R. Gregory Lande, 2020-07-10 America's Civil War took a dreadful toll on human lives and the emotional repercussions were exacerbated by tales of battlefield atrocities improper burials and by the lack of news that many received about the fate of their loved ones Amidst widespread religious doubt and social skepticism spiritualism the belief that the spirits of the dead existed and could communicate with the living filled a psychological void by providing a pathway towards closure during a time of mourning and by promising an eternal reunion in the afterlife regardless of earthly sins Primary research including 55 months of the weekly spiritual newspaper *Banner of Light* and records of hundreds of soldiers and family members spirit messages reveals unique insights into battlefield deaths the transition to spirit life and the motivations prompting ethereal communications This book focuses extensively on Spiritualism's religious political and commercial activities during the war years as well as the controversies surrounding the faith strengthening the connection between ante and postbellum studies of Spiritualism *A Companion to the Anthropology of Death* Antonius C. G. M. Robben, 2018-05-11 A thought provoking examination of death dying and the afterlife Prominent scholars present their most recent work about mortuary rituals grief and mourning genocide cyclical processes of life and death biomedical developments and the materiality of human corpses in this unique and illuminating book Interrogating our most common practices surrounding death the authors ask such questions as How does the state wrest away control over the dead from bereaved relatives Why do many mourners refuse to cut their emotional ties to the dead and nurture lasting bonds Is death a final condition or can human remains acquire agency

The book is a refreshing reassessment of these issues and practices a source of theoretical inspiration in the study of death With contributions written by an international team of experts in their fields *A Companion to the Anthropology of Death* is presented in six parts and covers such subjects as Governing the Dead in Guatemala After Death Communications ADCs in North America Cryonic Suspension in the Secular Age Blood and Organ Donation in China The Fragility of Biomedicine and more *A Companion to the Anthropology of Death* is a comprehensive and accessible volume and an ideal resource for senior undergraduate and graduate students in courses such as Anthropology of Death Medical Anthropology Anthropology of Violence Anthropology of the Body and Political Anthropology Written by leading international scholars in their fields A comprehensive survey of the most recent empirical research in the anthropology of death A fundamental critique of the early 20th century founding fathers of the anthropology of death Cross cultural texts from tribal and industrial societies The collection is of interest to anyone concerned with the consequences of the state and massive violence on life and death

In Love with Hell William Palmer, 2021-04-22 Sympathetic and wonderfully perceptive a heartbreaking read NICK COHEN Critic Wise witty and empathetic outstanding JIM CRACE A fascinating treatment of the age old problem of writers and drink which displays the same subtle qualities as William Palmer's own undervalued novels D J TAYLOR An enjoyable exploration of an enduringly fascinating subject Palmer is above all a dispassionate critic and is always attentive to and unwaveringly perceptive about the art of his subjects as well as their relationship with alcohol his treatment is even handed and largely without judgement He tries to understand without either condoning or censuring the impulses behind often reprehensible behaviour SOUMYA BHATTACHARYA *New Statesman* A vastly absorbing and entertaining study of this ever interesting subject ANDREW DAVIES screenwriter and novelist *In Love with Hell* is a fascinating and beautifully written account of the lives of eleven British and American authors whose addiction to alcohol may have been a necessary adjunct to their writing but ruined their lives Palmer's succinct biographies contain fine descriptions of the writers their work and the times they lived in and there are convincing insights into what led so many authors to take to drink PIERS PAUL READ Why do some writers destroy themselves by drinking alcohol Before our health conscious age it would be true to say that many writers drank what we now regard as excessive amounts Graham Greene for instance drank on a daily basis quantities of spirits and wine and beer most doctors would consider as being dangerous to his health But he was rarely out of control and lived with his considerable wits intact to the age of eighty six W H Auden drank the most of a bottle of spirits a day but also worked hard and steadily every day until his death Even T S Eliot for all his pontifical demeanour was extremely fond of gin and was once observed completely drunk on a London Tube station by a startled friend These were not writers who are generally regarded as alcoholics Alcoholic is in any case a slippery word as exemplified by Dylan Thomas's definition of an alcoholic as someone you dislike who drinks as much as you The word is still controversial and often misunderstood and misapplied What acclaimed novelist and poet William Palmer's book is interested in is the effect that heavy drinking had on writers how they

lived with it and were sometimes destroyed by it and how they described the whole private and social world of the drinker in their work He looks at Patrick Hamilton the feverish magic that alcohol can work Jean Rhys As soon as I sober up I start again Charles Jackson Delirium is a disease of the night Malcolm Lowry I love hell I can't wait to go back there Dylan Thomas A womb with a view John Cheever The singing of the bottles in the pantry Flann O'Brien A pint of plain is your only man Anthony Burgess Writing is an agony mitigated by drink Kingsley Amis Beer makes you drunk Richard Yates The road to Revolutionary Road and Elizabeth Bishop The writer's writer's writer

Women, 'Race' and Writing in the Early Modern Period Margo Hendricks, Patricia Parker, 2013-08-21

Women Race and Writing in the Early Modern Period is an extraordinarily comprehensive interdisciplinary examination of one of the most neglected areas in current scholarship. The contributors use literary, historical, anthropological, and medical materials to explore an important intersection within the major era of European imperial expansion. The volume looks at the conditions of women's writing and the problems of female authorship in the period, the tensions between recent feminist criticism and the questions of race, empire, and colonialism, the relationship between the early modern period and post-colonial theory, and recent African writing. *Women Race and Writing in the Early Modern Period* contains ground-breaking work by some of the most exciting scholars in contemporary criticism and theory. It will be vital reading for anyone working or studying in the field.

Journey to Armageddon Kevin A. Campbell, 2019-06-05 Once again the soldiers, officers, and commanders tell the story in this third volume of Kevin Campbell's comprehensive work on the Gettysburg Campaign. *Journey to Armageddon*. The hardships, comradery, short rations, and the dance with the enemy's bullets and shells are all here. Blistering sun, drenching rains, choking dust, sticky mud, played-out horses, and men, and the high level of often inharmonious communications between army commanders and their governments are presented in these pages. Fortunately, not all is despair and doom. Included are the sometimes humorous interactions with the civilians met along their journey and the acrimony that frequently filled encounters between hungry soldiers and the administrators of the villages and towns they passed through. The tales told by these hardy men about the events of their existence are significant elements within the story of the Gettysburg Campaign, which author Kevin Campbell tells in a clear and concise prose. Most historians who write of the great crusade gloss over these events in favor of the more prominent proceedings in and around Gettysburg. These often-ignored events and much more are incorporated into his complete treatment of the Union and Confederate armies on their journey to Armageddon.

Langham & Dupre Omnibus: 1&2 Eric Brown, 2018-03-12 This traditional 1950s set mystery series introduces crime writer Donald Langham and his sleuthing partner, literary agent Maria Dupre, as an engaging detective duo. When London's literary establishment is rocked by a series of bizarre deaths, Langham must draw on the skills of his fictional detective hero as he hunts a fiendishly clever killer with old scores to settle. *Murder by the Book*, London 1955. When crime writer Donald Langham's literary agent asks for his help in sorting out a delicate matter, little does Langham realize what he's getting himself into. For a nasty case of blackmail leads inexorably to murder as London's literary establishment is rocked by a series of increasingly bizarre deaths. With three members of the London Crime Writers Association coming to sudden and violent ends, what at first appeared to be a series of suicides looks suspiciously like murder, and there seems to be something horribly familiar about the various methods of despatch. With the help of his literary agent's assistant, the delectable Maria Dupre, Langham finds himself drawing on the skills of his fictional detective hero as he hunts a ruthless and fiendishly clever killer, a killer with old scores to settle. *Murder at the Chase*, July 1955. Fellow writer Alastair Endicott has requested Donald Langham's help in discovering what happened to his father, Edward, who has disappeared.

Ancestral Memory in Early China K. E. Brashier, 2011 Ancestral ritual in early China was an orchestrated dance between what was present the offerings and the living and what was absent the ancestors The interconnections among the tangible elements of the sacrifice were overt and almost mechanical but extending those connections to the invisible guests required a medium that was itself invisible Thus in early China ancestral sacrifice was associated with focused thinking about the ancestors with a structured mental effort by the living to reach out to the absent forebears and to give them shape and existence Thinking about the ancestors about those who had become distant required active deliberation and meditation qualities that had to be nurtured and learned This study is a history of the early Chinese ancestral cult particularly its cognitive aspects Its goals are to excavate the cult's color and vitality and to quell assumptions that it was no more than a simplistic and uninspired exchange of food for longevity of prayers for prosperity Ancestor worship was not the author contends merely mechanical and thoughtless Rather it was an idea system that aroused serious debates about the nature of postmortem existence served as the religious backbone to Confucianism and may even have been the forerunner of Daoist and Buddhist meditation practices

Memories of the Slave Trade Rosalind Shaw, 2002-04-08 Drawing on fieldwork and archival research Shaw argues that memories of the slave trade in Sierra Leone have shaped and been reshaped by experiences of colonialism postcolonialism and the country's ten year rebel war

Relational Remembering Sue Campbell, 2003-10-07 Tracing the impact of the memory wars on science and culture Relational Remembering offers a vigorous philosophical challenge to the contemporary skepticism about memory that is their legacy Campbell's work provides a close conceptual analysis of the strategies used to challenge women's memories particularly those meant to provoke a general social alarm about suggestibility Sue Campbell argues that we cannot come to an adequate understanding of the nature and value of memory through a distorted view of rememberers The harmful stereotypes of women's passivity and instability that have repopulated discussions of abuse have led many theorists to regard the social

dimensions of remembering only negatively as a threat or contaminant to memory integrity. Such models of memory cannot help us grasp the nature of harms linked to oppression as these models imply that changed group understandings of the past are incompatible with the integrity of personal memory. Campbell uses the false memory debates to defend a feminist reconceptualization of personal memory as relational, social, and subject to politics. Memory is analyzed as a complex of cognitive abilities and social narrative activities where one's success or failure as a rememberer is both affected by one's social location and has profound ramifications for one's cultural status as a moral agent.
