*Religion in Republican Italy* Celia E. Schultz, Paul B. Harvey, 2006-12-14 This book explores how recent findings and  
research provide a richer understanding of religious activities in Republican Rome and contemporary central Italic societies  
including the Etruscans during the period of the Middle and Late Republic While much recent research has focused on the  
Romanization of areas outside Italy in later periods this volume investigates religious aspects of the Romanization of the  
Italian peninsula itself The essays strive to integrate literary evidence with archaeological and epigraphic material as they  
consider the nexus of religion and politics in early Italy the impact of Roman institutions and practices on Italic society the  
reciprocal impact of non Roman practices and institutions on Roman custom and the nature of Roman as opposed to Latin  
Italic or Etruscan religion in the period in question The resulting volume illuminates many facets of religious praxis in  
Republican Italy while at the same time complicating the categories we use to discuss it      The J. Paul Getty Museum
