Spiritualism And Theosophy:

Spiritualism, Madame Blavatsky and Theosophy Rudolf Steiner, 2002-11 This work builds on the foundation of the Popol Vuh the document that retraces in mythical language the four ages or stages of civilization that all of America has undergone to some degree It also moves from the Popol Vuh into later times through myths and legends of the Aztec and Iroquois Myth and history are placed side by side in a scientific and imaginative approach that documents the correlation between pre historical and historical periods and the spiritual events that ushered them in as narrated in the myths and legends of North America This approach reconciles Western analytical consciousness with the Native American language of myths and legends All of this is placed first in the perspective of Maya spiritual tradition and then from the perspective that the twentieth century research of Rudolf Steiner brought to light especially in relation to the events that took place in Central America two thousand years ago about which only Rudolf Steiner has spoken The first part of the work explores events of 2 000 years ago and their consequences in the onset of Maya civilization The second part researches the rise of new spiritual influences around the time just before the arrival of Columbus in America At the extremes of the spectrum we find Aztec and Iroquois worldviews Both cosmologies have links subtle or obvious with the Popol Vuh whether continuing or reinterpreting its original message This polarity carries momentous consequences for global social trends in modern world history *Spiritual Turning Points of North American History* brings a fresh perspective to North American history and the meeting of European and First Nations worldviews *Spiritualism and Theosophy* Charles Webster Leadbeater, 1928 *Spiritualism and Theosophy* Charles Webster Leadbeater, 1928 Spiritualism and Theosophy C. W. Leadbeater, 2013-10 This is a new release of the original 1928 edition **The Key to Theosophy** H. P. Blavatsky, 2019-01-09 This masterwork by H P Blavatsky traces the broad outlines of the Wisdom Religion and explains its fundamental principles meeting at the same time the various objections raised by the average Western inquirer and endeavoring to present unfamiliar concepts in a form as simple and in language as clear as possible That it should succeed in making Theosophy intelligible without mental effort on the part of the reader would be too much to expect but it is hoped that the obscurity still left is of the thought and not of the language is due to depth and not to confusion To the mentally lazy or obtuse Theosophy must remain a riddle for in the world mental as in the world spiritual each man must progress by his own efforts The writer cannot do the reader s thinking for him nor would the latter be any the better off if such vicarious thought were possible *Theosophia Inner Wisdom* Helena Petrovna Blavatsky, et al., 2019-03-10 Theosophy is the renaissance of ancient spiritualism Theosophy is Archaic Wisdom Religion as taught by Masters and Magi Sages and Hierophants Prophets and Philosophers to the Elect undisguised by symbols It is Spiritual Knowledge reasoned out and corroborated by personal experience Diogenes La rtius traces Theosophy to an epoch antedating the dynasty of the Ptolemies But in fact Theosophy is much older It is the parent stem of Archaic Wisdom The term was revived in the 3rd century AD by Ammonius Saccas the Alexandrian Socrates of Neo Platonism teacher

of Plotinus and founder of the Eclectic Theosophical System Briefly Eclectic Theosophy asserts that 1 Humanity is a periodic emanation from a single noetic essence and 2 When by exertion and merit a mortal soul activates its latent faculties and potencies it can be re connected with its immortal noetic origin and source Hence the Buddhistic Vedantic and Magian or Zoroastrian systems were taught in the Eclectic Theosophical School along with all the philosophies of Greece It was Theosophy which prompted such men as Hegel Fichte and Spinoza to take up the labours of the old Grecian philosophers and speculate upon the One Substance the Deity the Divine All proceeding from Divine Wisdom And it was Theosophy that made it possible for great thinkers such as Plotinus Schelling and Emerson to reflect upon man s divine ancestry What Theosophy is and is not By looking inwards at the noumenal worlds and causes Theosophy is Esoteric Science par excellence Exact Science is only concerned with phenomenal worlds and effects Esoteric Science corroborates Nature s metaphysics and Divine Laws Exact Science Its physics and natural laws In Its fruition Theosophy is Inner Knowledge about the divinity of Cosmos and Man and a noetic progression from the known and knowable to the unknown and otherwise unknowable And as such It lies at the root of every moral philosophy religion and science Theosophy is the world s tree of knowledge and sum total of all sciences Sophia is the accumulated wisdom of Divine Beings from the beginning of time who have willingly accepted the harshness and drudgery of sentient life to help their toiling brothers Theosophy is not a religion It is but an analytical science the ally of every honest religion Being the culmination and practical demonstration of the Truths underlying every creed Theosophy is compatible with every religion It believes in no miracle whether divine or devilish and cherishes no anthropomorphic concepts whether gods or demons Theosophy discriminates between finite animal man and Infinite Divine Man and differs from the Vedantin doctrines It is not even esoteric religion Every old religion is but a chapter or two of the entire volume of archaic primeval mysteries Eastern Occultism alone being able to boast that it is in possession of the full secret with its seven keys In other words Theosophy is Religion itself Loyalty to Truth is Its creed Brotherhood of all beings not just men Its noble aim Theosophy is Inner Wisdom or Divine Knowledge It is at the heart of all religions and philosophies from the earliest time to the present day embracing all domains of mundane knowledge and human endeavour Yet It is a practical and an ethical philosophy ever transcending self imposed boundaries to expand consciousness and to dispel lingering doubts In short Theosophy is Supernal Philosophy Wisdom s True Love not mere verbiage It is a philosophy to live by Metaphysically Theosophy is the accumulated testimony and wisdom of the ages Theosophy is not knowledge of a God It is knowledge of gods Celestial Knowledge a shoreless ocean of Everlasting Truth Love and Impartiality monistic through and through By seeking the One Truth its allied with the ideals of every seeker of Truth To fully define Theosophy we must consider it under all its aspects By means of Its Golden Precepts those who are intellectually and ethically fit might gain insights of the inner world of being There mystics can see past present and future as in a mirror Theosophy wakes up and frees the Heavenly Man from the clutches of Its outer shadow so that He can live for others here on Earth unconstrained by

his earthly jailer forgetting himself in the midst of the many selves in the words of a Philaletheian Ethically Theosophy is unconditioned love for humanity and for all that lives Theosophy is philanthropy par excellence unconditioned and unreserved love for our fellow human beings and for all that lives in thought and deed It alone can restore hope and instil responsibility in a world suffocating from ignorance and its own misdeeds by mediating between egotism and altruism Even the great Law of Harmony depends on altruism Theosophy s aim and noble mission is to establish a community of spiritual thinkers who by studying Its precepts and enriching everyday life with Its exalted ethics can bring about a peaceful realignment of mainstream thought as a matter of urgency Warnings to aspirants Those who do not enter inner life in the Spirit of Brotherhood Those who try to degrade a noble philosophy into a den for immorality Those who are ignorant of the dangers of psychic powers And specially those who have already pledged to live for the World Beware Only purity of deed and thought can raise you to the company of your Divine Self *Theism, Spiritualism, and Theosophy* W. Theosophy is that ocean of knowledge which spreads from shore to shore of the evolution of sentient beings unfathomable in its deepest parts it gives the greatest minds their fullest scope yet shallow enough at its shores it will not overwhelm the understanding of a child It is wisdom about God for those who believe that he is all things and in all and wisdom about nature for the man who accepts the statement found in the Christian Bible that God cannot be measured or discovered and that darkness is around his pavilion Although it contains by derivation the name God and thus may seem at first sight to embrace religion alone it does not neglect science for it is the science of sciences and therefore has been called the wisdom religion For no science is complete which leaves out any department of nature whether visible or invisible and that religion which depending solely on an assumed revelation turns away from things and the laws which govern them is nothing but a delusion a foe to progress an obstacle in the way of man s advancement toward happiness Embracing both the scientific and the religious Theosophy is a scientific religion and a religious science Chapters include Theosophy And The Masters General Principles The Earth Chain Septenary Constitution of Man Body and Astral Body Kama Desire Manas Of Reincarnation Reincarnation Continued Arguments Supporting Reincarnation Karma Kama Loka Devachan Cycles Differentiation of Species Missing Links Psychic Laws Forces and Phenomena and Psychic Phenomena and Spiritualism
