Sinking Atlantis Spirituality Meets The Real World:

Sinking Atlantis Julia Day, 2000-04 Nowt to do with Atlantis the diary of 6 months in the hectic life of a modern Pagan publisher housewife very funny loaded with common sense and down to earth wisdom The Cauldron Intentional or otherwise Julia gives a light hearted jab to those countless self help books that if we had time to read them might provide an answer but only when it was too late to deal with the problem the moment having passed This is a healthy common sense book rich in colour and experience that does not preach but just tells it as it is A charming book delightfully illustrated It is a book that makes one feel that the author is a friend and confidant Michael Hoadley Is it possible to save the planet reach enlightenment merge with the Higher Self write books run a publishing business feed the children water the plants and still have the washing up and dusting completed before the world order changes for ever Who needs tidal waves earthquakes food scares and genetic changes to worry about when the washing machine is playing up again the mice are in the chicken bin the bathroom is full of spiders and your guide refuses to join in the Meet Your Guide tapes which you are listening to You are told it will all flow as it should when you follow the path of your Highest Good but no one bothers to tell you what that is Or they all tell you and not only do they disagree but much of it is downright dangerous and impossible Stay calm and still and centred they say HOW The author would like to point out that almost everything in this diary is true That is what makes it unbelievable and so very funny Acorns: Windows High-Tide Foghat Joshua Morris, 2013-01-23 Acorns delineates the future of humanity as a reunification of intellect with the Deep Self Having chosen to focus upon ego established securely by the time of Christ much more beta brain wave development will destroy our species and others which process has already begun We create our own realities through beliefs intents and desires and we were in and out of probabilities constantly Feelings follow beliefs not the other way around Lost Masters Linda Johnsen, 2016-10-15 Ashrams in Europe twenty five hundred years ago Greek philosophers studying in India Meditation classes in ancient Rome It sounds unbelievable but it is historically true Alexander the Great had an Indian guru Pythagoras Empedocles and Plotinus all encouraged their students to meditate Apollonius the most famous Western sage of the first century c e visited both India and Egypt and claimed that Egyptian wisdom was rooted in India In Lost Masters award winning author Linda Johnsen digging deep into classical sources uncovers evidence of astonishing similarities between some of the ancient Western world's greatest thinkers and India's yogis including a belief in karma and reincarnation Today ancient Greek philosophers are remembered as the founders of Western science and civilization We've forgotten that for over a thousand years they were revered as sages masters of spiritual wisdom Lost Masters is an exploration of our long lost Western spiritual heritage and the surprising insights it can offer us today Atlantis and the Maya World Riddick Dawson, 2025-10-07 Across millennia the name Atlantis has echoed through human imagination a vanished civilization of divine wisdom and cataclysmic ruin But what if its memory survived not in Greek philosophy but in the sacred texts and temples of the ancient Maya In Atlantis and the Maya the reader

embarks on a sweeping journey across oceans centuries and civilizations From Plato's dialogues to the Popol Vuh from the stone cities of Tikal Palenque Copan and Chichen Itz to the flood myths of Mesoamerica this book explores one of the most enduring mysteries of all time the possibility that two great civilizations separated by an ocean shared a common cosmic memory of creation destruction and rebirth Drawing on archaeology mythology and the visionary writings of Brasseur de Bourbourg Ignatius Donnelly and modern scholarship this work examines how the legend of Atlantis became entwined with the rise of the New World's greatest civilization It traces the parallel philosophies of the Greeks and the Maya both warning of hubris imbalance and the fall of empires and asks why even in an age of satellites and seafloor maps the myth of a sunken world still resonates so deeply Blending history with symbolism Atlantis and the Maya reveals that the lost continent is not merely a place to be found beneath the sea but a mirror of humanity's own forgotten origins It is an exploration of memory morality and the eternal cycles that shape both myth and civilization a bridge between Plato's philosopher kings and the Maya priest astronomers who watched the stars and remembered the floods of creation

Millennialists through the ages have looked forward to the apocalyptic moment that will radically transform society into heaven on earth They have delivered withering critiques of their own civilizations and promised both the impending annihilation of the forces of evil and the advent of a perfect society And all their promises have invariably failed We tend therefore to dismiss these prophets of doom and salvation as crackpots and madmen and not surprisingly historians of our secular era have tended to underestimate their impact on our modern world Now Richard Landes offers a lucid and ground breaking analysis of this widely misunderstood phenomenon This long awaited study shows that many events typically regarded as secular including the French Revolution Marxism Bolshevism Nazism not only contain key millennialist elements but follow the apocalyptic curve of enthusiastic launch disappointment and often catastrophic re entry into normal time Indeed as Landes examines the explicit millennialism behind such recent events as the emergence of Global Jihad since 1979 he challenges the common notion that modern history is largely driven by secular interests By focusing on ten widely different case studies none of which come from Judaism or Christianity he shows that millennialism is not only a cultural universal but also an extremely adaptive social phenomenon that persists across the modern and post modern divides At the same time he also offers valuable insight into the social and psychological factors that drive such beliefs Ranging from ancient Egypt to modern day UFO cults and global Jihad Heaven on Earth both delivers an eye opening revisionist argument for the significance of millennialism throughout history and alerts the reader to the alarming spread of these ideologies in our world today

Constantine Versus the Bankers C. Eliopoulos Nicholas C. Eliopoulos,Nicholas C. Eliopoulos,2010 Constantine Versus the Bankers is the epic of what went wrong and still goes wrong in a seemingly Christian

setting In spite of setbacks it examines what is yet to be accomplished toward Peace in this world There is nevertheless a de facto kind of oneness in politics religion education and public ethos albeit as four distinctly separate Estates and not always in harmony This results at times in human failure and more often in pernicious conspiracies at work Constantine still is maligned from contemporary world leaders to historians while Christians still are selectively being killed with evermore imaginative cunning Consider the sources vilifying Christianity they are the same agencies hunting down the Holy Apostles on their Mission with the same combination of Murky Forces and modern internationalist adepts While considered a sacred cow the Bankers of all grades are popularly held on the highest pedestal and glorified as saviors greater than God As matters today stand the only solutions to cultural political social economic and educational impasses come through going deeper into private national and international debt sinking down into the cavernous jaws of the interest bearing Vipers To believe in an irreversibly coming doom is to question whether there is a God or not

Transforming Demons Are Thoresen, 2021-06-04 Having misused women power and the life energy of his followers the Seeker must overcome his demons not figuratively but literally in the astral etheric and physical dimensions of reality But in order to face them he must first cross the threshold to the spiritual world Transforming Demons takes us on an astonishing journey from contemporary Norway to Ancient Atlantis to Ireland and India where we encounter leprechauns dragons evil spirits hallucinogenic drugs and a mysterious golden cross with a red ruby at its heart With hubris arrogance and deceit the Seeker has abused his magical powers in previous existences If he is finally to resolve his knotted karma he must first confront his misdeeds and the demons that were created as a result Then he must learn to transform those demons in order to free them and him from the weight of his past This is a remarkable true memoir that crosses lifetimes thousands of years and manifold dimensions It is an authentic story of transformation and redemption on the path to self knowledge freedom and love

Between Earth and Empire John P. Clark, 2019-07-01 Between Earth and Empire focuses on the crucial position of humanity at the present moment in Earth history We are now in the midst of the Necrocene an epoch of death and mass extinction Nearing the end of the long history of Empire and domination we are faced with the choice of either continuing the path of social and ecological disintegration or initiating a new era of social and ecological regeneration The book shows that conventional approaches to global crisis on both the right and the left have succumbed to processes of denial and disavowal either rejecting the reality of crisis entirely or substituting ineffectual but comforting gestures and images for deep systemic social transformation It is argued that a large scale social and ecological regeneration must be rooted in communities of liberation and solidarity fostering personal and group transformation so that a culture of awakening and care can emerge Between Earth and Empire explores examples of significant progress in this direction including the Zapatista movement in Chiapas the Democratic Autonomy Movement in Rojava indigenous movements in defense of the commons the solidarity economy movement and efforts to create liberated base communities and affinity groups within anarchism and other radical social movements In the end the book presents a

vision of hope for social and ecological regeneration through the rebirth of a libertarian and communitarian social imaginary and the flourishing of a free cooperative community globally
