Spensers Supreme Fiction:

Spenser's Supreme Fiction Jon A. Quitslund, 2001-01-01 In *Spenser's Supreme Fiction* Jon A. Quitslund offers a rich analysis of *The Faerie Queene* and of several texts contributing to the revival of Platonism stimulated by Marsilio Ficino's labours as a translator and interpreter of Plato and the ancient Neoplatonists. To the old issue of the scope and character of Spenser's Platonism Quitslund brings fresh insights from contemporary views on gender and identity, intertextuality and the centrality of fiction within all aspects of Renaissance culture. He argues that Spenser sought authority for his poem by grounding its narrative in a divinely ordained natural order intelligible in terms derived from the ancient sources of poetry and philosophy. Passages central to the poet's world-making project are shown to be intertextually linked to Book VI of the *Aeneid* and to Plato's *Symposium* regarded in the commentaries of Landino and Ficino as explanations of the *gentile prisca theologia*, a cosmology parallel to the tenets of Christianity. The first half of the book examines Spenser's representation of the macrocosm and its replication in human nature's lesser world in the light of divergent tendencies within humanism. The legacy of Plato is shown to be especially important in the esoteric tradition which made the province of natural philosophy part of the soul's itinerary back to its otherworldly origins. In the second half *The Faerie Queene* is interpreted as an unfolding pattern: the dynamic order of nature is flawed but not fallen and seen against that background human culture contains in its myths and images both corruptions of natural impulses and aspirations to transcend the limits imposed by mortality.

In the Anteroom of Divinity Feisal Gharib Mohamed, 2008-01-01 *In the Anteroom of Divinity* focuses on the persistence of Pseudo-Dionysian angelology in England's early modern period. Beginning with a discussion of John Colet's commentary on Dionysius' twin hierarchies, Feisal G. Mohamed explores the significance of the Dionysian tradition to the conformism debate of the 1590s through works by Richard Hooker and Edmund Spenser. He then turns to John Donne and John Milton to shed light on their constructions of godly poetics, politics and devotion and provides the most extensive study of Milton's angelology in more than fifty years. With new philosophical, theological and literary insights, this work offers a contribution to intellectual history and the history of religion in critical moments of the English Reformation.

The Oxford History of Classical Reception in English Literature Patrick Cheney, Philip Hardie, 2015-10-29 *The Oxford History of Classical Reception* OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers. Covering the full range of English literature from the early Middle Ages to the present day, OHCREL both synthesizes existing scholarship and presents cutting-edge new research employing an international team of expert contributors for each of the five volumes. OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods, the processes of

canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This second volume covers the years 1558 1660 and explores the reception of the ancient genres and authors in English Renaissance literature engaging with the major and many of the minor writers of the period including Shakespeare Marlowe Spenser and Jonson Separate chapters examine the Renaissance institutions and contexts which shape the reception of antiquity and an annotated bibliography provides substantial material for further reading

Early Modern Literature and the Bodies of a Reformed Eucharist Julianne Sandberg,2024-12-26 Examining what the eucharist taught early modern writers about their bodies and how it shaped the bodies they wrote about this book shows how the exegetical roots of the Eucharistic controversy in 16th century England had very material and embodied consequences To apprehend the nature of Christ s body its nature presence closeness and efficacy for these writers was also to understand one s own And conversely to know one s own body was to know something particular about Christ s Sandberg provides new insights into how Edmund Spenser William Shakespeare John Donne and Aemilia Lanyer use the reformed eucharistic paradigm to imagine the embodied significance of the sacrament for their own bodies the bodies of their narrative subjects and the body of their literary work

She shows the significance of this paradigm was for poets and playwrights at this time to represent the embodied self and negotiate how the body was read interpreted and understood

French Connections in the English Renaissance Catherine Gimelli Martin, Hassan Melehy, 2016-04-15 The study of literature still tends to be nation based even when direct evidence contradicts longstanding notions of an autonomous literary canon In a time when current events make inevitable the acceptance of a global perspective the essays in this volume suggest a corrective to such scholarly limitations the contributors offer alternatives to received notions of influence and the more or less linear transmission of translatio studii demonstrating that they no longer provide adequate explanations for the interactions among the various literary canons of

the Renaissance Offering texts on a variety of aspects of the Anglo French Renaissance instead of concentrating on one set of borrowings or phenomena this collection points to new configurations of the relationships among national literatures Contributors address specific borrowings rewritings and appropriations of French writing by English authors in fields ranging from lyric poetry to epic poetry to drama to political treatise The bibliography presents a comprehensive list of publications on French connections in the English Renaissance from 1902 to the present day *Renaissance Papers 2021* Jim Pearce (Director of Graduate Studies), James M. Volition's Face Andrew Escobedo, 2017-04-30 Modern readers and writers find it natural to contrast the agency of realistic fictional characters to the constrained range of action typical of literary personifications Yet no commentator before the eighteenth century suggests that prosopopoeia signals a form of reduced agency Andrew Escobedo argues that premodern writers including Spenser Marlowe and Milton understood personification as a literary expression of will an essentially energetic figure that depicted passion or concept transforming into action As the will emerged as an isolatable faculty in the Christian Middle Ages it was seen not only as the instrument of human agency but also as perversely independent of other human capacities for example intellect and moral character Renaissance accounts of the will conceived of volition both as the means to self creation and the faculty by which we lose control of ourselves After offering a brief history of the will that isolates the distinctive features of the faculty in medieval and Renaissance thought Escobedo makes

his case through an examination of several personified figures in Renaissance literature Conscience in the Tudor interludes Despair in Doctor Faustus and book I of The Faerie Queen Love in books III and IV of The Faerie Queen and Sin in Paradise Lost These examples demonstrate that literary personification did not amount to a dim reflection of realistic fictional character but rather that it provided a literary means to explore the numerous conundrums posed by the premodern notion of the human will This book will be of great interest to faculty and graduate students interested in medieval studies and Renaissance literature Medievalia et Humanistica, No. 34 Paul Maurice Clogon, 2009-01-16 Since its founding in 1943 Medievalia et Humanistica has won worldwide recognition as the first scholarly publication in America to devote itself entirely to medieval and Renaissance studies Since 1970 a new series sponsored by the Modern Language Association of America and edited by an international board of distinguished scholars and critics has published interdisciplinary articles In yearly hardcover volumes the new series publishes significant scholarship criticism and reviews treating all facets of medieval and Renaissance culture history art literature music science law economics and philosophy Medievalia et Humanistica Editorial Board and Submissions Guidelines
