## **The Hidden Economy The Context And Control Of Borderline Crime:**

*The hidden economy* Stuart Henry,1980      The Hidden Economy : the Context and Control of Borderline Crime S. Henry,1978      **Deviant Behaviour** Clifton D. Bryant,2014-09-03 A comprehensive set of readings examining the full range of concerns in the field of deviant behaviour All the selections are relatively recent and have not appeared in other anthologies      **The Termination of Criminal Careers** Stephen Farrall,2017-07-05 Recent years have witnessed an increase in the attention given to the later stages of criminal careers Research upon this topic has charted the main factors associated with the termination of criminal careers outlined some of the possible reasons behind these relationships and started to develop theoretical explanations for such relationships Collected together for the first time are some of the most important contributions to this field of research The collection focuses upon the initial explorations into this topic the most commonly observed findings the cessation of offending by specific offender types and theoretical matters An introductory essay by the editor provides a thorough overview of the work in this area and highlights the reasons why the termination of criminal careers will become increasingly important to criminologists and criminal justice policy makers alike      **Everybody Does It!** Thomas Gabor,1994-01-01 Gabor s analysis probes the whys and wherefores of crime and reveals why some people are labeled and processed as criminals while others are not Case studies raise crucial questions about law enforcement

*The SAGE Handbook of Power* Mark Haugaard,2009-03-12 Power is arguably one of the key concepts within the social sciences The SAGE Handbook of Power is the first touchstone for any student or researcher wishing to initiate themselves in the state of the art Internationally acclaimed Stewart R Clegg and Mark Haugaard have joined forces to select a collection of papers written by scholars with global reputations for excellence These papers bridge different conceptual and theoretical positions and draw on many disciplines including politics sociology and cultural studies The sweep and richness of the resulting handbook will help readers contextualise and grow their understanding of this dynamic and important subject area

Political Corruption Arnold J. Heidenheimer,Michael Johnston,Victor T. LeVine,2024-12-20 Are phenomena labeled as corrupt subject to systematic social science investigation or does corruption lie so much in the eye of the beholder as to frustrate serious analysis The editors of this volume which follows up an important earlier work on the same subject hold that the comparative perspective involving both comparisons over time and comparisons between systems is crucial if the study of corruption is to reach the point where it can be studied as a socio political phenomenon The studies of political corruption included here pertain to all areas of the world but especially to the United States Communist systems and Europe Most were published during the last fifteen years and some were written especially for the volume Although the editors are political scientists scholars from all social science disciplines as well as law history and communications are represented among the authors of the approximately sixty selections included in this volume The first of the book s four parts deals with changing conceptualization and definition in the study of corruption The second part examines the incidence of corruption in the

context of political development and modernization The third part examines the special vulnerability of some local national and international systems to corrupt practices In the final part perceptions of corruptions are related to scandal and other social control efforts as well as to studies of the effect and consequences of corruption *Criminal Justice Research: Inspiration Influence and Ideation* Ian K McKenzie, Ray Bull, 2017-11-01 This title was first published in 2002 A collection of criminal justice researchers select a number of books documents papers and such like that they believe to be important and influential in the field of criminal justice research Each author has written a description and critique of the selected item and have discussed the impact of each of them with regards to formulating or developing their own research The authors also speculate on the direction they believe the area in question might be expected to develop in the first 10 15 years of the 21st century The definition of criminal justice in this book is a broad one and that is reflected in the combination of criminologists psychologists sociologists and experts on social and public administration In all the book attempts to examine the inspirations influences and thought processes which underpin criminal justice research efforts **Youth Desistance in Transition**

Christopher Kay, 2025-10-20 This book offers a new and innovative way of thinking about desistance from crime fusing our understanding of desistance transitions youth transitions and the impact of significant policy change on people with convictions in a way which is yet to be seen in the available desistance literature It offers a critical account of the ways in which young adults move away from involvement in crime while also navigating the numerous personal social and structural transitions that characterise late adolescence By exploring the desistance narratives of young adult men under community supervision in England and Wales during the part privatisation of the probation service the book demonstrates the immediate impact of significant criminal justice policy change on those on the receiving end of such change Given the expansion of neoliberal ideas in criminal justice and the ever changing nature of criminal justice policy across the world it is vital that we develop a critical understanding of the impact of these changes upon the often overlooked people on the receiving end of them if we are to understand how such changes can be successful This book provides the first of such discussions charting the ways in which people with convictions navigate seemingly all encompassing change to lead a life free from crime *Youth Desistance in Transition* will be of interest to students and scholars of criminology and criminal justice particularly those focused on understanding desistance pathways It will also appeal to policymakers and social workers involved with youth justice and rehabilitation **Criminology: Past, Present and Future** Ezzat A. Fattah, 1997-10-13 Written by an

internationally renowned authority in the field the founder of the highly regarded School of Criminology at Simon Fraser University the book draws heavily on research done on three Continents North America Europe and Australia to trace the discipline's historical evolution its current problems disappointing achievements and promising trends It concludes with a prospective look at the future of criminology and criminology of the future Although the perspective is critical the author's critique is constructive and he expresses a healthy optimism about the discipline's future and offers several guidelines as to

how current deficiencies could be remedied and present gaps could be addressed      **Private Justice** Stuart Henry, 2015-07-30 This book first published in 1983 looks at discipline in industry and shows how private justice is integrally bound up with formal law It is a timely examination of the forms of social control that exist ostensibly outside the formal legal system but on which it crucially depends *Private Justice Towards Integrated Theorising in the Sociology of Law* will be of interest to students of law sociology and criminology Dr Stuart Henry is currently Professor and Director of the School of Public Affairs at San Diego State University where he has been since 2006 Since leaving Trent Polytechnic now Nottingham Trent University in 1983 he has held positions in the United States at Eastern Michigan University Wayne State University and the University of Texas at Arlington He is the author or editor of 30 books and over 100 articles on crime deviance and social control      Occupational Crime Gerald Mars, 2020-12-17 This title was first published in 2001 Occupational crime is found in the whole range of occupations and at all levels Despite the fact that activities are widespread and well known the area is blurred by contradictory perceptions denials and arguments over definition This volume presents influential essays on the topic      *New Directions in Criminological Theory* Freda Adler, William S. Laufer, 2023-04-28 *New Directions in Criminological Theory* focuses on new approaches to theory construction with particular emphasis on reformulations and new applications of existing paradigms It includes an assessment of labeling theory demonstrating how the approach could become part of a more comprehensive explanation of crime A case is made for studying crime in terms of the social context in which crimes are conceived interpreted and negotiated The debate between crime general and crime specific approaches is further amplified A rethinking of Hirschi's control theory is presented The volume includes theoretical discussions of spouse abuse of punishment and of power control models Additional chapters examine theoretical advances in corporate illegality employee theft and the alcohol crime syndrome These original contributions include Charles F Wellford and Ruth A Triplett *The Future of Labeling Theory* Austin T Turk *A Proposed Resolution of Key Issues in the Political Sociology of Law* David Weisburd and Lisa Maher *Contrasting Crime General and Crime Specific Theory* Sally Simpson *Strategy Structure and Corporate Crime* Edward W Sieh *Employee theft* Robert Nash Parker *Alcohol and Theories of Homicide* Kimberly L Kempf *The Empirical Status of Hirschi's Control Theory* Jeffrey Fagan *The Social Control of Spouse Assault* Marc Le Blanc and Aaron Caplan *Theoretical Formalization A Necessity* Michael J Lynch *Control Theory and Punishment* Gary F Jensen *Power Control vs Social Control Theories of Common Delinquency* John Hagan A R Gillis and John Simpson *The Power of Control in Sociological Theories of Delinquency*      *Rethinking What Works with Offenders* Stephen Farrall, 2013-10-11 This important and original new book reports on a major investigation of the outcomes of probation supervision is concerned with the key question of what works in probation and comes at an important moment of change and development for the probation service in the UK Unlike previous studies which have relied mostly on official data this book makes use of over 200 interviews with men and women on probation and their supervising Probation Officers *Rethinking What Works with Offenders* has the

following objectives to understand probation work from the perspectives of those who deliver it and those to whom it is delivered to study probation intervention as a whole in particular the probation order rather than specific aspects to locate probation work in the wider social contexts of those on probation to analyse how probation works and to reconceptualise probation outcomes in terms of degrees of success rather than as successful or unsuccessful to assess the policy implications of these conclusions This book presents an important and challenging range of findings on what works in probation and with offenders and will be essential reading for anybody professionally concerned with the present and future of probation raises central issues at a critical time for the reorganised National Probation Service based on extensive research including 200 interviews essential reading for anybody interested in what works in probation *Asian Models Of Entrepreneurship - From The Indian Union And Nepal To The Japanese Archipelago: Context, Policy And Practice (2nd Edition)* Leo-paul Dana, 2014-06-13 In this book Leo Paul Dana makes it clear that much can be learnt about the nature of entrepreneurial activity when we delve into the unique characteristics of different nations of South Asia South east Asia and East Asia Through in depth analyses and comprehensive reviews of many Asian countries the profound differences both among and within countries of the region become vividly apparent Dana juxtaposes the explosion in entrepreneurial growth within China against the struggles to build an entrepreneurial community in Japan or the enlightened public policy leadership in Singapore against the crisis driven developments in Korea The range of factors identified within each of the 15 countries examined by Dana is not an example of random influences on the entrepreneurial process because they can be construed in more systematic and logical ways Thus the book uncovers the Chinese model of gradual transition the Royal Cambodian model and the Doi Moi model among many others The reader is challenged to grasp these different models and identify their commonalities and differences Handbook of Probation Loraine Gelsthorpe, Rod Morgan, 2013-05-13 This Handbook provides a comprehensive authoritative and up to date source of information and analysis about all aspects of the work of the Probation Service It takes full account of the many changes that the Probation Service has undergone over the last few years and is currently undergoing as probation becomes part of the broader National Offender Management Service Contributors to the book are drawn from leading academics and practitioners in the field drawing upon the best expertise available Running through the book is a concern with a range of key current issues such as addressing the diversity of offenders and creating effective links with other criminal justice agencies and it includes perspectives from both probation service staff and from offenders and victims This book is an essential text for practitioners trainees and students of probation and those studying it as part of a wider criminology or criminal justice course Dangerous Ground Donald J. Rebovich, 2017-09-25 For many years if businesses were caught dumping waste it was treated more as a nuisance than as a crime the common images of the criminal and the dumper were worlds apart In *Dangerous Ground* originally published in 1992 Donald J Rebovich closes this perceptual gap providing essential information about and analysis of hazardous waste crime and the

hazardous waste criminal This paperback edition includes new material noting important changes since the book's original publication Rebovich finds that the criminal dumper is usually an ordinary businessman The author's research discovers that hazardous waste disposal crimes are more likely driven by the cost of legitimate disposal options rather than by organized crime figures It is also a world where one's criminal position is often determined by industry connections and personal relationships Dangerous Ground places the criminal dumping culture in perspective by detailing the basics of hazardous waste generation its legitimate disposal government responses and efforts to control illegal disposal An epilogue concludes with an analysis of new threats to our environment posed by gas and oil drilling declining federal prosecutions progressive sentencing for offenders and recommendations on how the global community can effectively address international environmental crime SNI Documents 1979 ,1980 When Economies Change Paths: Models Of Transition In China, The Central Asian Republics, Myanmar And The Nations Of Former Indochine Francaise Leo-paul Dana,2002-11-06 While firms are attempting to expand into the global environment many of the formerly communist nations are often misunderstood Based on field research involving in depth interviews in China Central Asia Myanmar and Indochina this book provides academics investors and policy makers with an introductory overview of enterprise in these transitional economies A theoretical framework precedes surveys of individual countries Each chapter has been carefully refereed by national experts Diligently referenced the book includes citations of 250 relevant publications guiding the future researcher through an extensive bibliography This book is detailed yet reader friendly It combines rigor with vigor providing valuable insights into the rapidly emerging economies of Asia Criminological Theory Werner J. Einstadter,Stuart Henry,2006-06-22 Criminological Theory is an examination of the major theoretical perspectives in criminology today Werner J Einstadter and Stuart Henry lay bare various theorists ideas about human nature social structure social order concepts of law crime and criminals the logic of crime causation and the policies and practices that follow from these premises Material is presented and organized around these analytic and critical dimensions throughout the text Criminological Theory provides students with a clear overview of the subject that enables informed comparisons among diverse concepts Abstract concepts are explained clearly to maximize the significance of each theoretical framework The authors cover the major literature in an engaging comprehensive and accessible way allowing students to develop a critical understanding of foundational and contemporary ideas in Criminology
