Page, Joanne Connell, 2020-04-22 The Routledge

Handbook of Events explores and critically evaluates the debates and controversies associated with the rapidly expanding domain of Event Studies It brings together leading specialists from a range of disciplinary backgrounds to provide a state of the art review on the evolution of the subject The first edition was a landmark study which examined how event research had evolved and developed from a range of different social science subject areas and disciplines The Handbook was the first critique of the extent to which the subject had developed into a major area of social science inquiry This second edition has been fully updated to reflect crucial developments in the field and includes brand new sections on ever important aspects of Event Studies such as anthropology hospitality seasonality knowledge management accessibility diversity and human rights as well as new studies on the eventful city and the benefits of events in older life The book is divided into four inter related sections Section 1 introduces and evaluates the concept of events Section 2 critically reviews the relationship between events and other disciplines such as the contribution of economics psychology and geography to the critical discourse of Event Studies Section 3 focuses on the business operational and strategic management of events while the final section crucially focuses on critical events as a new paradigm within the burgeoning literature on Events It offers the reader a comprehensive and critical synthesis of this field conveying the latest thinking associated with events research edited by two of the leading

scholars in the field The text will provide an invaluable resource for all those with an interest in Events Studies encouraging dialogue that will span across disciplinary boundaries and other areas of study It is an essential guide for anyone interested in events research Eventscapes Graham Brown, 2019-08-06 Eventscapes Transforming Place Space and Experiences directly examines the interrelation between events simultaneous dependence on and transformation of the places in which they are held This event environment nexus is analysed through a variety of international case studies including different kinds of well known sporting and cultural events such as Vivid Sydney the Vancouver 2010 Winter Olympics and the Tour Down Under international cycle race among others Chapters focusing on visual design explore the opportunities at different spatial scales to develop an event look and the ways in which an event experience can be enhanced through connecting and engaging with the local culture and community As well as the planning and management of events the book draws on event experience dramaturgically examining the roles played by authors actors and the audience and emphasises the participation of multiple groups in the co creation of event experiences This will be invaluable reading for those studying events and the environment Adopting a multidisciplinary approach it also draws on geography urban and cultural studies image studies architecture and design environmental psychology and event management and will be of use to a broad academic audience

Dynamics of Fluid and Structural Interactions Jannette Behrndtz Frandsen, 2012-05-15 The book's aim is to integrate the topics of fluid and structural dynamics a developing field in research and academia The purpose of this integration is to identify the causes of structural vibration problems which can be experienced on large engineering structures such as buildings bridges or oil installations and to prevent them at the design stage There are currently no books of this type offered to the primary target group structural engineers There are textbooks on wind loading structural dynamics ocean engineering presented as separate topics but very little material in the literature which attempts to integrate fluid structural dynamics Integration of accurate description of fluid loading and the structural response can provide important knowledge to structural engineers in their analysis and design of structures The book will therefore be of interest to engineers in all areas who have an interest in fluids structures and general vibration problems The book will contribute to the next generation of tools for improving the performance of large structures in coastal areas in the ocean and other areas where large structures will be built It will prepare the new generation of engineers for thorough plans of mitigation strategies in early phases of the analysis and design of structures thus potentially saving human lives during natural hazard events Integrates the study of fluid and structural dynamics Explains and assesses damping techniques Many worked examples and solutions

Knowledge Intensive Business Services and Regional Competitiveness João J. M. Ferreira, Mário L. Raposo, Cristina I. Fernandes, Marcus Dejardin, 2016-04-20 Research interest in the service sector has boomed in recent years as deindustrialisation became entrenched Instead of being regarded as merely supplementary to traditional industry and manufacturing services have generated progressively rising levels of growth in developed economies while at the same time

coming to be recognised as major drivers of innovation Among the factors which have helped service companies notch up swifter growth rates than all other sectors are the outsourcing of such services by other sectors including the development of information and communication technologies and changes to the regulatory legal and market frameworks as well as globalisation and internationalisation The result is a cluster of highly innovative firms which can loosely be grouped under the heading of Knowledge Intensive Business Services KIBS Knowledge Intensive Business Services and Regional Competitiveness charts the development of these firms and explores their success through four mutually linked parts KIBS and industrial dynamics KIBS and their context KIBS and their contribution to regional competitiveness and economic development and finally KIBS and public policy This book is suitable for researchers and policy makers interested in the rise of these influential actors and their influence on regional competitiveness *Proceedings of the XIII International*
