Joseph Gilbert Manning,2003-05-29 This history of land tenure under the Ptolemies explores the relationship between the new Ptolemaic state and the ancient traditions of landholding and tenure Departing from the traditional emphasis on the Fayyum it offers a coherent framework for understanding the structure of the Ptolemaic state and thus of the economy as a whole Drawing for the first time on both Greek and demotic papyri as well as hieroglyphic inscriptions and theories taken from the social sciences Professor Manning argues that the traditional central state despotic model of the Egyptian economy is insufficient The result is a subtler picture of the complex relationship between the demands of the new state and the ancient locally organized social structure of Egypt By revealing the dynamics between central and local power in Egypt the book shows that Ptolemaic economic power ultimately shaped Roman Egyptian social and economic institutions      *Ptolemy the second Philadelphus and his world* Paul R. **The Ancient Egyptian Economy** Brian Muhs, 2016-08-02 This book is the first economic history of ancient Egypt covering the entire pharaonic period 3000-30 BCE and employing a New Institutional Economics approach It argues that the ancient Egyptian state encouraged an increasingly widespread and sophisticated use of writing through time primarily in order to better document and more efficiently exact taxes for redistribution The increased use of writing however also resulted in increased documentation and enforcement of private property titles and transfers gradually lowering their transaction costs relative to redistribution The book also argues that the increasing use of silver as a unified measure of value medium of exchange and store of wealth also lowered transaction costs for high value exchanges The increasing use of silver in turn allowed the state to exact transfer taxes in silver providing it with an economic incentive to further document and enforce private property titles and transfers
