Speeches To The Party The Revolutionary Perspective And The Revolutionary Party:

Speeches to the Party James Patrick Cannon, 1973 *Building the Revolutionary Party* Dave Holmes, 1997 *James P. Cannon and the Emergence of Trotskyism in the United States, 1928-38* Bryan D. Palmer, 2021-10-25 Bryan D Palmer reinterprets the history of labour and the left in the United States during the 1930s through a discussion of the emergence of Trotskyism in the most advanced capitalist country in the world Focussing on James P Cannon the founder of American Trotskyism Palmer builds on his previously published and award winning book *James P Cannon and the Origins of the American Revolutionary Left 1890 1928 2007* with a deeply researched and elegantly written study of Cannon and the Trotskyist movement in the United States from 1928 38 Situating this dissident communist movement within the history of class struggle both national and international Palmer examines how Cannon and others fought to revive a combative trade unionism thwart fascism and the drift to war refuse Stalinism s many degenerations and build a new Party and a new International both of which would be dedicating to reviving and realizing the possibilities of revolutionary socialism The result is a study that provides a definitive account of the largest and most influential Trotskyist movement in the world in the 1930s a mobilization whose history recasts understandings of the more extensively studied experience of United States working class militancy and the place of the Comintern affiliated Communist Party within it **U.S. Trotskyism**

1928-1965. Part II: Endurance Paul Le Blanc, Thomas Bias, Bryan D. Palmer, 2018-11-26 U S Trotskyism 1928 1965 Part II Endurance The Coming American Revolution is the second of a documentary trilogy on a revolutionary socialist split off from the U S Communist Party reflecting Leon Trotsky s confrontation with Stalinism in the global Communist movement Spanning 1941 to 1956 this volume surveys the Second World War internationally and on the homefront the momentous post war strike wave ongoing efforts to comprehend and struggle against racism as well as the early years of the Cold War and anti Communist repression in the United States Also covered are internal debates and splits among Trotskyists themselves including a far reaching split in the international Trotskyist movement the Fourth International in the face of a persistent and expanding Stalinism Scholars and activists will find much of interest in these primary sources **The Southern Key** Michael Goldfield, 2020-01-23 The golden key to understanding the last 75 years of American political development the eminent labor relations scholar Michael Goldfield argues lies in the contests between labor and capital in the American South during the 1930s and 1940s Labor agitation and unionization efforts in the South in the New Deal era were extensive and bitterly fought and ranged across all of the major industries of the region In *The Southern Key* Goldfield charts the rise of labor activism in each and then examines how and why labor organizers struggled so mightily in the region Drawing from meticulous and unprecedented archival material and detailed data on four core industries textiles timber coal mining and steel he argues that much of what is important in American politics and society today was largely shaped by the successes and failures of the labor movements of the 1930s and 1940s Most notably Goldfield shows how the broad based failure to

organize the South during this period made it what it is today He contends that this early defeat for labor unions not only contributed to the exploitation of race and right wing demagoguery in the South but has also led to a decline in unionization growing economic inequality and an inability to confront and dismantle white supremacy throughout the US A sweeping account of Southern political economy in the New Deal era The Southern Key challenges the established historiography to tell a tale of race radicalism and betrayal that will reshape our understanding of why America developed so differently from other advanced industrial nations over the course of the last century *Marxism and Historical Practice (Vol. II)* Bryan D. Palmer,2015-09-01 The two volumes of *Marxism and Historical Practice* bring together a wide range of essays written by one of the major Marxist historians of the last fifty years Collected in Volume II Interventions and Appreciations are articles and reviews capturing the breadth of Palmer s interests as a radical historian Cultural forms and representational productions are analysed political readings of historiography and pioneering historical practice provided Themes as diverse as the analytic and political contributions of Eric Hobsbawm and E P Thompson the conflicted legacies of American Trotskyism and the representation of class politics in Scorsese s *Gangs of New York* are covered

The Making of the Democratic Party in Europe, 1860-1890 Anne Heyer,2022-02-15 This book analyses the emergence of modern parties in nineteenth century Europe and explores their connection with the slowly developing institution of democracy The close relationship between party and democracy was established by the founders of the first modern parties who presented themselves as representatives of the people Focusing on the ideas and practices of party founders this book moves away from the traditional view that party formation was the result of industrialisation It instead shows that the response of party founders was to frame and establish the modern party as an alternative to existing models of political representation and one that was characterised by popular participation In order to mobilize their followers party founders gave new meaning to existing structures and developed new practices of political organization The result was the creation of organizations that

continue to shape the history of modern democracy Exploring the foundation of three political parties the German Social Democratic Workers Party SDAP the Dutch Anti Revolutionary Party ARP and the British National Liberal Federation the author analyses the phenomenon of innovative party formation in nineteenth century Europe before the democratic mass membership party had become a widely accepted concept Taking a transnational and comparative approach this book illustrates the decisive role of party founders in the formation of modern democracy making it an essential read for anyone researching the history of democracy and political parties

The Nineteenth Century ,1881 *Nineteenth Century and After* ,1881 Marxism, History, and Intellectuals Suman Gupta,2000 This study focuses on that area of revolutionary socialist philosophy which is devoted to conceiving the intellectual and allocating or refusing to do so a role to the intellectual in the revolutionary process and state Through an examination of the intellectual s role the author tries to reach an understanding of the connotations and pragmatics of transformative socialism in our time Primarily this study is a survey and reexamination of the constructions of and attitudes toward intellectuals in different revolutionary socialist philosophies with particular reference to the corresponding theories of history that are implicit therein The actual process of reconceptualizing transformative socialism in our context and in the light of the above reexamination is taken up toward the end of the book in a more or less polemical fashion
