

Visual Effects vs Special Effects

Visual Effects

Visual effects are abbreviated some times as VFX and used for creating imagery with live actions on digital platform for giving it more realistic look with less expense.

Special Effects

Special Effects abbreviated as SFX and use for creating the illusion in different shots which creates whole background and theme for story of particular scene. It sometimes becomes more expensive to have desired result with arrangement of SFX.

Visual Effects

Visual effects combines live action footage with generated imagery for obtaining realistic look and this imagery may include digital or optics, animals, or creatures. Visual effect deals with those effects which may be dangerous, impractical, expensive, time consuming and sometime impossible to capture on film.

Special Effects

SFX is commonly categories in two sections that are mechanical effects and other is optical effects where mechanical effects are generally accomplished at the live-action shooting and includes props, sceneries, scale models, pyrotechnics, animatronics as well as atmospheric effects for getting desired results and in Optical effects there are some techniques involves for creating photographically form of images or film frames for giving that shot real-world look.

Visual Effects

VFX incorporated with addition of a different type of effect such as adding explosion in any scene and it can be done digitally that means it can creates everything with the help of digital media which SFX can do on set and by doing this it adds digital enhancement to the shots.

Special Effects

Whereas SFX creates effect on set during live actions that mean a number of elements used with live actions scene and this scene can express story of that scene properly. You can understand it as practical effects that perform on the shooting set with help of crew and props.

Visual Effects

It is generally referred by filmmakers as bs addition of digital elements for creating any environment of any shot and making it realities such as fire, water, and many other things added digital on the scene of shot for giving feel of these elements on scene.

Special Effects

Whereas SFX refers by filmmakers as elements on the set or practically such as smoke, fire, and many other objects involves physically for narrating story of scene.

Visual Effects

As we know it works with digital platform so when it requires apply that effects on wide area which were capture on set and not appropriate according to requirement of scene then it will easy to do this with VFX or it also required when you want to have additional element with that shot.

Special Effects

SFX is used at time of creation of natural effects such as rain, snowfalls and many other atmospheric effects required during performing particular scene and for this it must need proper planning. Many other things are there which need SFX.
