Understanding Life in the Borderlands I. William Zartman, 2010 The past two decades have seen an intense interdisciplinary interest in the border areas between states inhabited territories located on the margins of a power center or between power centers This timely and highly original collection of essays edited by noted scholar I William Zartman is an attempt to begin to understand both these areas and the interactions that occur within and across them that is to understand how borders affect the groups living along them and the nature of the land and

people abutting on and divided by boundaries These essays highlight three defining features of border areas borderlanders constitute an experiential and culturally identifiable unit borderlands are characterized by constant movement in time space and activity and in their mobility borderlands always prepare for the next move at the same time that they respond to the last one The ten case studies presented range over four millennia and provide windows for observing the dynamics of life in borderlands They also have policy relevance especially in creating an awareness of borderlands as dynamic social spheres and of the need to anticipate the changes that given policies will engender changes that will in turn require their own solutions Contrary to what one would expect in this age of globalization says Zartman borderlands maintain their own dynamics and identities and indeed spread beyond the fringes of the border and reach deep into the hinterland itself

of Resistance in Occupied Palestine 1948 1966 a work that contributed to postcolonial theories of power race ethnicity and gender and second generation theories of orientalism feminism and disability Initially identified by philosophers historians and social critics as a focal point for situations in which oppressors brutally destroy the identity or subjectivity of the oppressed resistance has been transformed by fiction writers filmmakers lyricists and speechmakers into a process in which responses and counter responses to some type of injustice create difficult situations with complicated nuances These works now form the foundation for what has come to be recognized as resistance art This book gathers the insight knowledge and wisdom found in different manifestations of this art to further our understanding of the impact of resistance on contemporary life

No Place for Grief Lotte Buch Segal, 2016-06-10 Westerners know Palestine through images of war and people in immediate distress Yet this focus has as its consequence that other less spectacular stories of daily distress are rarely told Those seldom noticed are the women behind the men who engage in armed resistance against the military occupation wives of the Palestinian prisoners in Israeli detention and the widows of the martyrs In Palestine being related to a detainee serving a sentence for participation in the resistance activities against Israel is a source of pride Consequently the wives of detainees are expected to sustain these relationships through steadfast endurance no matter the effects upon the marriage or family Often people media and academic studies address the dramatic violence and direct affliction of the Palestinians Lotte Buch Segal takes a different approach and offers a glimpse of the lives and the contradictory emotions of the families of both detainees and martyrs through an in depth ethnographic investigation No Place for Grief asks us to think about what it means to grieve when that which is grieved does not lend itself to a language of loss and mourning What does it mean to endure when ordinary life is engulfed by the emotional labor required to withstand the pressures placed on Palestinian families by sustained imprisonment and bereavement Despite an elaborate repertoire of narrative styles laments poetry and performance of bodily gestures through which mourning can be articulated including the mourning tied to a political cause Buch Segal contends that these forms of expression are inadequate to the sorrow endured by detainees wives No Place for Grief reveals a new language that describes the entanglement of absence

and intimacy endurance and everyday life and advances an understanding of loss mourning and grief in contemporary Palestine
