Meadows,2010-01-01 Examining the place names geographical knowledge

Canada Patrick Macklem,2001-12-15 There is a unique constitutional relationship between Aboriginal people and the Canadian state a relationship that does not exist between other Canadians and the state It s from this central premise that Patrick Macklem builds his argument in this outstanding and significant work Why does this special relationship exist What does it entail in terms of Canadian constitutional order There are Macklem argues four complex social facts that lie at the heart of the relationship First Aboriginal people belong to distinctive cultures that were and continue to be threatened by non Aboriginal beliefs philosophies and ways of life Second prior to European contact Aboriginal people lived in and occupied North America Third prior to European contact Aboriginal people not only occupied North America they exercised sovereign authority over persons and territory Fourth Aboriginal people participated in and continue to participate in a treaty process with the Crown Together these four social conditions are exclusive to the Aboriginal people of North America and constitute what Macklem refers to as indigenous difference Exploring the constitutional significance of indigenous difference in light of the challenges it poses to the ideal of equal citizenship Macklem engages an interdisciplinary methodology that treats constitutional law as an enterprise that actively distributes power primarily in the form of rights and jurisdiction among a

variety of legal actors including individuals groups institutions and governments On this account constitutional law refers to an ongoing project of aspiring to distributive justice disciplined but not determined by text structure or precedent Far from threatening equality constitutional protection of indigenous difference promotes equal and therefore just distributions of constitutional power The book details constitutional rights to Aboriginal people that protect interests associated with culture territory sovereignty and the treaty process and explores the circumstances in which these rights can be interfered with by the Canadian state It also examines the relation between these rights and the Canadian Charter of Rights and Freedoms and proposes extensive reform of existing treaty processes in order to protect and promote their exercise Macklem s book offers a challenge to traditional understandings of the constitutional status of indigenous peoples relevant not only to Canadian debates but also to those in other parts of the world where indigenous peoples are asserting greater autonomy over their collective futures

Spirits of the Wild: Paranormal Phenomena in Nature Vikki Strack, The call of the wild is a powerful force It beckons us to the untamed spaces to the places where the earth breathes its ancient breath But within those wild spaces there lies another story a tale whispered on the wind carried by the rustling leaves and etched into the very fabric of the land It is the story of the spirits of the wild the unseen forces that linger in the shadows the echoes of the past that linger long after their physical forms have faded This book is a journey into that world of whispers and shadows an exploration of the paranormal phenomena that haunt the natural world It is a testament to the power of folklore the tales passed down through generations weaving together the fabric of our understanding of the world It is a testament to the enduring mystery of nature the secrets that lie hidden in the twilight the unseen forces that shape our world In these pages we will venture into the heart of haunted forests where the air is thick with the scent of decay and the sound of whispers We will encounter the spectral animals that prowl the wilderness the ghosts of creatures that once roamed free We will uncover the eerie legends that cling to ancient trails the tales of spirits bound to the land This is not a book for the faint of heart It is a journey into the realm of the unknown where the boundaries between the real and the unreal blur It is a book for those who are willing to question to explore and to embrace the mystery that lies within nature s embrace

Dammed Brittany Luby, 2020-10-09 Dammed explores Canada s hydroelectric boom in the Lake of the Woods area It complicates narratives of increasing affluence in postwar Canada revealing that the inverse was true for Indigenous communities along the Winnipeg River Dammed makes clear that hydroelectric generating stations were designed to serve settler populations Governments and developers excluded the Anishinabeg from planning and operations and failed to consider how power production might influence the health and economy of their communities By so doing Canada and Ontario thwarted a future that aligned with the terms of treaty a

future in which both settlers and the Anishinabeg might thrive in shared territories The same hydroelectric development that powered settler communities flooded manomin fields washed away roads and compromised fish populations Anishinaabe families responded creatively to manage the government sanctioned environmental change and survive the resulting economic loss Luby reveals these responses to dam development inviting readers to consider how resistance might be expressed by individuals and families and across gendered and generational lines Luby weaves text testimony and experience together grounding this historical work in the territory of her paternal ancestors lands she calls home With evidence drawn from archival material oral history and environmental observation Dammed invites readers to confront Canadian colonialism in the twentieth century The Weight of Gold Mica Jorgenson,2023-06-06

Mining in North America has long been criticized for its impact on the natural environment Mica Jorgenson's The Weight of Gold explores the history of Ontario Canada's rise to prominence in the gold mining industry while detailing a series of environmental crises related to extraction activities In Ontario in 1909 the discovery of exceptionally rich hard rock gold deposits in the Abitibi region in the north precipitated industrial development modeled on precedents in Australia South Africa and the United States By the late 1920s Ontario's mines had reached their maturity and in 1928 Minister of Mines Charles McRae called Canada the mineral treasure house to the world Mining companies increasingly depended upon their ability to redistribute the burdens of mining onto surrounding communities a strategy they continue to use today both at home and abroad Jorgenson connects Canadian gold mining to its international context revealing that Ontario's gold mines informed extractive knowledge which would go on to shape Canada's mining industry over the next century Sacred Places Around the World Brad Olsen,2004 World travelers and armchair tourists who want to explore the mythology and archaeology of the ruins sanctuaries mountains lost cities and temples of ancient civilizations will find this guide ideal Detailed here are the monuments and sites where ancient peoples once gathered to perform sacred rituals and ceremonies to worship various gods and to achieve spiritual enlightenment Important archaeological historical and geological destinations worldwide are profiled from the Great Pyramid in Egypt and the Forbidden City in China to the Temples of Angkor in Cambodia and Mount Shasta in California Sites are described in historical and cultural context and practical contemporary travel information is provided including detailed maps drawings photographs and travel directions This replaces 1888729023 **Encyclopedia of Religion and Nature** Bron
