## Spider Cup:

Spider's Web Carter Johnson, 2016-04-08 Millennium City 2027 Deep within the city's polluted and overcrowded Red District is a club called the Cat O Nine and in this club is a man named Spider who will be your guide through this future metropolis. A data thief by trade Spider will find his entire world changing overnight with the arrival of a young abductee named Jennifer. Determined to have her implants removed Spider will use every trick up his sleeve to get Jennifer to a surgeon and back again. But with government agents and corporate goon squads after them can he bring her back alive? A

*Spider's World* Friedrich G. Barth, 2013-03-09 Spiders are wonderful creatures. Their varied and complex range of behavior and highly developed sensory systems are excellently adapted to the environmental conditions as is proven by their evolutionary success. Over 400 million years spiders have developed their sensory organs to a fascinating technical perfection and complexity. In his intriguing book Professor Friedrich G Barth puts this technical perfection into the context of biology in which the interaction between environment and sensory organs and the selectivity of the senses as a link between environment and behavior play a major role. The Spider's Bride, **Sammy Spider's First Haggadah** Sylvia A. Rouss, 2014-01-01 Sammy leads young children through the steps of the Passover seder telling the story of the Exodus asking and answering the Four Questions and sampling the traditional foods. Includes creative readings and songs as well as colorful paper collage art by Katherine Janus Kahn. **Texts and Textiles** Diana Mary Eva Thomas, 2017-03-07 This study shows how fiction that makes use of textiles as an essential element utilizes synaesthetic writing and synaesthetic metaphor to create an affective link to and response in the reader. These links and responses are examined using affect theory from Silvan Tomkins and Brian Massumi and work on synaesthesia by Richard Cytowic. Lawrence Marks and V S Ramachandran among others. Synaesthetic writing including synaesthetic metaphors has been explored in poetry since the 1920s and more recently in fiction but these studies have been general in nature. By narrowing the field of investigation to those novels that specifically employ three types of hand crafted textiles quilt making knitting and embroidery the book isolates how these textiles are used in fiction. The combination of synaesthesia memory metaphor and particularly synaesthetic metaphor in fiction with textiles in the text of the case studies selected shows how these are used to create affect in readers enhancing their engagement in the story. The work is framed within the context of the history of textile production and the use of textiles in fiction internationally but concentrates on Australian authors who have used textiles in their writing. The decision to focus on Australian authors was taken in light of the quality and depth of the writing of textile fiction produced in Australia between 1980 and 2005 in the three categories of hand crafted textiles quilt making knitting and embroidery. The texts chosen for intensive study are Kate Grenville's *The Idea of Perfection* 1999 quilting Marele Day's *Lambs of God* 1997 knitting and Anne Bartlett's *Knitting* 2005 knitting Jessica Anderson's *Tirra Lirra by the River* 1978 embroidery and Marion Halligan's *Spider Cup* 1990 embroidery.
