A futuristic figure with a blue, metallic, and patterned body is shown in a meditative lotus position. The figure wears large headphones and has a glowing digital mandala on their chest. They are seated on a large, glowing purple lotus flower. The background is a dark, starry space with a bright orange horizon line and vertical light streaks. The overall aesthetic is a blend of spirituality and technology.

*Technē* Gerald Hiestand, Todd A. Wilson, 2022-11-18 Christians have an increasingly complex and often conflicted relationship with technology As Genesis 1 succinctly and profoundly declares God created humanity in his image and as part of that vocation we are called to make something of the world Technology is one of the most important and powerful ways that human beings exercise this dominion But while technology can extend our humanity in powerful and exciting ways many of us feel that it can compromise or fracture our humanity at its core As a result questions quickly emerge What does it mean to be human How does our creation in the image of God affect the way we use design and understand technology Should our general posture toward technology be cautious or optimistic This collection of scholarly and pastoral essays drawn from the 2019 annual theology conference of the Center for Pastor Theologians offers substantive Christian reflection on a wide range of issues pertinent to a distinctly Christian vision of technology today and in the future **The Religion Reset** Alexious Fiero, 2025-07-01 *The Religion Reset* The New Revelation for a Divided World Are You Ready to Reclaim the Sacred in a Fractured World In an era of unprecedented division spiritual confusion and disillusionment many yearn for a deeper connection a path beyond dogma and discord *The Religion Reset* The New Revelation for a Divided World by Alexious Fiero offers that revolutionary path This isn't just a book about faith it's an urgent invitation to a paradigm shift that redefines our relationship with the divine with each other and with reality itself Rediscover the Universal Truths That Unite Us Fiero unveils the common thread woven through the tapestry of global spiritual traditions demonstrating how all paths ultimately point to the same source This isn't about discarding your beliefs but about remembering the core essence obscured by layers of time politics and fear What You'll Discover Inside Reclaim Your Spiritual Sovereignty Learn to cultivate individual spiritual authority rooted in integrity humility and conscious inquiry Move beyond passive inheritance to become an active awakened participant in your spiritual journey Embrace Dynamic Revelation Understand that truth is not static or finished but an

Rodgeron,2021-11-03 While the steady increase of the religiously unaffiliated Nones in America has generated anxious responses about rising secularism and loss of national identity this book suggests a wider meaning making approach wherein the Nones are seen as valuable dialogue partners necessary in this pivotal moment for the revealing of still hidden truths about culture spirituality and religion Christians who overhear this dialogue may find upon self reflection an emerging truth about their relationships embedded stories level of faith development and susceptibility to a culturally conditioned transactional religion Nones who choose to engage in dialogue may find that the nothingness they bring to the dialogue is more significant than they realize revealing truths of an apophatic spiritual path necessary for generating a transformational faith of freedom and capable of rebalancing a divisive consumer driven society The religious and the not religious who are often seen as being on opposite sides of an imagined religious threshold may instead be seen as standing together in a liminal space that opens in wordless silence to yet unseen possibilities and from which emerge new stories aligned with the heart of Creation     **Connecting with the Arcturians 2** David K. Miller,2016-12-19 This follow up to *Connecting with the Arcturians* contains the latest channeled teachings from Julian the Arcturians and two Andromedan spirit guides Heylang and Gurhan It covers topics such as embracing galactic spirituality and planetary evolution Arcturian thoughts from a fifth dimensional perspective the aura enhancing technique known as shimmering unity consciousness and much more Julian s teachings focus on personal and planetary healing and ascension and this volume presents the most up

evangelical practitioners      **The Movement of Nihilism** Laurence Paul Hemming, Kostas Amiridis, Bogdan Costea, 2011-03-03 When Nietzsche announced the advent of nihilism in 1887-88 he argued that he was sketching the history of the next two centuries. For some time now he wrote our whole European culture has been moving as toward catastrophe restlessly violently headlong like a river that wants to reach the end that no longer reflects that is afraid to reflect. Can we gain a ground for reflection upon our own condition? Can we heed Nietzsche's warning? Can we respond to the challenge? In this book eleven newly commissioned essays from leading scholars offer an attempt to grasp Nietzsche's prescience through Heidegger's critique of it attempting to think through the philosophical consequences of the last century in reading the signs of our own condition. The book also provides a fascinating and unique discussion of some of the lesser known texts of the later Heidegger.

**Healing Justice Lineages** Cara Page, Erica Woodland, 2023-02-07 A profound offering and call to action collective stories testimonials and incantations for renewing political and spiritual liberation grounded in Black Indigenous People of Color and Queer and Trans healing justice lineages. We reclaim the power resilience and innovation of our ancestors through this book. To embody their wisdom across centuries and generations is to continue their legacy of liberation and healing. In this anthology Black Queer Feminist editors Cara Page and Erica Woodland guide readers through the history legacies and liberatory practices of healing justice a political strategy of collective care and safety that intervenes on generational trauma from systemic violence and oppression. They call forth the ancestral medicines and healing practices that have sustained communities who have survived genocide and oppression while radically imagining what comes next. Anti-capitalist Black feminist and abolitionist Healing Justice Lineages is a profound and urgent call to embrace community and survivor-led care strategies as models that push beyond commodified self-care the policing of the medical industrial complex and the surveillance of the public health system. Centering disability reproductive environmental and transformative justice and harm reduction this collection elevates and archives an ongoing tradition of liberation and survival one that has been largely left out of our history books but continues to this day. In the first section Past Reckoning with Roots and Lineage Page and Woodland remember and reclaim generations long healing justice and community care work asking critical questions like How did our ancestors transform trauma and violence in their liberation work? What were our ancestors reckoning with and what did they imagine? The next sections Origins of Healing Justice and Alchemy Theory Praxis explore regional stories of healing justice in response to the current political and cultural landscape. The last section Political Spiritual Imperatives for the Future imagines a future rooted in lessons of the past addresses the ways healing justice is being co-opted and commodified and uplifts emergent work that's building infrastructure for care safety healing and political liberation.

**The Politics of Love** Carla Christina Hustak, 2024-02-13 The Politics of Love explores the entanglement of emotions social movements and science in reconfiguring human and nonhuman relations. As Darwin's evolutionary theory informed the development of sexual science and the sex reform movement between the 1890s and the 1920s sex reformers emerged as a

group of diverse and culturally influential professionals doctors psychologists artists political activists novelists and academics who shared a profound commitment to changing the world by changing the practice of sex Sex reformers reinvented love as a scientific practice of sex that brought humans and nonhumans into the fold of early twentieth century racial gender and sexual politics Carla Christina Hustak illuminates how sex reformers insistence that love can shift human and nonhuman relations is more than just a historical narrative it is a moment in time interconnected with urgent contemporary concerns over the global implications of our emotional relationships to other humans animals the earth and atmospheric and technological forces *Our Battle for the Human Spirit* Willem H. Vanderburg, 2016-08-04 Western society has become saturated with scientific and technological modes of thinking that impact our lives and our relationships Expanding social inequality the use of social media and the rise of mental illnesses such as anxiety and depression are manifestations of this shift in our civilization *Our Battle for the Human Spirit* is a comprehensive probe into what is happening to human life in the beginning of the 21st century It explores how culture experience and symbolization have been replaced by scientific discipline based approaches Willem H Vanderburg argues that these approaches are inadequate in understanding the complexity of human lives and societies In order to transcend these limits Vanderburg calls for the reintegration of culture and symbolization into our daily lives Comparing Faithfully Michelle Voss, 2016-09-01 Every generation of theologians must respond to its context by rearticulating the central tenets of the faith Interreligious comparison has been integral to this process from the start of the Christian tradition and is especially salient today The emerging field of comparative theology in which close study of another religious tradition yields new questions and categories for theological reflection in the scholar's home tradition embodies the ecumenical spirit of this moment This discipline has the potential to enrich systematic theology and by extension theological education at its foundations The essays in *Comparing Faithfully* demonstrate that engagement with religious diversity need not be an afterthought in the study of Christian systematic theology rather it can be a way into systematic theological thinking Each section invites students to test theological categories to consider Christian doctrine in relation to specific comparisons and to take up comparative study in their own contexts This resource for pastors and theology students reconsiders five central doctrines of the Christian faith in light of focused interreligious investigations The dialogical format of the book builds conversation about the doctrine of God theodicy humanity Christology and soteriology Its comparative essays span examples from Hindu Buddhist Jewish Muslim Jain and Confucian traditions as well as indigenous Aztec theology and contemporary spiritual but not religious thought to offer exciting new perspectives on Christian doctrine
