Get the Spirit Lloyd E. McIlveen, 2014-07-01 Spirit spiritual aspects perceived and spirituality ingrained have been static overemphasized and deceptively unruly in spiritual enslavement for too many millenniums Times are changing and so is the spiritual nature of everything pertaining to belief systems of mankind These scriptures offer broad views of spirit spiritual and spirituality in concept and compare them from the ancient traditions of beliefs to those more recent and what will likely be future emanation of spiritual concepts and consciousness Comprehensive aspects of spiritual rigidity and transforming fluctuations adaptations and changes are displayed for purposes of gaining more conscious awareness to possible alternatives for everyone interested in a broad and future minded aspect of how the spirit of many natures may fit in with our lives *Being Spirit* Janet Neville, Steve Bridger, 2018-12-07 Being Spirit is an introduction to Spirit which aims to help readers explore who you are and why you are here offering insights into core meanings of life Chapters include an introduction to Mediumship a description of the World of Spirit Angels and Guides and information on how to connect with your higher self A Dynamic Reading of the Holy Spirit in Revelation Hee Youl Lee, 2014-04-07 A Dynamic Reading of the Holy Spirit in Revelation attempts to read the book of Revelation in a new way as a narrative embracing literary elements such as plot point of view narrative voice character and story structure to help readers discover its meanings by tracing the story anew Lee s unique narrative perspective offers readers a bird s eye view to experience four levels of the story heaven earth abyss and the lake of fire Lee develops a theological account of John s pneumatology and surely extends Christian pneumatology a doctrine inseparable from the life of the church Readers will come away with a greater understanding of the role of the Holy Spirit which will enable them to enjoy a deeper fellowship with the Holy Spirit more intimately than ever before Lee portrays the book of Revelation as a mission oriented book that tells how the kingdom of God will be built in this world through spiritual warfare rather than as a book of eschatology Lee s book will serve as a spiritual wake up call to the modern church and the people of God in its accurate portrayal of the Holy Spirit and vivid description of spiritual warfare

Berkeley's Philosophy of Spirit Talia Mae Bettcher, 2007-04-23 This book tackles some of the deepest problems in Berkeley s philosophy by providing a fresh interpretation of Berkeley s core ontological doctrines and their relationship to his views about self consciousness Berkeley the author argues is led to adopt a new model of self consciousness because he rejects the basic metaphysics of many of his predecessors This new model of self consciousness provides the foundation for Berkeley s own ontological framework Bettcher s interpretation provides answers to long standing questions about Berkeley s traditionally derided views about mind offers an elegant treatment of Berkeley s core metaphysical views more generally and illuminates Berkeley s innovative attempt to address the important philosophical and theological issues of his day Moreover Bettcher shows the importance of Berkeley s philosophy of spirit to the perplexing thesis that the subject of experience is somehow mysteriously elusive She argues that Berkeley can be seen as a transitional figure with respect to the

older philosophical concept of subject as a metaphysical supporter of properties and the more modern philosophical concept of subject as opposed to object She provides a re reading of Hume s famous claim that when he turned reflection upon himself he could perceive only perceptions and sheds new light on the notion of a subject of experience The book will be of substantial interest both to Berkeley scholars and to philosophers concerned with contemporary discussions of self consciousness

Wills,Marian de Souza,Jennifer Mata-McMahon,Mukhlis Abu Bakar,Cornelia Roux,2021-07-15 How do children determine which identity becomes paramount as they grow into adolescence and early adulthood Which identity results in patterns of behaviour as they develop To whom or to which group do they feel a sense of belonging How might children adolescents and young adults negotiate the gap between their own sense of identity and the values promoted by external influences The contributors explore the impact of globalization and pluralism on the way most children and adolescents grow into early adulthood They look at the influences of media and technology that can be felt within the living spaces of their homes competing with the religious and cultural influences of family and community and consider the ways many children and adolescents have developed multiple and virtual identities which help them to respond to different circumstances and contexts They discuss the ways that many children find themselves in a perpetual state of shifting identities without ever being firmly grounded in one potentially leading to tension and confusion particularly when there is conflict between one identity and another This can result in increased anxiety and diminished self esteem This book explores how parents educators and social and health workers might have a raised awareness of the issues generated by plural identities and the

overpowering human need to belong so that they can address associated issues and nurture a sense of wholeness in children and adolescents as they grow into early adulthood
