Speaking From Memory:

   Speaking Memory Sherry Simon,2016-12-01 Speaking Memory evokes the complex language scapes that form at the crossroads of culture and history in cities While engaging with current debates on the nature and role of translation in globalized urban landscapes the contributors offer a series of detailed and nuanced readings of translational cities their histories their construction and transformation in memory and the artistic projects that tell their stories The three sections of the book highlight historical case studies conceptual issues and text based analyses of city scripts in particular as they relate to creative literary practices and language interventions on the surface of the city itself In this volume translation points to the dissonance of city life but also to the possibility of a generalized public discourse a space vital to urban citizenship where the convergence of languages can be the source of new conversations Essays cover a variety of topics and approaches bringing new voices and insights to discussions on multilingualism and translation in the urban contexts of cities including Dublin Montevideo Montreal Prague and Vilnius Defining cities as fields of translational forces where languages are both in conversation and in tension translation in Speaking Memory is stretched beyond its usual confines encompassing literary artistic and cultural practices that permeate everyday contemporary life Contributors include Liamis Briedis Vilnius University Matteo Colombi University of Leipzig Michael Cronin Dublin City University Michael Darroch Windsor University Roch Duval Universit de Montr al Andre Furlani Concordia University Simon Harel Universit de Montr al William Marshall Stirling University Sarah Mekdjian Universit Paris III Alexis Nouss Universit d Aix en Provence Katia Pizzi University of London Sherry Simon Concordia University Will Straw McGill University and Miriam Suchet Universit Paris III   **Speech, Memory, and Meaning** B. Debates, from Global to Local** Jordi Guixé,Coromines,2016-05-26 The public authorities have not successfully resolved the management of the traumatic memory of the wars dictatorships and massacres to which the European project was always intended to be a counterpoint The conflict of memories and the public discourses about the past are latent on ideological political and cultural levels However if in the past the conflict concerning memories tended to develop inside the borders of countries it has now leapt into the European arena This has also led to the confrontation and questioning of the great narratives established in the common memory especially with countries of the East joining the European Union Each community group or nation maintains common memories that do not always fit in or converge with a general overall account The origins of the UB Solidarity Foundation s European Observatory on Memories lie in these debates and through this book which includes the
