Spiderwoman Dating to Pre Columbian times the Mesoamerican Weaver Spiderwoman the guardian of birth medicine and purification rites such as the Nahua sweat bath exemplifies the interconnected process of rebalancing that transpires throughout life in mental spiritual and physical manifestations Gonzales also explains how dreaming is a form of diagnosing in traditional Indigenous medicine and how Indigenous concepts of the body provide insight into healing various kinds of trauma Gonzales links pre Columbian thought to contemporary healing practices by examining ancient symbols and their relation to current curative knowledges among Indigenous peoples Red Medicine suggests that Indigenous healing systems can usefully point contemporary people back to ancestral teachings and help them reconnect to the dynamics of the natural world
