

The background of the cover is a dark, textured charcoal grey. It is filled with numerous red, hand-drawn scribbles and loops of varying sizes and orientations, creating a sense of movement and spontaneity. A thin, white, equilateral triangle is centered on the page, pointing downwards. The author's name is printed in a clean, white, sans-serif font above the title.

Steven Skaggs

The Hidden Factor

Mark and Gesture in Visual Design

The Hidden Factor

Jau-Lian Jeng

The Hidden Factor:

The Hidden Factor Steven Skaggs, 2023-11-21 An exquisitely illustrated introduction to the gestural mark in the designed world exploring the tension between marks which are felt and images and words which are conceptual In *The Hidden Factor* Steven Skaggs provides a beautifully illustrated and explained introduction to the mark from those as physical as a scratch made by an animal to those as accidental as a splatter of paint to those as intentional as hand drawn characters Skaggs makes the case that in the visual arts gestures and mark making operate on an equal level with image and word While we might think of content as that which is communicated through text and images Skaggs shows through visual examples that the gestural mark is often hidden within both images and the typographic forms that convey words By mapping different kinds of marks and showing how marks combine with image and word *The Hidden Factor* explains that our desire for conceptual information suppresses our awareness of marking This is especially the case with the tension between word and mark where we desire legibility As a result one of the most conservative of arts calligraphy has the potential of being the most radical since gesturally expressive handwriting is a natural threat to the legibility of a text Filled with expressive calligraphic art graffiti and other gorgeous marks *The Hidden Factor* is an eye opening read that brings to the fore the importance and indeed the prevalence of the mark in everything we see

Analyzing Event Statistics in Corporate Finance Jau-Lian Jeng, 2015-02-04 Analyzing Event Statistics in Corporate Finance provides new alternative methodologies to increase accuracy when performing statistical tests for event studies within corporate finance In contrast to conventional surveys or literature reviews Jeng focuses on various methodological defects or deficiencies that lead to inaccurate empirical results which ultimately produce bad corporate policies This work discusses the issues of data collection and structure the recursive smoothing for systematic components in excess returns the choices of event windows different time horizons for the events and the consequences of applications of different methodologies In providing improvement for event studies in corporate finance and based on the fact that changes in parameters for financial time series are common knowledge a new alternative methodology is developed to extend the conventional analysis to more robust arguments

Unsupervised Learning Geoffrey Hinton, Terrence J. Sejnowski, 1999-05-24 Since its founding in 1989 by Terrence Sejnowski Neural Computation has become the leading journal in the field Foundations of Neural Computation collects by topic the most significant papers that have appeared in the journal over the past nine years This volume of Foundations of Neural Computation on unsupervised learning algorithms focuses on neural network learning algorithms that do not require an explicit teacher The goal of unsupervised learning is to extract an efficient internal representation of the statistical structure implicit in the inputs These algorithms provide insights into the development of the cerebral cortex and implicit learning in humans They are also of interest to engineers working in areas such as computer vision and speech recognition who seek efficient representations of raw input data

Medical Image Computing and Computer-Assisted Intervention -- MICCAI 2004 Christian Barillot, David R. Haynor, Pierre Hellier, 2011-04-05 The 7th International Conference on Medical Imaging and Computer Assisted Intervention MICCAI 2004 was held in Saint Malo Brittany France at the Palais du Grand Large conference center September 26-29 2004 The proposal to host MICCAI 2004 was strongly encouraged and supported by IRISA Rennes IRISA is a publicly funded national research laboratory with a staff of 370 including 150 full time research scientists or teaching research scientists and 115 postgraduate students INRIA the CNRS and the University of Rennes 1 are all partners in this mixed research unit and all three organizations were helpful in supporting MICCAI MICCAI has become a premier international conference with in depth papers on the multidisciplinary fields of medical image computing computer assisted intervention and medical robotics The conference brings together clinicians biological scientists computer scientists engineers physicists and other researchers and offers them a forum to exchange ideas in these exciting and rapidly growing fields The impact of MICCAI increases each year and the quality and quantity of submitted papers this year was very impressive We received a record 516 full submissions 8 pages in length and 101 short communications 2 pages from 36 different countries and 5 continents see figures below All submissions

were reviewed by up to 4 external reviewers from the Scientific Review Committee and a primary reviewer from the Program Committee. All reviews were then considered by the MICCAI 2004 Program Committee resulting in the acceptance of 235 full papers and 33 short communications.

Empirical Asset Pricing Models Jau-Lian Jeng, 2018-03-19 This book analyzes the verification of empirical asset pricing models when returns of securities are projected onto a set of presumed or observed factors. Particular emphasis is placed on the verification of essential factors and features for asset returns through model search approaches in which non diversifiability and statistical inferences are considered. The discussion reemphasizes the necessity of maintaining a dichotomy between the nondiversifiable pricing kernels and the individual components of stock returns when empirical asset pricing models are of interest. In particular, the model search approach with this dichotomy emphasized for empirical model selection of asset pricing is applied to discover the pricing kernels of asset returns.

Mechanism Exploration of Multi-indicator Synthetical Assessment Method DONG QIU, 2025-07-28 The multi indicator synthetical assessment method composite indicator is one of the two basic methods used by economic statistics to solve the additivity issue, the other being the value indicator, especially when facing the trend of measured welfare turn. Its importance is highlighted and it is an indicator tool that cannot be underestimated in the empirical analysis process. In the development process of composite indicators, it is particularly important to pay attention to the entanglement and clarification of reason and mathematics. We should not only prefer the technical approach and focus on improving the mathematical difficulty of the method, but also pay attention to the mechanism approach of the method. We should also pay attention to the consistency of different composite methods in methodology that is to improve, expand, deepen and promote the methodology of composite indicators from a systematic visual field.

Bones Strengthening Factors B.A. Christopher, Bones Strengthening Factors Bone Power Strength Boosting Solutions to Help Counter Various Bones Weakening Factors. Secrets to Stronger Bones. Are you concerned about bone health? Do you want to empower your bones against weakening factors? The Top Books of the Year The Hidden Factor The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. The Hidden Factor : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
