Indonesia in Transition Chris Manning,Peter van Diermen,2000-07 Explores the social and economic impact of political problems and the economic crisis during the late 1990s Investigates political developments in east Timor and Indonesia and examines relations between Indonesia and Australia Analyses the effects of the crises on poverty the environment and livelihoods civil society and legal institutions and Islam and politics *Scientific and Technical Aerospace Reports* ,1994

Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database Canadian Natural Resource and Environmental Policy

Melody Hessing,Michael Howlett,1997 This book examines policy making in one of the most significant areas of activity in the Canadian economy natural resources and the environment It discusses the evolution of resource policies from the early era of exploitation to the present era of resource and environmental management Using an integrated political economy and policy perspective the book provides an analytic framework from which the foundation of ideological perspectives administrative structures and substantive issues are explored The integration of social science perspectives and the combination of theoretical and empirical work make this innovative book one of the most comprehensive analyses of Canadian natural resource and environmental policy to date

Terrigenous Clastic Depositional Systems William E. Galloway,David K. Hobday,2012-12-06 Nonrenewable energy resources comprising fossil fuels and uranium are not randomly distributed within the Earth's crust They formed in response to a complex array of geologic controls notably the genesis of the sedimentary rocks that host most commercial energy resources It is this genetic relationship between economic resources and environment that forms the basis for this book Our grouping of petroleum coal uranium and ground water may appear to be incongruous or artificial But our basic premise is that these ostensibly disparate resources share common genetic attributes and that the sedimentological principles governing their natural distributions and influencing their recovery are fundamentally similar Our combined careers have focused on these four resources and our experiences in projects worldwide reveal that certain recurring geologic factors are important in controlling the distribution of commercial accumulations and subsurface fluid flow These critical factors include the shape and stability of the receiving basin the major depositional elements and their internal detail and the modifications during burial that are brought about in these sediments by pressure circulating fluids heating and chemical reaction Since the first edition of this book in 1983 there has been a quantum leap in the volume of literature devoted to genetic stratigraphy and refinement of sedimentological principles and a commensurate increase in the application of these concepts to resource exploration and development

Hydropolitics in the Developing World Anthony Turton,Roland Henwood,2002 Bringing contributions by a variety of authors together in one volume is part of an attempt to show that hydropolitics is a growing discipline in its own right The prevailing definition of hydropolitics is widened to include the elements of scale and range This is illustrated through a focus on theoretical and legal

issues case studies from Southern Africa and a proposed research agenda The book is an important addition to the literature on hydropolitics
