**D-Day Deception** Mary K. Barbier, 2007-10-30 On 6 June 1944 Allied forces stormed the beaches at Normandy The invasion followed several years of argument and planning by Allied leaders who remained committed to a return to the European continent after the Germans had forced the Allies to evacuate at Dunkirk in May 1940 Before the spring of 1944 however Prime Minister Winston Churchill and other British leaders remained unconvinced that the invasion was feasible At the Teheran Conference in November 1943 Franklin D Roosevelt and Winston Churchill promised Josef Stalin that Allied troops would launch Operation Overlord the invasion of Normandy in the spring Because of their continuing concerns about Overlord the British convinced the Americans to implement a cover plan to help

ensure the invasion's success. The London Controlling Section (LCS) devised an elaborate two-part plan called Operation Fortitude that SHAEF Supreme Headquarters Allied Expeditionary Force helped to fine-tune and that both British and American forces implemented. Historians analyzing the Normandy invasion frequently devote some discussion to Operation Fortitude. Although they admit that Fortitude North did not accomplish all that the Allied deception planners had hoped, many historians heap praise on Fortitude South using phrases such as unquestionably the greatest deception in military history. Many of these historians assume that the deception plan played a crucial role in the June 1944 assault. A reexamination of the sources suggests, however, that other factors contributed as much if not more to the Allied victory in Normandy and that Allied forces could have succeeded without the elaborate deception created by the LCS. Moreover, the persistent tendency to exaggerate the operational effect of Fortitude on the German military performance at Normandy continues to draw attention away from other technical military reasons for the German failures there.

*Deception in War* Jon Latimer, 2003-04-29 From the Trojan Horse to Gulf War subterfuge, this far-reaching military history examines the importance and ingenuity of wartime deception campaigns. The art of military deception is as old as the art of war. This fascinating account of the practice draws on conflicts from around the world and across millennia. The examples stretch from the very beginnings of recorded military history: Pharaoh Ramses II's campaign against the Hittites in 1294 B.C. to modern times when technology has placed a stunning array of devices into the arsenals of military commanders. Military historians often underestimate the importance of deception in warfare. This book is the first to fully describe its value. Jon Latimer demonstrates how simple tricks have been devastatingly effective. He also explores how technology has increased the range and subtlety of what is possible, including bogus radio traffic, virtual images, even false smells. *Deception in War* includes examples from land, sea, and air to show how great commanders have always had as Winston Churchill put it, that indispensable element of legerdemain: an original and sinister touch which leaves the enemy puzzled as well as beaten.
