*The Eyes of Faith* Ormond Rush,2009 Winner of the 2010 Lynlea Rodger Australia Theological Form ATF Press Theological Book Prize The Eyes of Faith presents a systematic theology of the sense of the faithful sensus fidelium and shows the fundamental and necessary interrelationship between sensus fidelium tradition Scripture theology and the magisterium Ormond Rush provides fresh perspectives on a number of issues He proposes that tradition and Scripture are the products of the sensus fidelium and that the inspiration of Scripture is best understood in terms of the Holy Spirit working through the sensus fidelium In addressing the role of the sensus fidei in the lives of individual believers the book provides a unique approach to the way Christians make sense of their faith within the diverse contexts of daily life It shows how the imaginative capacity of the sensus fidei forms a foundational notion for understanding the diversity of spiritualities inculturations and contextualizations of the Gospel in the history of the church up to the present This ecclesial activity of interpreting the Christ event through the sensus fidelium enables the church to proclaim the Gospel in new times and cultures throughout history The Eyes of Faith proposes that for an effective teaching of the faith to contemporary Christians the distinctive roles of the magisterium and of theology must be conceived primarily in terms of and in relationship to the ecclesial Spirit given capacity of the sensus fidelium ABOUT THE AUTHOR Ormond Rush is lecturer of theology and former

president of St Paul's Theological College in Banyo Australia and is president of the Australian Catholic Theological Association. He is the author of *Still Interpreting Vatican II: Some Hermeneutical Principles and The Reception of Doctrine: An Appropriation of Hans Robert Jauss' Reception Aesthetics and Literary Hermeneutics*. PRAISE FOR THE BOOK: In addition to its internal argumentation, the book's extensive footnotes, Scriptural references, and Church documents will make it a tremendously valuable tool for advanced researchers in several theological areas including pneumatology, ecclesiology, Scripture studies, and hermeneutics. Highly recommended. C. A. Montevicchio, *Choice*. Some works of scholarship stand out, providing a point of reference and showing the way forward. Orm Rush's study is in this class, and it is not surprising that its first release by CUA Press is a splendid hardback volume. This work makes a significant contribution to Catholic Theology. Rev. John Thornhill, *SM The Australasian Catholic Record*. Rush provides a theologically perceptive panorama of the *sensus fidelium* at work in the church under the guidance of the Holy Spirit. In addition to offering numerous insights, usually beneficial and sometimes provocative, Rush's study is extraordinarily well researched. This volume is an outstandingly creative and comprehensive theological study of the grace of the Holy Spirit acting through the *sensus fidelium* in the reception of revelation in the church. John Ford, *C. S. C. Theological Studies*. Rush has here provided us with a sophisticated study of theological hermeneutics as well as a foundational work in ecclesiology. Lawrence S. Cunningham, *Commonweal*. This detailed and well-argued book explores the phenomenon of reception in both the Bible and in contemporary Roman Catholic tradition. An insightful study for those interested in the newest wave of Roman Catholic dogmatic theology which tends to draw deeply from biblical sources as well as Vatican teaching, this book genuinely advances discussions of the doctrine of reception. Aaron Klink, *Religious Studies Review*. **The Medium and Daybreak**, 1883. Feeling Pleasures. Joe Moshenska, 2014-10-30. The sense of touch had a deeply uncertain status in the sixteenth and seventeenth centuries. It had long been seen as the most certain and reliable of the senses and also as biologically necessary; each of the other senses could be relinquished, but to lose touch was to lose life itself. Alternatively, touch was seen as dangerously bodily and too fully involved in sensual and sexual pleasures to be of true worth. *Feeling Pleasures* argues that this tension came to the fore during the English Renaissance and allowed some of the central debates of this period surrounding the nature of human experience of the material world and of the relationship between the human and the divine to proceed through discussions of touch. It also argues that the unstable status of touch was of particular import to the poetry of this period. By bringing touch to the fore in a period usually associated with the dominance of vision and optics, Joe Moshenska offers reconsiderations of major English poets, especially Edmund Spenser and John Milton, while exploring a range of spheres in which touch assumed new significance. These include theological debates surrounding relics and the Eucharist in the work of Erasmus, Thomas Cranmer, and Lancelot Andrewes; the philosophical history of tickling; the touching of paintings and sculptures in a European context; faith, healing, and experimental science; and the early reception of Chinese medicine in England. **A Short History**

Rome and the Spirit of Caesar Jan H. Blits, 2015-09-17 Rome and the Spirit of Caesar providing a fresh interpretation of Julius Caesar is a thorough examination of Shakespeare's presentation of the final throes of republican Rome's political decay and demise and the rise of Caesarism As in his previous studies of Shakespeare's plays Blits pursuing his distinctive approach follows Caesar through scene by scene speech by speech line by line reaching his conclusions by closely examining Shakespeare's text Approaching the play as a coherent whole he examines

the whole in the light of its parts and the parts in the light of the whole Since each presupposes the other he considers the whole and its parts together He carefully relates the play's details to its major themes and grounds the themes in and supports them by the details While intruding no literary theory on the play Blits brings out the historical and perennial political substance that Shakespeare deliberately put into it He shows that Caesar is a work of historical poetry shaped by Shakespeare's mastery of the Roman histories and the Hellenistic philosophies bearing directly on his subject Topics include the love of honor and fame heroic ambition and glory virtue and honor civic strife political murder the role of political oratory public versus private interests Caesarism the decay of liberty loyalty demagoguery luxury spiritedness superstition Stoicism and Epicureanism manliness friendship moral intimidation political imprudence foreign and civil war universal empire and the advent of Christianity
