Spirituality And The Curriculum:

Religion & Spirituality in the Public School Curriculum Ronald D. Anderson, 2004 The heart of a truly complete education lies in individual students integration of understandings from the many dimensions of their lives religious academic and personal The general failing of formal schooling to achieve such an education is linked to the ongoing struggle over the role of religion particularly in public education where the teaching of evolution discussions of sexual practice and various literary interpretations pose a dilemma for schools in our diverse and pluralistic society with its constitutional constraints With careful attention to both the full sweep of the purposes of education and alternative theories of curriculum this book charts a path for public schools in resolving this dilemma

Education and the Soul John P. Miller, 1999-10-21 Education and the Soul is the first book to comprehensively address how the soul can be nourished in educational settings The book explores the nature of the soul and offers teaching learning approaches that can be used to nurture the development of students souls It also examines how institutions such as schools have souls and what can be done to care for a school s spiritual life

Spirituality and Education Andrew Wright, 2000 Spirituality and Education introduces the basic contours of current debate in a form accessible to both classroom teachers across the curriculum range and to school managers It covers all key areas including problems of defining spirituality government legislation and supporting documentation relevant empirical research the social dimension of spirituality secular and religious manifestations of spirituality in contemporary society theories of childhood spiritual development contemporary approaches to spiritual education including collective worship and cross curricular teaching A variety of different perspectives and approaches will be offered and readers are encouraged to be reflective through a number of tasks which relate all issues raised directly back to their own specific circumstances The author includes questions quotes and lists of further reading

Spiritual Health John W. Fisher, 2010 As spirituality first appeared in Australian curriculum documents in 1994 it was important to establish how educators thought it related to student well being In this research a description and four accounts of spirituality spiritual rationalism monism dualism and multidimensional unity were developed from available literature The literature also revealed four sets of relationships important to spiritual well being These were the relationships of a person with themselves others environment and Transcendent Other

Spirituality and the Curriculum Adrian Thatcher, 1999-10 Praise for Spirituality and the Curriculum The current interest in spirituality shows no sign of abating This volume consists of a useful set of essays from educationalists and theologians Overall the volume will be important reading not only for teachers of theology but also for those concerned with the spiritual development of children and adults alike Theology May June 2000 This book fizzles Addressed to those working in an educational context it is an attempt to speak theologically about spirituality and morality Adrian Thatcher its editor has assembled a group of contributors who write well and who have innovative ideas to communicate Fresh arguments and new perspectives make it an exciting read as it exposes the distressing emptiness of what

passes as secularised spiritual nurture in most contemporary schools Its seminal chapter is by Mary Grey What an imaginative tour de force this is She is not afraid to speak of the Transcendent or to see the wider value of liberation and feminist theologies What Adrian Thatcher offers is a sharp critique of the high sounding moral sentiments of the present generation of curriculum makers There is a vision here which can reach beyond Christianity and which ought to be taken account of by parents and teachers Again prophetic in its own way it is controversial Ian Markham s short chapter is a gem Adrian Thatcher has given us a refreshing book which reasserts the right of theology to be heard in the current debate about the spiritual dimension of education But that is not the point What he wishes us to do is to think further better and more fairly about the issues which are before us That surely is something we all must do This book is a marvellous help in this Buy it British Journal of Religious Education 23 1 Autumn 2000 It offers an informed critical accessible and thought provoking set of reflections on the possible connections that might be made between spirituality and the curriculum especially at school level It helps it the task of establishing a credibility of spirituality as a valid dimension of the curriculum It also offers some guidance for educators as to how they might approach this area and offers some valuable insights into aspects of practice The Heythrop Journal 41 4 October 2000 It is rarely possible to do justice to books which contain a number of substantial essays because there is seldom space to give adequate consideration to all the contributors and this collection is no exception The book will be of most use to those researching this subject but I would hope that it might also be read by theologians who may see it as an invitation to them to focus more of their attention on theology and education Resource Professional Reflection on Theory and Practice in Religious Education 23 2 Spring 2001 there is much good material for those who wish to work with the spiritual moral social and cultural dimensions of their school or colleges environments shaping or challenging the power structures in which they operate and determining the ethos which they seek to encourage Those involved in religious education or student services or educational policy will all find articles to stimulate the current debate as to whether theology and or spirituality can create community consensus and so nurture a more humane experience within education Tim Macquiban Journal of Beliefs and Values 22 1 2001 **Education, Spirituality, and the Whole Child** Ron Best,1996 Education Spirituality and the Whole Child brings together a range of views and perspectives on the role of morality spirituality and education on the development of children *Curriculum of Love* Morgan Simone Daleo,1996 Discusses a nondenominational approach to fostering spiritual development in children **Holistic Learning and Spirituality in Education** John P. Spirituality and Human Rights towards a Just Public Education Rogério C. Venturini, 2023-05-08 Curriculum Spirituality and Human Rights towards a Just Public Education examines the integration of spirituality not religion into U S public education and curriculum The volume challenges celebratory curricularized forms of human rights and frames spirituality as a counter hegemonic human right Drawing on autobiography as inquiry Rog rio Venturini unpacks his spiritual struggles from within and experiences as a progressive spiritual person and educator The volume examines the subjectivity and objectivity of spirituality exploring the lethal social impact triggered by the absence of spirituality at the table of the so called curriculum conversations This volume places the struggle for spirituality in our field as a political struggle and challenges the epistemicidal nature of such conversations Venturini draws on critical anti colonial and decolonial frameworks and argues for an epistemological move towards an itinerant curriculum theory one that responds to the world s endless epistemological diversity and difference by assuming a non derivative non abyssal approach **Ecology, Spirituality, and Education**

Chu, 2019-09-03 This book addresses the issue of de-spiritualization in education through an interdisciplinary lens.
