**Elemental and Ancestral Spirits, Or the Gods and the Glorified** Gerald Massey, 2008-11-01 The two primary elements were those of darkness and light Sut was the power of darkness Horus the power of light In one representation the two elements were imaged by means of the black bird of Sut and the white bird or golden hawk of Horus Thus we can identify two elemental powers as old as night and day which are primeval in universal mythology and these two powers or animistic souls were divinized as the two gods Sut and Horus with the two birds of darkness and light the black vulture and the gold hawk depicted back to back as their two representative types or personal totems from Elemental and Ancestral Spirits or The Gods and the Glorified It goes unappreciated by modern Egyptologists but it is embraced by those who savor the concept of a hidden history of humanity and those who approach all human knowledge from the perspective of the esoteric Gerard Massey's massive Ancient Egypt The Light of the World first published in 1907 and the crowning achievement of the self taught scholar redefines the roots of Christianity via Egypt proposing that Egyptian mythology was the basis for Jewish and Christian beliefs Here Cosimo proudly presents Book 3 of Ancient Egypt in which Massey explains how the original elemental spirits of early humans were transformed into deities and how the concept of a soul developed from animalistic representations of natural forces Peculiar and profound this work will intrigue and delight readers of history religion and mythology British author GERALD MASSEY 1828 1907 published works of poetry spiritualism Shakespearean criticism and theology but his best known works are in the realm of Egyptology including A Book of the Beginnings and The Natural Genesis Spirit and Ancestor Berlitz Guides, Bill Holm, 1987-12-01 *Spirit of the Ancestors* Susan Schuster Campbell, 2002 Spirit of the Ancestors Lessons from Africa explores modern problems using a beautifully simple window to our inner truths Westerners who have never traveled to Africa or in some cases had no particular interest in African culture report their success using the author's healing practice of honoring their ancestors Mystical guidance was never so clear

Jesus Christ as Logos Incarnate and Resurrected Nana (Ancestor) Rudolf K. Gaisie, 2020-10-16 This book seeks to demonstrate the significance of Ancestor Christology in African Christianity for christological developments in World Christianity Ancestor Christology has developed in the process of an African conversion story of appropriating the mystery of Christ Eph 3:4 in the category of ancestors Logos Christology in early Christian history developed as an intricate byproduct in the conversion process of turning Hellenistic ideas towards the direction of Christ A F Walls Hellenistic Christian writers and modern African Christian writers thus share some things in common and when their efforts are examined within the conversion process framework there are discernible modes of engagement The mode of Logos Christology that one finds in Origen for example is an innovative application of the understanding of Jesus Christ as Logos incarnate a new key but not discontinuous with the Johannine suggestive mode or the clarificatory mode of Justin Martyr African Ancestor Christology is at the threshold of an innovative mode and the argument this book makes is that this strand of African Christology should be pursued in the indigenous languages aided by respective translated Bibles a suggested way is a Logos Ancestor Nanas discourse in Akan Christianity

**Spirit and Ancestor , The Potent Dead** Anthony Reid, 2020-08-20 The dead are potent and omnipresent in modern Indonesia Presidents and peasants alike meditate before sacred graves to exploit the power they confer and mediums do good business curing the sick by interpreting the wishes of deceased forebears Among non Muslims there are ritual burials of the bones of the dead in monuments both magnificent and modest By promoting dead heroes to a nationalist pantheon regions and ethnic groups establish their place within the national story Although much has been written about the local forms of the scriptural religions to which modern Indonesians

are required by law to adhere Islam Christianity Hinduism and Buddhism this is the first book to assess the indigenous systems of belief in the spirits of ancestors Sometimes these systems are condemned in the name of the formal religions but more often the potent dead coexist as a private dimension of everyday religious practice A unique team of anthropologists historians and literary scholars from Europe Australia and North America demonstrate the continuing importance of the potent dead for understanding contemporary Indonesia At the same time they help us understand historic processes of conversion to Islam and Christianity by examining the continuing interactions of the spirit world with formal religion

**Evolving Brains, Emerging Gods** E. Fuller Torrey, 2017-09-05 Religions and mythologies from around the world teach that God or gods created humans Atheist humanist and materialist critics meanwhile have attempted to turn theology on its head claiming that religion is a human invention In this book E Fuller Torrey draws on cutting edge neuroscience research to propose a startling answer to the ultimate question *Evolving Brains Emerging Gods* locates the origin of gods within the human brain arguing that religious belief is a by product of evolution Based on an idea originally proposed by Charles Darwin Torrey marshals evidence that the emergence of gods was an incidental consequence of several evolutionary factors Using data ranging from ancient skulls and artifacts to brain imaging primatology and child development studies this book traces how new cognitive abilities gave rise to new behaviors For instance autobiographical memory the ability to project ourselves backward and forward in time gave Homo sapiens a competitive advantage However it also led to comprehension of mortality spurring belief in an alternative to death Torrey details the neurobiological sequence that explains why the gods appeared when they did connecting archaeological findings including clothing art farming and urbanization to cognitive developments This book does not dismiss belief but rather presents religious belief as an inevitable outcome of brain evolution Providing clear and accessible explanations of evolutionary neuroscience *Evolving Brains Emerging Gods* will shed new light on the mechanics of our deepest mysteries

*The Nature of Magic* Susan Greenwood, 2020-06-03 This book examines how and why practitioners of nature religion Western witches druids shamans seek to relate spiritually with nature through magical consciousness Magic and consciousness are concepts that are often fraught with prejudice and ambiguity respectively Greenwood develops a new theory of magical consciousness by arguing that magic ultimately has more to do with the workings of the human mind in terms of an expanded awareness than with socio cultural explanations She combines her own subjective insights gained from magical practice with practitioners in depth accounts and sustained academic theory on the process of magic She also tracks magical consciousness in philosophy myth folklore story telling and the hi tech discourse of postmodernity and asks important questions concerning nature religion s environmental credentials such as whether it is inherently ecological as many of its practitioners claim
