Rudolf Steiner, 1960 **The Spirit over the Earth** Gene L. Green, Stephen T. Pardue, K. K. Yeo, 2016-12-31 Though the global center of Christianity has been shifting south and east over the past few decades very few theological resources have dealt with the seismic changes afoot The Majority World Theology series seeks to remedy that lack by gathering well regarded Christian thinkers from around the world to discuss the significance of Christian teaching in their respective contexts The contributors to this volume reflect deeply on the role of the Holy Spirit in both the church and the world in dialogue with their respective contexts and cultures Taking African Asian and Latin American cultural contexts into account gives rise to fresh questions and insights regarding the Spirit's work as witnessed in the world and demonstrates how the theological heritage of the West is not adequate alone to address the theological necessities of communities worldwide

The Spirit of Life issues from the Earth's North Pole Helena Petrovna Blavatsky, 2017-12-25 The real earth is Gaia the subjective matrix of the Universe Our planet is Gaia's emanation on the illusive plane of the most material world in the universe of being The present creation when the Earth was lifted out of the water by Brahma in the shape of a boar is one of two great creations mentioned in the Puranas For the waters had separated and the process of incrustation was started What makes the world go around is the Divine Desire manifesting itself through the interrelationship of its parts That Desire is not only beyond Spirit Matter it is the very cause of the two Opposing Forces Earth is Solid Fire water Liquid Fire air Semi spiritual Fire The Spirit of the Earth is Hestia Vesta says Proclus But Vesta is neither the spiritual nor the physical Sun She is animated by the Spirit of Life Gaia's symbol is Gamma the third Greek letter and ideogram of both life eternal and of earthly life The Jewish kabbalists especially the practical Occultists who dealt with ceremonial magic busied themselves solely with the spirits of the Planets and the Elementals so called The Christian Theologians opposed the theory of the Earth's rotation because besides depriving our orb of its dignified central position in space this theory produced an appalling confusion of ideas as to the Ascension thus complicating the precise locality of heaven The Spirit of Life issues from the Earth's North

Love and the Soul Robert Sardello, 2011-06-28 With economies in peril war in the Middle East genocides global warming and a host of other grim phenomena the world has never seemed so besieged The solution says Robert Sardello lies with the individual In this timely thoughtful book he explains how the soul can engage with the outer world to produce radical change Because we think of the world as a vast mechanism and behave as mechanical objects in it the results are devastation and dysfunction The key is to learn to identify with the plight of the Earth by developing a true sense of individual imagination and conscious awareness of inner purpose and beauty in conjunction with the soul of the world Sardello shows how to achieve this awareness and bring what is inside out into the world inspiring balance and stability Using the Grail legend and the myth of Sophia known as the Soul of the World as well as writings by Jung James Hillman and Rudolf Steiner Love and the Soul helps readers imagine a revitalized Earth by exploring the significance of grieving the transformative power of radical receptivity the creative power of dreaming and a new basis for community

Love & Light Clayton Tylor, 2017-05-20 This book examines Swedenborg s spiritual experiences of Heaven

and Hell from an esoteric perspective as a feeling the language of angels and spirits To perceive this spiritual feeling begins the regeneration process that develops an inner perception of celestial love as spiritual light When we can perceive love and light as a feeling as it expresses through our physical senses we can start to affect our own psycho spiritual development to evolve from a sensual to a spiritual feeling of conjugal love As we examine love and light as a spiritual feeling through heaven and hell we too begin to experience a deeper spiritual awareness which can initiate a personal communication with the Divine as a Conjugal Love experience With creative self expression as our goal we can take regeneration into our own hands to speed up our own evolution while we transmute the forces that block the spiritual feeling of the Brotherhood of Mankind and thereby together manifest the feeling of Heaven on Earth The Spirit Renews the Face of the Earth Amos Yong,2009-04-01 This collection of essays was first presented at the 37th annual meeting of the Society for Pentecostal Studies held jointly with the Wesleyan Theological Society at Duke University in March 2008 under the conference theme Signs Sighs and Significance Pentecostal and Wesleyan Explorations of Science and Creation Along with a companion volume of Wesleyan essays published also by Pickwick Publications the twelve chapters here represent both Pentecostal reflections responses to the science religion discussion and Pentecostal contributions to the ongoing exchange by biblical studies specialists historians and theologians among those trained in other disciplines Together the essayists model an actual dialogue in which Pentecostal scholarly reflection is impacted by science religion discourses on the one hand while Pentecostals reach deep into their own tradition to explore how their pre understandings and commitments might enable them to speak with their own voice into pre existing conversations on the other hand This volume thus represents one of the first hopefully the first of many in which Pentecostals register their perspectives on a major issue of our time In a world dominated by science and at a time when theologies of creation that encourage and require care for creation and the environment are proliferating The Spirit Renews the Face of the Earth provides a set of Pentecostal perspectives on these important matters The pain of our earth Dietmar Dressel,2021-02-08 In this novel you read something about the longing of the planet earth with its plant world and its animal world to lead a peaceful and prosperous life as the spiritual being embedded in the spiri tual energy made development process possible Planet Earth a small planet on the edge of a galaxy is doing well What one cannot say about one s thinking corporeal living beings of the higher spiritual order i e humans They pull together are greedy to the point and ultimately cruelly kill each other What causes the human species in particular to constantly get involved with inhuman character traits *The Story Of Earth According To Sprkle, A Young Spirit* Patricia L.
