English Spirituality in the Age of Wesley David Lyle Jeffrey, 2000-12 *The Folk-element in Hindu Culture* Benoy Kumar Sarkar, 1917 Goddesses Never Age Christiane Northrup, M.D., 2016-12-13 THE NEW YORK TIMES BESTSELLER Though we talk about wanting to age gracefully the truth is that when it comes to getting older we're programmed to dread an inevitable decline in our health our looks our sexual relationships even the pleasure we take in living life But as Christiane Northrup M D shows us in this profoundly empowering book we have it in us to make growing older an entirely different experience both for our bodies and for our souls In chapters that blend personal stories and practical exercises with the latest research on health and aging Dr Northrup lays out the principles of ageless living from rejecting processed foods to releasing stuck emotions from embracing our sensuality to connecting deeply with our Divine Source Explaining that the state of our health is dictated far more by our beliefs than by our biology she works to shift our perceptions about getting older and show us what we are entitled to expect from our later years no matter what our culture tries to teach us to the contrary including Vibrant good health A fulfilling sex life The capacity to love without losing ourselves The ability to move our bodies with ease and pleasure Clarity and authenticity in all our relationships especially the one we have with ourselves

Taking all the right supplements and pills or getting the right procedure done isn't the prescription for anti aging Dr Northrup explains Agelessness is all about vitality the creative force that gives birth to new life Goddesses Never Age is filled with tools and inspiration for bringing vitality and vibrancy into your own ageless years and it all comes together in Dr Northrup's 14 day Ageless Goddess Program your personal prescription for creating a healthful soulful joyful new way of being at any stage of life *Littell's Living Age*, 1845 *Spiritual Despotism* Isaac Taylor, 1835 *Littell's Living Age* Eliakim Littell, Robert S. Littell, 1882 **Disowned: A Spiritual Coming of Age** Gabriella Murray, 2011 DISOWNED is coming of age love story about Rivkah a teenage girl who is raised in a tight closed community that demands she conform to their ways Strong rebellious and full of spirit Rivkah has to find her own path She runs away and falls in love with a young man from another world Horrified her parents disown her and mourn her as dead Rivkah finds herself cut off not only from the world she was raised in but from all that used to be meaningful to her Rivkah is willing to give up everything for the man she loves She marries and we watch her journey as she lives with her husband and meets his friends who find her strange We watch her explores different paths and teachings in order to help her find her true way and where she really belongs Then suddenly a great change takes place Rivkah discovers she is bearing a child Echoes from the past overcome her She wants the child to know where they came from and must return to her past and the people in it the family that disowned her In the process Rivkah discovers who she really is and what it means to love and forgive **Contemporary Spiritualities** Stefania Palmisano, Nicola Pannofino, 2020-11-01 Contemporary alternative spirituality as studied by sociologists is usually seen as a recent phenomenon dating from the 1960s and 1970s However when viewed from a longer term perspective this form of religious expression is actually seen to reintroduce concepts that recur throughout Western cultural history This book argues therefore that spirituality in the 21st Century actually shares many of the same characteristics as Classical Mediaeval Renaissance and Modern spiritualities It is neither entirely new nor is it clearly alternative to more established religions The book is divided into two parts The first sets out the context in which contemporary alternative spirituality has formed charting its development as an academic term and a social phenomenon The second part looks at how these two elements have developed in countries that are historically Catholic focussing on specific examples in contemporary Italy spiritualities based on the sacralisation of nature those concerned with health and wellbeing and those which are fascinated by mystery Catholic majority countries are particularly interesting in this instance as the Catholic Church has a unique cultural hegemony with which to compare alternative spiritual practices It concludes that spirituality if framed in a longer historical perspective is a way of acting and seeing the world which was built and continues to be built upon complex relations with various contradictory sources of authority such as religion magic thinking secularism rationalism various spheres of lay culture This is a bold take on the spirituality milieu and as such will be of great interest to scholars of Religious Studies working on the sociology of religion contemporary spirituality and the rise of the spiritual but not religious New Age

Spirituality Steven J. Sutcliffe, Ingvild Saelid Gilhus, 2014-09-11 New Age and holistic beliefs and practices sometimes called the new spirituality are widely distributed across modern global society The fluid and popular nature of new age makes these movements a very challenging field to understand using traditional models of religious analysis Rather than treating new age as an exotic specimen on the margins of proper religion New Age Spirituality examines these movements as a form of everyday or lived religion The book brings together an international range of scholars to explore the key issues insight healing divination meditation gnosis extraordinary experiences and interactions with gods spirits and superhuman powers Combining discussion of contemporary beliefs and practices with cutting edge theoretical analysis the book repositions new age spirituality at the forefront of the contemporary study of religion *Mysticism, Ritual and Religion in Drone Metal* Owen Coggins, 2018-01-25 This is the first extensive scholarly study of drone metal music and its religious associations drawing on five years of ethnographic participant observation from more than 300 performances and 74 interviews plus surveys analyses of sound recordings artwork and extensive online discourse about music Owen Coggins shows that while many drone metal listeners identify as non religious their ways of engaging with and talking about drone metal are richly informed by mysticism ritual and religion He explores why language relating to mysticism and spiritual experience is so prevalent in drone metal culture and in discussion of musical experiences and practices of the genre The author develops the work of Michel de Certeau to provide an empirically grounded theory of mysticism in popular culture He argues that the marginality of the genre culture together with the extremely abstract sound produces a focus on the listeners engagement with sound and that this in turn creates a space for the open ended exploration of religiosity in extreme states of bodily consciousness
